The closing dates for the JOURNAL are February 1, June 1, July 1, and November 1. The subscription rate is \$2.00 per year. Second-class postage paid at Raleigh, N. C. 27602.

THE COVER PICTURE

We are indebted to Mrs. C. O. Huntley of Lenoir for the line drawing of the first dental office in Lenoir which appears on the cover of this issue, and for the following historical background on the building and its remarkable owner, Dr. Spainhour:

"Dr. James Mason Spainhour who built Lenoir, North Carolina's first dental office in 1875, received his degree from the Baltimore College of Dental Surgery. While in Baltimore he met and married Miss Selena Spencer. Three children, Eleanor, James and Charles were born to them.

"Dr. Spainhour became one of Lenoir's most influential and beloved citizens. He was an expert on Indian customs and in 1883 influenced the Smithsonian Institute of Washington, D. C., in sending J. P. Rogan to assist in unearthing mounds in Caldwell County. Five important excavations were made. Eight years earlier when Dr. Spainhour was excavating for his dental office, two Indian graves were unearthed. Perhaps his interest in Indian lore was more than incidental. His grandmother Mason had been scalped by Indians when just a baby and left for dead. The fact that she lived after such a horrible experience so filled the Indians with awe that they treated her with a deference shown only to deities.

"When the Caldwell Masonic Lodge was organized in 1866—Highbrington (later changed to Hibriten) Lodge A.F. and A.M. — Dr. Spainhour was appointed Senior Warden. He later served as Worshipful Master. He was also a member of the group who organized the Pioneer Library — the first circulating library in North Carolina, starting with 300 volumes. He was a stockholder in the Lenoir Publishing Association which started publishing the *Caldwell Messenger* in 1876, and was one of the original directors of Citizens Building and Loan Association founded in 1888 and still operating.

"The dental office has been moved to Davenport Hill — site of old Davenport College with plans to use it as a museum under auspices of Caldwell County Historical Society."

*In grateful appreciation
this issue is dedicated to . . .*

**Riley E. Spoon, Jr., D.D.S.
Winston-Salem, North Carolina**

Riley Spoon is a major asset to dentistry in North Carolina. As campaign chairman for the Dental Foundation of North Carolina, Incorporated, almost one-half million dollars was raised for the Dental Research Center in Chapel Hill because of his dedicated efforts.

He has served his profession as president of the Second District Dental Society, president of the Dental Foundation, and chairman of the Executive Committee of the North Carolina Dental Society.

Riley is a native of Winston-Salem and received his dental education at the University of Maryland.

In virtually every organization there are select men who go above and beyond the call of duty, thereby making enormous contributions. Riley Spoon is such a man.

The President's Page

TODAY we live in a changing world, and we are obligated to adapt ourselves to the demands of society as these changes take place. Further, we are in a position to help guide these changes in the future.

Some of these changes will be brought about by the resolution adopted by the A.D.A. in Dallas when the House of Delegates adopted the "American Dental Association Dental Health Program for Children." The objective is to make the benefits of an organized program of dental health education, preventive dentistry, and dental health care available to all children, particularly the needy, and the under privileged.

This is the first time in history a profession has taken such action before legislation has been introduced by government. We do not know what kind of action Congress will take, but we as a profession should have more bargaining power by having made the proposal.

This resolution, and a rather lengthy one, should be studied by everyone when it is published, for it could have more influence on the practice of dentistry than all previous legislation we have had in the last decade, even when you consider that out of the last twenty-five pieces of social legislation passed by Congress, at least half of them were dealing with health, and the end is not in sight.

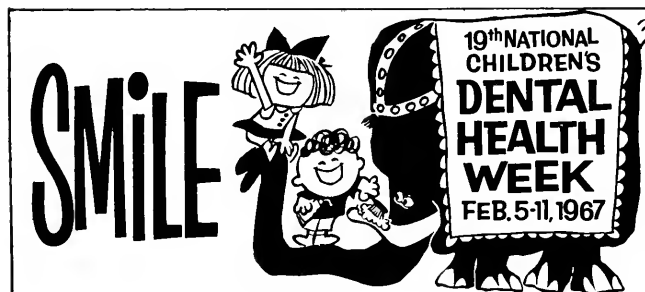

To meet the demand that such legislation, if passed, would create, it will be necessary to utilize the auxiliary personnel to the fullest extent, and further study must be made to see what additional duties can be delegated to them as a member of the health team.

There are about two million people covered under dental prepayment plans at the present time. This represents mostly organized labor that is receiving this as fringe benefits. Under the Children's Dental Health program, our dental service corporation must consider not only group plans, but meet the needs of individual families.

Now is a good time to mark your appointment book for our annual meeting in Pinehurst, May 10-14. The program committee has come up with what we think is an excellent program. The meeting opens with a general session Wednesday night, when Dr. F. Darl Ostrander, President-Elect of the A.D.A., will be the speaker. Thursday, Dr. Robert Walker of Dallas,

Texas, on preventive oral surgery, and Dr. F. N. Weber, of Memphis, Tennessee, on preventive orthodontics, will be the clinicians. Friday, Dr. Merle Hale, Iowa City, Iowa, will lecture on drugs and Dr. Frank Grossman, of Washington, D .C., on preventive dentistry. Friday night, Dr. Jacob Koomen, head of the State Board of Health, and Dean James Bawden, of the UNC School of Dentistry, will present a program of "What's New in North Carolina." Saturday morning, Dr. W. D. Strickland and Dr. B. R. Baker of Chapel Hill will present a clinic on chairside assisting. This is an outstanding program that usually takes a day to present. They are going to condense it to a three-hour program for this meeting. You should try to have your assistant attend this. Saturday afternoon the table clinics will be presented, followed by the installation of offices, social hour, banquet, and dance.

Letters to the Editor

Any communication directed to the director's office is considered of interest to all dentists and will be published at the discretion of the editor.

AUGUST 17, 1966

I wish to commend you on the publication of the article by Dr. Zeno L. Edwards of Washington, North Carolina entitled "North Carolina Dental Society Surrenders to Extremists Groups" and your prefix statement was most justifiable.

I think when editors get to where they are intimidated concerning the publication of items of controversial issues pertaining to our association's welfare it will be another dark day for our profession. I sincerely congratulate you on your JOURNAL.

HOWARD B. HIGGINS
SPARTANBURG
SOUTH CAROLINA

EDITOR'S NOTE: *An inquiry to one of the major insurance companies concerning dental insurance brought the following reply. We believe the thoughts on this issue by someone outside the profession are interesting.*

JUNE 3, 1966

1. This insurance company is writing only group dental insurance and not individual. We have voluminous information in our files concerning dental procedures by major insurance companies. However, from our inquiries it appears that most of the action concerning den-

tal insurance is concentrated on the West Coast. This is in many instances part of the bargaining by labor unions.

2. The major problems are as follows:

(a) Due to the elective nature and problem of over-utilization.

(b) Our experience and information indicates that the first year's experience is noticeably worse than the experience in future years. It appears that people are securing services which they have neglected in the past.

(c) The selection against the company by either an individual or a group.

(d) To cover or not to cover orthodontics.

3. I believe that the answer to No. 2 applies also to No. 3. However, here are some additional reasons:

(a) High claim administration cost in relation to the dollar amount of benefits provided.

(b) Many small claim payments which in many instances could best be budgeted for rather than insured.

(c) The question whether or not a deductible should be applied before insurance payments commence.

(d) Should examination and prophylaxis be covered with or with-

out a deductible? If not covered, then the preventive reason for the dental coverage is lost. If covered, the problem is the routine cost of covering such a benefit.

4. I anticipate that our company will continue to provide dental coverage only on the group basis. I further anticipate that most other major insurance companies will only provide insurance on a group basis. I have doubts that expansion will

take place unless a method can be found to make the benefits more attractive and some method to cut claim costs. My own personal feeling is that much of dental expense can definitely be budgeted and that insurance should be limited in those instances where the expense is substantial.

It means that the laboratory has voluntarily sought inspection and has met the standards set by the Joint Commission.

Needed: Strong Leadership

By William H. Oliver

As president, Dr. Oliver prepared this address for presentation at the Fourth District meeting in Fayetteville, October, 1966. Unfortunately, injuries received in an automobile accident prevented him from delivering it in person. It is one of the finest presented anywhere. Much thought, knowledge, and wisdom are contained herein.

Dentistry is a great profession, a continuous challenge, and a thrill to the man who endeavors to keep abreast of the continuous, wonderful innovations and improvements in procedures, equipment, and knowledge of "know-how." I am disturbed, however, by the intellectual unpreparedness of many of our people to face the inevitable which is now looming on the horizon.

When we look around us, it is obvious that governmental controlled dentistry is on the horizon. Only the blind choose not to see this. Socialization of our profession can and will come unless we as-

sume the true scope of our role as "teachers." By concentrated patient education, we can escape being categorized as a "repair craft" by a majority of the laity and thus prevent being "gulped" by the present socialistic trends.

The care of the strength of our voluntary organizations should lie in two basic elements. The first is that they are voluntary, and the second is that they consist of individuals who have joined for a common purpose. The power of any effective group is far greater than the power of each of its individual members. The harmonizing of personalities in our group should generate inspiration and new power which knows few limitations.

Today the American Society has reached a transitional period in its development. Its ethical and moral environment is at a very low ebb as compared with its scientific achievements. The quality of our prevailing social habits and customs has lagged far behind our achievements technologically. Thus, our democratic culture faces a crisis resulting from a failure in leadership, a downgrading of personal values,

and a desperate need for a sense of purpose.

As we look around us, we see a great deal of apprehension and a society permeated with an undue amount of tension and insecurity. It appears that science is not enough without a spiritual and human purpose. Thus our need for more compassion.

We can truthfully say it has always been a humanitarian gesture, as well as an obligation to our profession, to assist the poor and indigent. This practice, contrary to the belief of some of our governmental leaders, is particularly true as it relates to dental care and the emergency treatment of those who are financially unable to go to the dental office. All of us realize that in these instances the talents and skills we lend to serve those in such a position will never be monetary. We do realize, however, that we have made our contribution during the present era on our own volition and not under the direction of some appointed governmental agency which knows little of our aims and ideals. If the image of dentistry you hold is to help your fellow man en-

joy maximum oral health with a minimum of discomfort, then you must be willing to fight for the privilege of being a dentist with the freedom and opportunity to practice your profession in a free society.

In order to maintain dentistry as a dynamic profession, we cannot limit our efforts to the dental office. We must expand them into our schools and especially our societies. There are many national issues to which we must dedicate our strength of body, mind, and spirit, or we may find that we have lost the very

WILLIAM H. OLIVER

values we treasure most as Americans and dentists.

An important area of service to our profession is participation in the activities of our societies. No organization can either combat governmental control or function without the assistance of the membership. Dental societies are not different from other groups. There are always too few who do all the work while the majority merely sit back and benefit from or criticize the efforts of others. To have a strong and free society we must actively participate in society affairs and express our opinions on the urgent issues that confront the profession, and when important problems are first presented, express our views!

A profession with the potential that is inherent in dentistry will require strong, well-supported organization through which the group voice of its members can provide the same high quality of professional advice and assistance to public groups and agencies as the individual dentist renders his individual patients. It will require district and state dental societies with effective voice and well-supported committees that can develop information on the production and distribution of adequate dental care without regimentation.

Our profession needs communication with the public and it needs it badly to prevent being restricted due to the decline in manpower in proportion to the rapidly expanding population and ever increasing government health plans. This alone can bring about socialization much faster. Some of our own members are speeding the time because too many fail to attain our desired goals. We fail to attend our professional

meetings. We fail to take post-graduate short courses and attend seminars. We fail to read our dental journals. We lose the enthusiasm we seemed to possess, and dentistry thus becomes a chore. We have stopped trying to improve ourselves and our profession. We blame our patients, our employees, our schools, and everyone but ourselves. By this reaction, aren't we ready to relinquish free enterprise for a possible "quota plan" and fixed "salary scale"?

At the present time we are fortunate to be members of the dental profession — a profession wherein we have no competitors, only colleagues. We now direct and control a profession where we joyously share our knowledge with, rather than conceal knowledge from, our fellow practitioners. Ours is a profession where we are blessed with the opportunity of primarily serving our fellow man for his benefit and secondarily for our gain. We have a profession which now gives rise to unselfish organizations whose objectives include the motivation, freedom, and stimulation for us to partake freely of new ideas and techniques. It is this free exchange that distinguishes the humanitarian professions from the trades and industry.

The theme and spirit of our Constitution and Bill of Rights is "The Sovereign power of the United States rests with the people: and the people, as free individuals working together, create, control, and conduct the life of this country."

To assure that democracy of the American people should live, our forefathers guaranteed the rights to join together in organizations, to speak their minds without fear of reprisal, and to chart their own

course of action. They did this by the Bill of Rights. These constitutional rights undergird this body meeting here on a voluntary basis, to meet freely and voice opinion freely. To me, the importance of group actions is a feeling so deep and so ingrained that it seems to have become instinctive. The interweaving of our lives with groups is so commonplace that we don't even think about it. Paul Hoffman characterized our voluntary organizations as the "greatest phenomenon of American democracy."

Dentistry requires strong leadership now more than ever before. Leaders who are not afraid to dare to move forward. More important perhaps are the members who share his courage and are willing to work vigorously to solve new problems, members who are willing to advise

and not harass their leaders, and more especially members who will study the facts, weigh the issues thoroughly, and then make decisions. We must provide more professional and community brainpower and leadership, since this is the ultimate toward which a nation is a little bit stronger and better — in morality, integrity, wisdom, and guts!

In conclusion, I will only reiterate that we in dentistry have been presented with one of the greatest challenges in the history of our profession — to continue to advance in knowledge and skill and to render effective health service to our fellow man. Let us accept this challenge!

Training Dental Auxiliary Personnel In the Community College

By Miriam Daughtry

Miss Daughtry is Supervisor of Health Occupations for the Department of Community Colleges. She describes the career opportunities for dental auxiliary personnel within the community college system in North Carolina.

In September, 1961, the Dental Laboratory Technology two-year program was established at the Durham Industrial Education Center whose name has been changed now to the Durham Technical Institute. This was the first Dental Auxiliary personnel program started in North Carolina that was not directly connected with the School of Dentistry, University of North Carolina, Chapel Hill, North Carolina; however, it was Dean Brauer of that school who requested the State Division of Vocational Education to establish this educational course and who with his staff acted then and continues to act as advisors to the administrative institution. The

University of North Carolina, School of Dentistry, students work with the Durham Technical Institute Dental Laboratory students as a team for a part of the curriculum. When the Department of Community Colleges, State Board of Education, was created in July, 1963, this program along with all other adult education programs was transferred to the North Carolina Department of Community Colleges.

Forty-two students have been graduated from this program since 1963; however, more than one-half of these are out-of-state persons and thus seek employment out of North Carolina. Recruitment of qualified North Carolina students has been of concern to those connected with the program.

Classes are admitted in September, and the capacity for 1966 is being increased to twenty-eight students to be admitted to this two-year technical curriculum which upon completion awards the associate in applied science degree.

The Durham Technical Institute program of Dental Laboratory Technology is one of the five pro-

programs in the United States, and the only one in the Southeast that is accredited by the Council on Dental Education, American Dental Association.

There are three Dental Assistant one-year programs in North Carolina located within the following institutions of the Department of Community College system:

1. Technical Institute of Alamance
Burlington, North Carolina
 - a. Established September, 1961
 - b. Graduated through 1966—54
2. Wayne Technical Institute
Goldsboro, North Carolina
 - a. Established September, 1963
 - b. Graduated through 1966—48
3. Central Piedmont Community College, Charlotte, North Carolina
 - a. Established 1964
 - b. Graduated through 1966—31

The total number of graduates of trained dental assistants to join the dental team in North Carolina since 1962 is 133.

The total class enrollment capacity per year for these three programs is approximately seventy-five students at present as facilities

at each institution are limited in space and clinical resources.

The Department of Community Colleges sponsored its first Dental Hygiene education program at Central Piedmont Community College, Charlotte, in September of 1965 with an enrollment of thirty-eight. Wayne Technical Institute, Goldsboro, admitted their first Dental Hygiene class of eleven in March, 1966. Additional classes will be admitted in September so that the enrollment for these two years should be:

Second-year students	46
First-year students	70
Fall, 1966	Total 116

The first and only Dental Hygiene education program to be financed by the Manpower Development and Training Act was granted the Guilford Technical Institute, Jamestown, North Carolina, in April, 1966, which made provision for enrollment of sixty dental hygiene students to be trained at this institution during the next two years.

In January, 1965, the State Ad-

visory Committee for Education of Dental Auxiliary Personnel was appointed by the State Board of Education, Department of Community Colleges, Vocational - Technical Education Division. This was composed of six dentists, one dental hygienist, two dental assistants, one dental laboratory technician, the executive secretary of the North Carolina Dental Society and three presidents of institutions where dental auxiliary personnel programs were being conducted. The role of this committee is to advise the agency concerned with offering educational programs so that there may be mutual understanding, joint responsibility and a definite course of action between the developers of a program and the recipients of the product of the educational activity.

This committee has provided a two-way communication in its advisory capacity to the Department of Community Colleges which is the legal agency in establishing educational programs within the laws and established policies that govern them. There have been five meetings of the committee with the next one scheduled for October 5, 1966,

at the Guilford Technical Institute Jamestown, North Carolina.

Dr. W. Dallas Herring, Chairman of the State Board of Education, stated in his talk to the Boards of Trustees of the institutions in the North Carolina Community College system on May 11, 1966, that "The goal of the Community College system must be as comprehensive as the needs of the students. . . . We must support policies which will open all of these doors to all of the people who can walk through them with any degree of promise to themselves and to the State."

This is what the Department of Community College system is trying to do for the dental profession — trying to provide the dentists of North Carolina with trained Dental Auxiliary workers for the dental team so that the dental needs of the people of North Carolina will be met.

DEPARTMENT OF COMMUNITY
COLLEGES
STATE BOARD OF EDUCATION
RALEIGH
NORTH CAROLINA
JUNE, 1966

The Golden Thread

**By the Staff
Miller and Breland
Pedodontic Associates**

Auxiliary personnel of this staff combine a total of 64 years dedicated to dentistry and include: Loretta Gaddy, Hygienist; Dorothy Holcombe, Janice Makarow, Jan Radovich, Evelyn Reavis, Carolyn Vance, and Virginia Wilkinson. This paper is in two parts. The second section will appear in the next issue.

A recent newspaper story reported that store executives were becoming increasingly concerned about the drain on their sales despite effective advertising, because of rude, careless, casual sales personnel who did not "relate" properly to customers. The merchants decided that this vital link in public relations needed close attention. Could not this be applied to the dental office?

I. The Office Personality

Are we "relating" to our patients as we should? Or, regardless of the quality of dentistry, is a visit to our offices not always a pleasant experience? Are we reluctant to make

changes which would eliminate the offenders? Are patients equally hesitant to tell us, preferring the easier gesture of simply not showing up for the second visit? And was the offense the classic "I'm sure I don't know" answer to a simple inquiry, such as might be made, for example, to a patient wanting to know how much longer it would be before the doctor — at the moment handling an emergency — would be?

Phrases casually habituated, born of ignorance, impatience, or whatever — the all-too-human failure under pressure defeats our best effort to show true professional care for the well-being, comfort, and mental, as well as dental health of our patients.

II. Do Our Words Speak for Us?

People are sophisticates in communication. They know when the amateurs are at work and they back away from those who have not kept up to date in this modern science of public relations. Rudolph Flesch has frequently in his writings emphasized the importance of words and calls vocabulary building "the great success story of our time." Words well chosen must be well spoken.

The mere mechanics of word ut-

terance pose no problem. We speak, forming the letters with our tongue, with certain conformations of our lips and certain controls on our breathing — all of this like shifting gears in a car, without a thought. But should our use of words be this mechanical? Too often it is.

Take the word "dentistry." For a 4-year-old, the word is what one would make it, equated with discomfort or with a pleasurable experience. A child with a new functional appliance may feel the urge to adjust her definition of dentistry between the time the dentist inserts it — with praise for her cooperation — and when she is greeted by her friends. Likewise, "dentistry" may have a different connotation for the child whose father is a dentist. And we ourselves, of course, have our own highly developed concept of the title dentist!

III. Those Powerful Wordless Messages

Although we are surfeited with words, via television, newspapers, magazines, words to inform or pressure us to buy or take some action — much communication reaches us without words. People given the right approach, will respond to suggestion. To borrow from the jargon of Madison Avenue, people will react positively when the persuasion is in the right package, when presentation, mood, atmosphere, tone and setting are carefully directed toward some fundamental human need, interest, instinct, desire, wish, dream or whatever. Yet too often, our "package" is not properly tied, and everything is not as it should be. When a patient enters our office, "dentistry" is communicated at once, by an "odor," for example,

which it is understood is typical. Is this a pleasant scent, wafted from proper ventilation, or of odors from the open door of the operator? Does the entering patient encounter the sight of a gaping mouth, hear the whirring instruments, sit within the bustle of office filing and telephone ringing? Or is he guided by inviting chairs and good, current reading matter to a room which introduces him to a pleasant impression of what is to come, with a good-looking receptionist presiding inconspicuously receiving him, summoning him, and sending him on his way later, all with a personal touch, the use of his name, wish for a good week-end or whatever is appropriate? Our professional standards are written — or should be — everywhere about us in mute lines of communication which reach our patients with tell-tale messages while we perform our service. Dentistry is an intimate service.

So often in our directness of communication, we are so concerned with "coming to the tooth," that all around it, including the proud possessor, may seem secondary, and so we forget the indirect approach by which we relate to the patient.

IV. Our Own Selves, Inc.

How easy it is on a busy day to overlook the effect upon the patient of our smile — or absence of a smile — our clothes, our manner, our voice tone, our handshake! All of these little signs tell whether we care, whether we are confident or faltering, tired or rested, patient or frustrated. Eyes may flash in anger when a patient does the wrong thing, or the yawn of boredom betrays us. Patients expect us to act as do other human beings, even with our au-

authority and pressures. By what one says, or even without saying a word, our patients can take our measure for the day and know what to expect. We show whether or not we truly contain within us the knowledge that is truth, that gives us the key to unlock that which is the correct diagnosis, which in turn gives us correct information for proper treatment planning.

V. The Telephone—Friend or Monster

Another line of communication, much abused and misunderstood,

the telephone, is such a vital line to our patients' welfare that it is appalling to consider how it is devaluated. "The voice with a smile" wins more friends than a reduction in rates. The instrument at our hand so often becomes a destructive tool. It is not sufficient to choose the right way to telephone. There is the right way with finesse.

STAFF OF MILLER AND BRELAND

To Refer or Not

By R. H. Watson

The matter of referring patients has become one of absolute necessity if we are to offer the best health services to our patients. None of us are prepared to treat all types of dental problems, and all concerned are fortunate to have available other practitioners to rely upon when the problems go beyond that which we are prepared to treat.

It should be a simple matter to send Mrs. Jones to Dr. Brown in order that he may help her in some way better than we can. Certainly, most of the time it is a simple matter, but too often a simple referral becomes complicated to the extent that many times the relationship between the involved parties becomes strained, and even more unfortunate, treatment of the patient is interrupted or even discontinued.

As in most human relationships, proper understanding will usually eliminate the problems of dealing with others. In the case of dentists and their patients, and the matter of

referring patients to other practitioners, the elimination of problems comes only with mutual acceptance by all the involved persons and proper communication.

I have prepared an outline in the form of questions that must be considered about the people involved, and I sincerely hope you can gain from them as much as I have.

About the Patient

Do you know this patient?

1. desire for dental services
2. ability to pay
3. personality
4. medical and dental history

Do you know the problem?

1. thorough examination
2. diagnosis
3. needs established
4. case planned

About Yourself

Why am I referring this patient?

Do I want optimum dental service here?

Can I treat this patient?

Have I properly explained to the patient why I am referring?

Have I properly "introduced" and elevated the other man?

Has the patient been motivated?
Have I prepared proper records
for the other fellow?

Have I properly communicated
with the other fellow concerning the
patient's problem and overall treat-
ment plan?

Have I conveyed all helpful in-
formation?

Have I explained to the patient
the order in which the work is to be
done?

Are arrangements complete for
the patient to return to my office
for other work?

Does the patient understand who
is responsible for what, and that I
stand ready to help with any prob-
lem at any time?

About the Other Fellow

Does he have the technical skill?

Will he exercise proper care and
judgment?

Will he have rapport with the
patient?

How will his work fit into the
overall plan of treatment?

Will he communicate and dis-
cuss his work as part of the overall
plan of treatment?

Will he charge a fair fee?

Will his fee deter the patient

Book Reviews

Atlas of Endodontic Technique—A Clinical Guide. By Irving I. Abramson and J. Philip Norris. C. V. Mosby Co., 1966. 188 pages and 82 illustrations. \$16.00.

The authors state very candidly the intention of this publication — a clinical aid and practical guide for endodontic techniques. It has some value and interest for the practitioner who occasionally renders an endodontic service, or a student seeking some visual evidence in the area of endodontic therapy. Its primary value is in the numerous illustrations describing in visual detail routine and surgical procedures employed in endodontic therapy. The size and style of type, margination, and illustrations make this a very easily read text. This book has use as a readily available reference for the practitioner who desires to treat a pulpless tooth. It should be noted that many pitfalls will be found by those who rely on this source for the total requirements for endodontic therapy.

A Textbook for Dental Assistants. By Virginia R. Park, D.D.S. and Joseph R. Ashman, B.A., M.S., D.D.S. W. B. Saunders and Company.

The scope of dental assisting should be read by all dental assistants, new and old alike.

This book is extremely complete and well illustrated. It includes the roll of the dental assistant, the dental health team, the future of dental assisting, the basic sciences of

dentistry and clinical practice. There are sections which break down the various types of dental practice and the adaptations necessary for the assistant.

The overall format and detail in information are impressive. It is recommended highly as a guide for dental assistant.

Dental Radiography — An Introduction for Dental Hygienists and Assistants. By Richard C. O'Brien. D.D.S. W. B. Saunders and Co.

This is one of the most modern, up-dated, and complete books written for hygienists and assistants. The illustrations are excellent and the book is not too technical. Every hygienist and assistant should have this book for reference.

Dimensions of Dental Hygiene. By Pauline F. Steele. Lea and Febiger.

This book is both interesting and informative. Miss Steele did an excellent job of presenting her information and illustrations. Her contributors were well chosen. It is recommended for the library of any hygienist as a reference or just to refresh her memory on histology and pathology.

THE DISTRICT MEETINGS—1966

BY THE DISTRICT EDITORS

Fall in the Mountains

GOOD weather and a fine clinician made the 45th annual meeting of the First District at Grove Park Inn, Asheville, a success. On Saturday evening local arrangements chairman, E. Kent Rogers, provided an excellent meal and dance. Sunday morning all golfers and duffers descended on the Asheville Country Club for the annual tournament. The winners were: Charles Griffith, Grady Mauney, and Charlie Abernethy, all of Forest City.

Following a traditional Grove Park Inn buffet dinner on Sunday night, the first business session was held, with President Jack Girard presiding. The following members were voted into the Society: Drs. James H. Barnhill, Hickory; Richard P. Belton, Gastonia; John W. Bottoms, Canton; Cleveland W. Floyd, Gastonia; Otis F. Hendren, Gastonia; Frank E. Hendricks, Waynesville; Joseph F. Laton, Morganton; Walter T. McFall, Asheville; Roland L. Mayberry, Dallas;

Jerry M. Parsons, Weaverville; Alfred P. Stepp, McAdenville; Sidney L. Woody, Gastonia.

By vote of the Society, the district dues were raised from \$6.00 to \$10.00 annually and Grove Park was selected as the site for the 1967 meeting. Among guests present were Dean Jim Bawden, Chapel Hill; Dr. Homer Guion, Charlotte; and Dr. Roy Lindahl, Chairman of the Dental Service Corporation Committee, who reported on its progress.

Dr. Clifford Ochsenbein, Director of Graduate Periodontics at the University of Kentucky, was the clinician on Monday morning. He emphasized that many times in our haste to "start cutting tissues," we forget how important home care is to the success of the case, and that part of home care instruction is to teach the patient to examine his or her own mouth. He reminded us that one must be a good salesman in order to teach oral hygiene.

Eight informative table clinics were presented Monday morning

and a humorous talk by Mr. Paul Jones, of Hendersonville, highlighted the luncheon.

The final business session was held Monday afternoon following Dr. Ochsenbein's concluding remarks.

New officers elected and installed included: Max W. Carpenter, Asheville, president; Cecil A. Pless, Jr., Asheville, president-elect; John T. Adair, Newton, vice president; William A. Mynatt, Asheville, secretary-treasurer; John W. Girard, Jr., Asheville, and Robert B. Littor, Shelby, delegates; and E. Ken Rogers, Asheville, executive committee member.

F. A. Buchanan, Hendersonville, was re-appointed editor.

FIRST DISTRICT OFFICERS 1966-67. (l to r) John T. Adair, vice president; William A. Mynatt, secretary-treasurer; Max W. Carpenter, president; and Cecil A. Pless, Jr., president-elect.

C. Z. CANDLER, C. C. Diercks, and A. W. Bottoms talked things over at the First District meeting in Asheville.

PRESIDENT JOHN W. GIRARD, JR. reported on the accomplishments of his administration at the First District.

JOSEPH L. LATON'S table clinic on pin amalgam techniques attracted many observers at the First District.

Pain, Pulp and Pathology

N.C.D.S. PRESIDENT J. Homer Guion reported to his home District, the Second.

W. S. PEERY, new president-elect of the Second District.

REGISTRATION and exhibit areas at the Second District meeting.

THE Tar Heel Dental Seminar, post-graduate education at its best, presented Drs. Edward V. Zegarelli, Harry Sicher, and Kaare Langeland to 307 members and guests at the Second District Dental Society meeting at the Queen Charlotte Hotel, September 18-20.

President Horace Reeves emphasized that this has been a year of change for the Second District. The format of the meeting itself indicated this by its trend away from fun and games, to one which sought to bring new knowledge and skills to all who attended. Change was also evidenced by the approval of all new applicants for membership, including nine Negroes. There are now ten Negro dentists in the Second District.

New officers elected were: J. Harry Spillman, president; W. Stewart Peery, president-elect; W. Smith Kirk, vice president; M. Lamar Dorton, secretary-treasurer; William G. Ware, Jr., editor; William H. Price and M. Stevenson Thurston, delegates; Fred H. Miller and Keith L. Bentley, executive committee members.

Memorial services were held for Drs. Z. Vance Kendrick, Jr., Oscar L. Joyner, Willis A. Secrest, and L. L. Reitzel.

New members elected to membership by the Second District were: Drs. Thomas A. Baucom, Charlotte; Lacy H. Caple, Lexington; Robert B. Dalton, Kernersville; James L. Devereux, Camp Lejuene; James C. Eagle, Jr., Spencer; William R. Hartness, III, Elkin; William H. Hoffler, Jr., Winston-Salem; Alfred D.

Hurt, Jr., Monroe; Clinton M. Jones, Salisbury; James E. Kendall, Charlotte; John D. Kiser, Jr., Jacksonville, Fla.; Thomas A. Mack, Charlotte; George T. Nash, Charlotte; John R. Oliver, Jr., Winston-Salem; Charles H. Pearson, Charlotte; John P. Stinson, Charlotte; L. Dwight Ware, Wilkesboro; and Spurgeon W. Webber, Jr., Charlotte.

Next year's Tar Heel Dental

Seminar will also be held at the Queen Charlotte Hotel, in the new convention center, September 17-19. Drs. Jerome Schweitzer and Harry Archer, author of a standard oral surgery textbook, will be the clinicians. No out-of-district registration fee will be charged in 1967.

Mid Pines: Scene of the Third

THE Third District Dental Society met at Mid Pines Club in Southern Pines, October 23-24. Near perfect weather was an added attraction for the golfers.

Two clinicians were featured. Dr. James E. Somers (M.D.) spoke on psychiatric symptoms in dental patients, and Dr. Troy B. Sluder, Jr. spoke on dental materials in clinical practice.

Amendments to the *Bylaws* were adopted requiring only a simple ma-

jority vote for election of new members.

Nineteen candidates for membership were presented and all were approved. They were: Wallace D. Abbey, Jr., Chapel Hill; Milton H. Barnes, Greensboro; Gerald M. Cathey, Chapel Hill; Norman C. Hall, Roxboro; Deane Hundley, III, Southern Pines; Perry P. Little, High Point; W. L. T. Miller, High Point; James C. Morgan, High Point; Walter S. Morris, Jr., Chapel

Hill; Michael D. Samuel, High Point; George C. Simkins, Greensboro; Lynn H. Smith, Greensboro; Paul C. Steadman, Gibsonville; Jerry C. Trammell, Jr., Greensboro; Joel W. Walker, Graham; W. T. Wilkins, Jr., Greensboro; D. Robert Williams, Chapel Hill; Larry A. Williams, Greensboro; and J. J. Wilson, High Point.

Dr. J. Homer Guion, president, North Carolina Dental Society, outlined the progress of dentistry in the State, including the proposed dental service corporation, continuing education for dentists, new training programs for dental hygienists, and added responsibilities for the State Board of Dental Examiners.

Dr. James W. Bawden, dean, UNC School of Dentistry, spoke on the plans for completion of the new dental education wing on the campus.

New officers for the coming year are: Charles W. Horton, High Point, president; Maurice B. Richardson, Albemarle, president-elect; James B. Howell, Greensboro, vice president; L. P. Megginson, Jr., High Point, secretary - treasurer; Richard M. Fields, Pleasant Garden, editor; and Luther H. Butler, Greensboro, delegate.

THIRD DISTRICT OFFICERS 1966-67. (l to r) L. P. Megginson, Jr., secretary-treasurer; C. W. Horton, president; James B. Howell, vice president.

PRESIDENT C. R. VANDERVOORT submitted his report to the Third District.

GALEN W. QUINN presented a table clinic on cleft lip palate treatment at the Third District meeting.

Fourth Breaks Tradition

THE Fourth District broke tradition and met in Fayetteville October 8-10. For a number of years the annual meeting has been held in Raleigh.

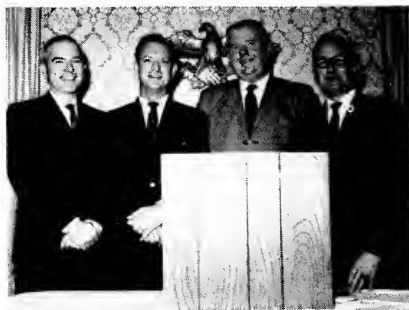

The change was successful, judging from the large attendance, and Fayetteville dentists were given much of the credit for the excellent arrangements and the warm hospitality.

But an air of apprehension covered the meeting. President William H. Oliver suffered serious injuries in an automobile accident two weeks prior to the meeting, and was still in the intensive care unit of the hospital while the meeting was in progress. And just a few days before the meeting President-Elect Joseph M. Johnson's young son was badly wounded in a hunting acci-

dent. Vice President Robert H. Gainey took over the reins and conducted the entire meeting.

Dr. Frank Goodwin, marketing specialist at the University of Florida, was the featured clinician. He spoke on the psychological effect of public relations. The entire audience, including wives and auxiliary personnel, participated in a personality test. The results were revealing to all participants.

Nine new members were elected, including: Drs. George L. Butler, Jr., Fayetteville; James E. Butler, St. Pauls; John S. Hair, Fayetteville; Harold M. Hartsell, Henderson; Burton A. Horwitz and Daniel Lotz, Raleigh; Frank B. McGrath, Jr., Lumberton; Lynn S. Mann, Lillington; Ronnie R. Milligan, Fayetteville; Richard F. Mur-

phy, Raleigh; Thomas K. Smith, Fayetteville; and Heber W. Windley, Jr., Zebulon.

Officers for 1966-67 are: Joseph M. Johnson, Laurinburg, president; Penn Marshall, Jr., Raleigh, president-elect; James H. Edwards, Raleigh, vice president; Harold E. Maxwell, Fayetteville, secretary-treasurer; and Glenn F. Bitler, Raleigh, editor.

23 New Members in the Fifth

FIFTH DISTRICT OFFICERS 1966-67. (left to right) James A. Privette, editor; M. W. Aldridge, president-elect; Z. L. Edwards, Jr., president; Richard F. Hunt, Jr., vice president; and James L. Cox, secretary-treasurer.

A superb banquet on Sunday evening, attended by members, their wives and state society dignitaries, highlighted the annual meeting of the Fifth District Dental Society at the Blockade Runner Motel September 25-26 at Wrightsville Beach.

Twenty-three new members were elected at the business session which followed the banquet. They were: Drs. Jasper H. Chesson, Rocky Mount; H. F. Cofield and Karl F. Ehrlich, Goldsboro; Darden J. Eure, Jr., Morehead City (now serving with the Marines in Viet Nam); Richard H. Evans, Jr., Groton, Conn.; Robert S. Freeman, New Bern; John E. Haynes, Elizabeth City; William M. Heeden, Jr., Goldsboro; Allen L. Hornthal, Toms River, N. J.; Charles E. Johnson, II, Belhaven; Clifford B. Jones, and Clifford B. Jones, Jr., Elizabeth City; Larry G. Jorgensen, Greenville; Carle W. Mason, Jr., Wilson; John Alan Matkins, Roanoke Rapids; Glenn E. Minah, New Bern; Moses A. Ray, Tarboro; C. L. Shoffner, Weldon; Jack E. Silvers, Goldsboro; Samuel I. Smith, Roanoke Rapids; O. R. Stovall, Goldsboro; Kermit E. White, Elizabeth

City; and Walter A. White, Morehead City.

In his report to the Society, President James H. Lee emphasized the challenges facing the profession for which it must provide leadership and accept responsibility, especially the increasing federal health programs.

Dr. Z. L. Edwards, Jr., of Washington was installed as president for the coming year. Other officers are: Drs. Richard F. Hunt, Jr., Rocky Mount, vice president; M. W. Aldridge, Greenville, president-elect; James L. Cox, Goldsboro, secretary-treasurer; and James A. Privette, Kinston, editor.

Oral pathology and its relation to general practice was discussed by Colonel S. N. Bhaskar of Walter Reed Army Hospital on Monday.

At the closing business session a resolution was adopted requesting an amendment to the dental practice act which will permit a dentist to employ more than one dental hygienist.

General News

ADA Adopts Children's Program

The ADA House of Delegates overwhelmingly adopted an "American Dental Association Dental Health Program for Children" at its meeting in Dallas in November. Designed "to make the benefits of an organized program of dental health education, preventive dentistry, and dental care available to all children, particularly the needy and the underprivileged, the proposal calls for pilot projects as early as 1967, to gather information on manpower, administration, and the role of prepayment plans.

The program poses the use of governmental and private funds, but specifies that public funds would be used solely for dental care of indigent and dentally indigent children.

To encourage the purchase of dental care for children, the program recommends that incentives, such as income tax credits, be made available to parents.

The program suggests that federal and state support be provided for all communities for the purchase of equipment and supplies and the employment of personnel for the fluoridation of their water supplies.

For the first time in 40 years the House re-vamped its trustee districts. Districts 10 through 13 were reorganized and a 14th Trustee District was created to include the entire state of California.

Two new Councils were established — a Council on Dental Programs and a Council on Dental Materials and Safety Devices. Dr. Roy L. Lindahl of Chapel Hill was elected for a three-year term to the Council on Dental Programs which will recommend policy on group dental care programs and assist state societies and other agencies.

Dr. Ralph D. Coffey of Morganton was elected for a three-year term on the Council on Insurance.

Dr. Darl F. Ostrander of Michigan, speaker of the house since 1961, was named president-elect of the ADA. Other officers elected and installed included: Dr. William A. Garrett of Atlanta, president; and Dr. Carlton H. Williams of California, speaker of the house.

Assistants in Dallas

Twelve members of the North Carolina Dental Assistants Association attended the 42nd Annual

Session of the American Dental Assistants Association in Dallas November 11-17. Among them was Edna Zedaker of Charlotte, the Association's president. Others in the group were: Carey Sherrill, current president of the NCDAA, and Joyce Sigmon from Charlotte; Reandy Clement and Shelby Brown from Raleigh; Rebecca Ritchie, Burlington; Janie Brown, Durham; Frances McPherson, Burlington; Myrl Blackwell, fourth district trustee, from Draper; Sara Bizzell, Fayetteville; Ethelene Massengill, Selma; and Judy Reid, Greensboro.

Preventive Dentistry Workshop

Dr. Guy R. Willis, a member of the State Board of Dental Examiners, and Drs. James W. Bawden and Bennie D. Barker of the UNC School of Dentistry were among participants in the 1966 Workshop on Preventive Dentistry in Washington, D. C., July 26-27.

The workshop titled "Total Oral Health Through Preventive Dentistry" was the third in a series of annual conferences co-sponsored by the U. S. Army Dental Corps and the Kansas City School of Dentistry. Attendance by dental school and examining board participants was supported by the Procter and Gamble Company.

Workshop speakers included Dr. Maynard K. Hine, President American Dental Association, Major General T. C. Bedwell, Jr., Major General Joseph L. Bernier, Dr. Hamilton B. G. Robinson, Dr. Irving Glickman, Dr. Joseph C. Muhler, and Lieutenant Colonel James E. Cassidy. They emphasized

the importance of oral health in its relation to national preparedness and effectiveness.

D.O.C. Supports ADA Resolution

The 14th Annual District Officers Conference was held at the Velvet Cloak Inn, Raleigh, December 3-4. Registration totalled 82 including 53 dentists, 3 staff members and 26 wives.

The Conference went on record in support of Resolution 244 adopted by the 1966 ADA House of Delegates which calls for "studies, decisions, and legislative actions which will help meet the manpower needs of the public, including the identification of additional functions which can be delegated to auxiliary personnel working under the direct supervision of the dentist."

On Saturday afternoon the district officers were schooled in their duties and responsibilities. Following dinner Dr. Roy L. Lindahl reported on the actions of the ADA House of Delegates in a paper entitled "Observations of a Freshman Delegate." Dr. Francis A. Buchanan, chairman, Council on Dental Health spoke on "Publicly Funded Dental Care Programs."

Sunday morning's program included: "Legislative Objectives 1967" by Mott P. Blair, chairman, Legislative Committee; "Dental Prepayment" by Roy L. Lindahl, chairman, Dental Service Corporation Committee; "Education of Dental Auxiliary Personnel" by Dr. Colin P. Osborne, Jr., chairman, Advisory Committee for the Education of Dental Auxiliary Personnel;

"Plans for a new Central Office" by Walter H. Finch, Jr., State vice president; and "Special Report: UNC School of Dentistry" by Dean James W. Bawden.

John W. Girard, Jr., of Asheville was elected Conference president at the closing business session. He will succeed Joseph M. Johnson of Laurinburg. Other officers named were: William G. Ware, Jr., Winston-Salem, vice president, to succeed M. W. Aldridge of Greenville; and James L. Cox, Goldsboro, secretary, to succeed Max W. Carpenter of Asheville.

The Conference selected dates for the 1968 District Meetings as follows: First District, September 28-30, Asheville; Second District, September 22-24, Charlotte; Third District, October 6-7, Southern

Pines; Fourth District, October 12-14, Raleigh; and Fifth District, September 14-16, Wrightsville Beach.

Periodontists to Meet

The 47th annual meeting of the Southern Academy of Periodontology will be held at the Voyager Inn in Greensboro June 11-13, 1967. Dr. Major M. Ash, Jr., and Dr. Sigmond J. Ramjford of Ann Arbor, Michigan will be the clinicians.

Dr. James B. Howell of Greensboro is the current president of the Academy.

For information write: Dr. Frank J. Malone, Secretary, 490 Peachtree Street, NE, Atlanta, Georgia.

HYGIENISTS attending the First District meeting in Asheville are shown with an exhibit presented by Jean Stines and Martena Poteat entitled "Dental Hygiene Educational Programs in North Carolina." Left to right, first row: Mrs. Karen W. Stubbs, Miss Jean Stines, Mrs. Alda Fant. Second row: Mrs. Mary Burks, Mrs. Martena S. Poteat, Mrs. Jo C. Pattishall.

TASKA LA-RUE ALMOND

Scholarship Awarded

Taska La-Rue Almond of New London, N. C., a second year student in the dental hygiene program at the UNC School of Dentistry, has been awarded the Weber Dental Manufacturing Company Scholarship by the American Dental Hygienists Association.

The \$800 award was one of five made by the Association on the basis of scholastic achievement, leadership, character, and need.

Miss Almond is the daughter of Mr. and Mrs. C. Bradie Almond. In her first year at UNC she made the Dean's list and was elected president of her class.

Hinman Clinic

The 55th annual Thomas P. Hinman Dental Meeting, to be held March 19-22 at the Atlanta Marriott Motor Hotel, will attract some 5,000 dentists for a program built around an international theme.

Among foreign dental experts to

present programs are: Dr. Henry Beyron of Stockholm, Sweden, one of the world's leading authorities on occlusion and Dr. Sunder J. Vazirani, dean and professor, Department of Mouth and Face Division, Government Medical College, Patiala, Punjab, India.

Eight clinicians will conduct limited attendance clinics in periodontal techniques, full denture, endodontics, occlusion, oral surgery, dentistry for children, mouth rehabilitation and radiography.

An impressive array of technical exhibits will be on display and some 20 table clinics and projected clinics are planned.

Other highlights include a Dental Health Day for Children, scheduled Sunday, March 19 at the Municipal Auditorium . . . a special program designed to inform and enlighten school children on the importance of dental hygiene.

For information, write Dr. Marvin C. Goldstein, 950 West Peachtree Street, N.W., Atlanta, Georgia 30309.

CAREY SHERRILL of Charlotte is currently serving as president of the North Carolina Dental Assistants Association.

Insurance Conference

A one-day conference on insurance will be held at White House Inn in Charlotte April 26 sponsored by the American Society of Oral Surgeons. It will cover the three main facets of insurance as related to oral surgery — commercial carriers, non-profit organizations, and government sponsored programs.

National figures in all three fields will be speakers and resource consultants. All dentists are urged to attend to gather information and a better understanding of this ever increasing problem.

Any interested dentist should contact Dr. E. U. Austin for further information. His address is 315 Randolph Medical Center Charlotte 28207. He expects the program details to be complete by late in February. It is anticipated that a nominal registration fee will be charged.

High Pointer of the Week

Dr. Charles W. Horton was named High Pointer of the Week by the "High Point Enterprise" in its October 30 issue. He is currently president of the Third District.

leigh, president-elect; and Theodore R. Oldenburg, Chapel Hill, secretary-treasurer.

Dr. Upchurch Recognized

Dr. Jack B. Upchurch of Apex was named "General Practitioner of the Year" at the annual fall meeting of the North Carolina unit of the American Society of Dentistry for Children in Asheville October 28-29. Dr. Upchurch was cited for his efforts in promoting children's dentistry through community and school programs, study clubs, and regional and state dental meetings.

Featured clinician for the meeting was Dr. Thomas Barber of University of Illinois College of Dentistry.

Officers elected for 1967 were: Drs. Barry G. Miller, Charlotte, president; Richard S. Hunter, Ra-

Obituaries

Clarence D. Bain, 82, of Dunn, a life member of the Fourth District Dental Society, the North Carolina Dental Society, and the American Dental Association, died December 10, 1966.

William K. Chapman, 63, of Charlotte, a retired member of the Second District Dental Society, died September 28, 1966.

Dr. Albert V. Coble, 46, of Burlington, a member of the Third District Dental Society, died December 22, 1966.

...BUT DOCTOR,

how can I be
sure they're
getting

ENOUGH? CALCIUM?

You can be sure children are getting enough calcium by making sure they drink enough milk... for milk and other dairy foods provide $\frac{3}{4}$ of the calcium in the national food supply.

In spite of the liberal amounts of milk products available, surveys reveal that average calcium intakes of children and adolescents are below recommended allowances. Studies on large numbers of children up to 2 years of age have shown that a *satisfactory retention* of calcium requires the consumption of three glasses of milk daily, along with adequate vitamin D. Four glasses enabled children to store additional calcium for future requirements.

Recommended daily intakes of calcium increase from 1.0 gram in early childhood to 1.3 grams for teen-age girls and 1.4 grams for adolescent boys. In the absence of milk and milk products, it is difficult... even with careful selection... to obtain from other foods more than one-third of these daily allowances. When consumed in suggested amounts... the equivalent of three or four

glasses daily for children and four for teen-agers... milk and other dairy foods contribute two-thirds of the calcium allowance, plus one-fourth of the protein and nearly half of the riboflavin.

Although the body has an ability to adapt to low calcium intakes by improved absorption and utilization of the dietary supply, adaptation is often accompanied by reduced bone mineralization and growth rate... as demonstrated by the prompt growth response of children in low-calcium areas following addition of calcium lactate to the diet. For full development of the skeleton... development of sound teeth... and attainment of maximum height and body vigor... compliance with dietary standards for calcium is an important consideration in planning meals for the young.

Milk and other dairy foods stand alone in their ability to provide calcium needed by children and adolescents in a form that is highly palatable, easily digested, and readily absorbed... and they also provide other nutrients that contribute to a balanced dietary and buoyant health.

The nutritional statements made in this advertisement have been reviewed by the Council on Foods and Nutrition of the American Medical Association and found consistent with current authoritative medical opinion.

MQ

THE NEW SILICATE FILLING MATERIAL

Unequalled characteristics that make possible restorations *never before obtainable* with a silicate.

Tooth Color Stability—With MQ's wide spectrum of colors, you are assured of quick and easy tooth matching, unusual color stability and life-like translucence.

More Natural Fluorescence—A new element causes MQ to fluoresce under ultraviolet light as do live teeth.

High Early Strength—MQ develops

strength rapidly. At the end of 24 hours, its compressive strength is 39,000 p.s.i. (A.D.A. Span 24,200 p.s.i. in 24 hours.)

In A Week, Strength Approximates That Of Human Teeth—In seven days, MQ increases to 42,000 p.s.i., or over 70% greater than A.D.A. specifications.

MQ is guaranteed to comply with A.D.A. Specification No. 9. Second Revision. It is a product of S. S. WHITE COMPANY, Philadelphia, Pa. 19105.

Ever get the feeling that you're being followed? We do.

For some time now we've been telling you that Carbocaine can be relied upon to give profound anesthesia with rapid onset whether a vasoconstrictor is present or not. We've been telling you that Carbocaine without vasoconstrictor is ideal for procedures of shorter duration, and that Carbocaine was the first well tolerated local anesthetic agent capable of producing predictable and consistent anesthesia in dentistry without a vasoconstrictor.

In short, Carbocaine represents a significant breakthrough in local anesthesia for dentistry. And when one product leads the way, others are bound to attempt to follow.

Nevertheless, you will not find these unique advantages of Carbocaine duplicated, nor the unique choice of benefits surpassed...

Carbocaine HCl 3% without vasoconstrictor

provides very rapid, profound anesthesia of shorter duration for routine extractions and modern high-speed restorative procedures (yet not so short as to fade during such procedures). *Operating anesthesia* averages 20 minutes upper, 40 minutes lower.

Carbocaine HCl 2% with Neo-Cobefrin® (brand of levo-nordefrin) 1:20,000

offers rapid-acting, consistently profound anesthesia of sufficiently long duration that even extensive and complicated procedures seldom require reinjection.

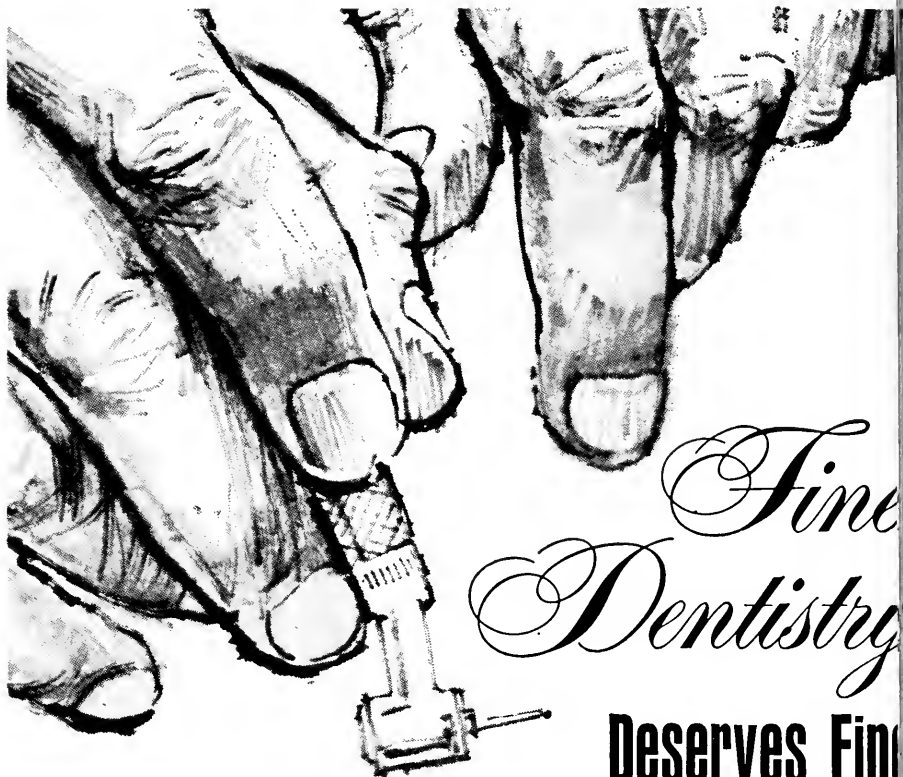

FOR YOUR INFORMATION: These local anesthetic solutions are for dental block and infiltration injections only. There are no known contraindications in dentistry except for patients known to be sensitized. Inject slowly and avoid intravascular injection by aspirating. As with all local anesthetic solutions, adverse reactions due to intolerance, overdosage, or intravascular injection may occur and include hypotension and respiratory depression. Such reactions occur infrequently and usually are readily controlled by supporting circulation with a vasopressor and respiration with oxygen.

Carbocaine and Neo-Cobefrin are trademarks (Reg. U.S. Pat. Off.) of Sterling Drug Inc.

Carbocaine[®] HCl

Greatest Resistance to Abrasion

LUXENE VINYL's higher resistance to abrasion caused by normal mastication and regular brushings means longer life for the restoration . . . greater patient confidence in you.

Lowest Rate of Water Absorption

LUXENE VINYL has greater dimensional stability in wet or dry conditions . . . prevents weakening of bond between veneer and casting.

LUXENE VINYL does not absorb odor causing bacteria. No embarrassing moments due to unpleasant mouth odor.

LUXENE VINYL wards off discoloration caused by attack of mouth fluids and food. Greater variety of foods in diet.

LUXENE VINYL's greater toughness permits a wider scope of applications. NOW you can produce thinner veneers without losing LUXENE's lifelike lustre and translucency. Restorations carrying LUXENE VINYL on the occlusal or incisal edges are now possible! See opposite page for Luxene processing laboratories in this area.

LUXENE

ONE HUNDRED EIGHTEEN EAST TWENTY FIFTH ST., NEW YORK 10, N.Y.

LUXENE

PROCESSING DENTAL LABORATORIES

luxene processing dental laboratories offer the most skilled technicians and modern facilities available. These laboratories are trained in exclusive advanced luxene techniques assuring you of the finest quality products possible. We suggest that you patronize them. You can have complete confidence in their ability to serve your needs best.

**For a denture
patient, the best
impression
begins here.**

The Bioblend Blend Selector does what words can't do: it makes a *visual* impression on denture patients.

Patients *see* how lifelike artificial teeth can be. And they *see* how much care and attention you devote to the *appearance* of the denture, which is often their greatest concern.

Thus, many of the anxieties of the try-in appointment are anticipated and soothed in advance. Future difficulties are minimized. The patient is a happier, more enthusiastic source of referrals. And you can be confident that you have provided your patient with the best looking artificial teeth in the world . . .

**Norman F. Ross, D.D.S.
Durham, North Carolina**

Norman Ross, a past president of the North Carolina Dental Society, is a dedicated and hard working member of our profession who is likely to have all his pockets filled with program notes. He studied at Duke University, received his dental degree from Temple University School of Dentistry, spent a year in a dental internship at Duke Hospital, and since 1938 has been a member of the staff and faculty of Duke Medical Center.

He is a member of the American Association of Endodontists, the Southern Endodontic Study Club, and the American Society of Dentistry for Children.

He has held every elective office in the Third District Dental Society, is a Fellow of the International College of Dentists, and has presented many clinics on endodontics and crown and bridge.

The President's Page

IT IS MY PLEASURE on behalf of the officers and convention committees to welcome you to the 111th Annual Session of the North Carolina Dental Society in Pinehurst, May 10-14, 1967. There will be a new look this year as we will be meeting at The Carolina for the first time since the Cardinal Ballroom has been added to its facilities.

Our meeting will be keyed to the theme "Preventive Dentistry—A Positive Approach for the Profession." Prevention is becoming of great significance in that the Federal Government is already participating in health programs throughout the country, and will become more involved if the American Dental Association's recent recommendation for Federal support of a dental health care program for children is implemented. We know that dental prepayment insurance plans are here to stay and will be greatly expanded in the future. With these facts and the knowledge that dentists cannot be trained fast enough for the growing demand for dental service, it is up to us to increase our knowledge of prevention and disease control. With this in mind, Dr. Ed Austin and his Program Committee have planned a program that will cover several approaches to the problem and stimulate our thinking. We cannot go far in dentistry today unless we constantly add to the knowledge and skill obtained in dental school and add new ideas to the techniques that have proved by time to be worthwhile.

Please note that some changes have been made in the format of the meeting to include more clinicians on a greater variety of scientific subjects. We hope this meets with your approval. To the Dental Auxiliary, Dental Hygienists and Assistants Associations, and guests, we want to especially invite you to the general sessions for Wednesday night, Friday night, and Saturday afternoon, and to any or all of the scientific programs.

My sincere thanks and gratitude to everyone who has given so much time and effort to insure a successful and outstanding meeting.

J. HOMER GUION

A LETTER FROM DR. JOE AVERAGE

DOCTOR ERNEST MERIT
SCHOOL OF DENTISTRY
UNIVERSITY OF HEALTH SERVICE
FUTURE HOPE, NEW DENTISTRY

Dear Doctor Merit:

Seeing that you are on the program of the State Dental Meeting at Oak Pines, and being one of your graduates I will try to be there. I didn't get to attend last year as my patients demand all of my time for their services. They need me in the office, but even that won't keep me away this year. My wife gave me a new set of golf clubs for Christmas and I intend to make the most of this dental meeting.

I noticed the theme of this meeting is preventive dentistry. You will be happy to know I spend all of the time I can educating my patients. I tell them all to use fluoride toothpaste. Wish I had more time for this phase of my practice, but emergencies flood my office every day and night, and I feel obligated to take care of their needs, as most of these persons have been to me in the past. Where do all of these people in such need come from? It seems the government, schools, or someone would teach them better health measures.

A former classmate said that he could do more for the dental health of our state by talking about diet to expectant mothers, than by filling

teeth already destroyed by poor diet. Well I'll tell you right quick, people won't pay for that! You have to fill cavities and sell dentures to pay your light bill. This is a business and people have to see what they pay for. All that time he spent in school, and then the taxpayers' money is wasted by his just talking half of the time he spends in his office — what nonsense. Doesn't he know there is a shortage of dentists? How does a guy like that expect us to catch up with all the work?

My continuing education is limited because my patients demand all of my time for their services. I do get to some annual meetings and attend a few lectures. Some men act like professional schoolboys as they are constantly attending courses in dentistry, I don't see what they can be getting out of them. I guess they are just not sure of themselves as I am! I learned all I needed in dental school. Dentistry hasn't changed in twenty years and supply men keep me posted on the new materials.

My practice is really booming. Guess I see more patients than anyone you have graduated. I have my fees just right and feel that anyone charging more is robbing the public and those who charge less do inferior dentistry. My quality of dentistry is acceptable to the ma-

jority of citizens. The dentists whose quality is superior to mine are perfectionists and impractical. Those below my standards practice dentistry halfway and should have their licenses revoked.

One question. Where do so many patients needing dentures, periodontal and orthodontic treatment come from?

Let me hear from you.
Sincerely,
Joe Average, D.D.S.

Maybe "Joe Average, D.D.S." doesn't exist. But if he does, some of the answers he is seeking can be found at our state meeting in Pinehurst. But I am afraid he may have fallen into that ever so dangerous narrow rut. Let's follow his letters in the "Journal" and see what happens to him.

Editor

DENTAL RESEARCH IN NORTH CAROLINA

CHARLOTTE is now undergoing a program under the auspices of the National Institutes of Dental Research, through Central Piedmont Community College, to study the effects of a mouthpiece technique of fluoride application of children that have always lived in a fluoridated area.

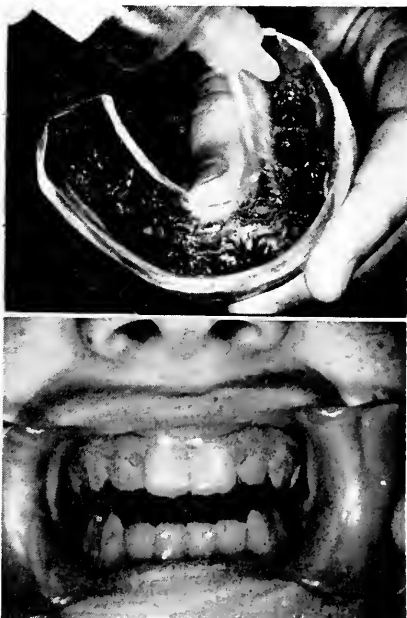

A clinical test involving 500 children in Cheektowaga, N. Y. (a non-fluoridated area) during the past two years has resulted in an 80 per cent reduction in tooth decay. The North Carolina study is a parallel to the New York investigations.

The children in this program wear specially fitted plastic mouthpieces (similar to athletic mouth guards) for a 3-minute period three days per week. The mouthpieces are filled with a jelly-like material containing 1.1 per cent sodium fluoride. The advantages of the mouthpiece method are: (1) a small amount of the concentrated gel is in intimate contact with the teeth and gingiva for a definite period of time; (2) it is forced into pits and fissures; and (3) cannot be diluted by saliva. This program will be held for a

three year period and then the results will be evaluated.

Why Charlotte, N. C.?

Quote from Harold B. Englander, D.D.S., of the National Institute of Dental Research: "Charlotte was chosen for many reasons, among them: (1) its long history of fluoridation."

dated water on the East Coast; (2) a progressive community with competent persons; (3) high interest in dental health. (North Carolina being the first state to have a dental public health program in 1917); and (4) Dr. Seymour Kreshover, Director of the Institute of Dental Research, wanted the void filled in research from the lab to the people."

This program will leave a definite impact on dental health of the community and the State. It is the lead for future grants for research and other studies. It affords experiences for the students in the dental programs at Central Piedmont Community College. Spark is added to the state dental health program and educational experience is gained by the regional Public Health Officer.

GOVERNOR DAN K. MOORE designated February 5-11 as Children's Dental Health Week in North Carolina. He is shown above with Dr. E. A. Pearson, Jr. (l.), Director, Division of Dental Health of the North Carolina State Board of Health and Dr. Richard S. Hunter of Raleigh (r), Chairman, Children's Dental Health Committee of the North Carolina Dental Society.

FACE
TO
FACE
WITH
REALITY

Some Practical Thinking *

By

W. L. HAND, D.D.S.

Let us reflect for a few moments
about
YOUR and MY
INESCAPABLE INEVITABILITY
An inevitability that you and I must and will face
Brutally
DEATH
What of this practice that you and I have nurtured,
have fathered,
that has clothed and fed you,
sent your children to school?
What of your efforts and thoughts for its future
AFTER YOUR DEATH?

* Reprinted from "The Mayan," Volume 2, Number 1, November, 1966, by permission of the author.

ARE YOU CONCERNED FOR THE PATIENTS THAT HAVE SUPPORTED YOU?

ARE YOU COGNIZANT OF THE PROBLEMS YOUR PERSONNEL WILL FACE?

DO YOU REALIZE YOUR ESTATE WILL BENEFIT VERY LITTLE FROM YOUR PROFESSIONAL STATUS—BENEFIT ABOUT THE WORTH OF YOUR EQUIPMENT WHOLESALE AND A FRACTION OF THE ACCOUNTS RECEIVABLE?

IS YOUR WIFE PREPARED TO SEE THAT UNCOMPLETED WORK IS FINISHED FOR PATIENTS THAT YOU HAVE STARTED AND NOT COMPLETED?

IS SHE PREPARED TO ASSIST IN THE FUTURE WELFARE OF YOUR LOYAL PERSONNEL?

IS SHE PREPARED TO OBTAIN A COMPETENT REPLACEMENT FOR YOU?

If you are not aware or concerned, then perhaps we are wasting your time.

If you are aware and concerned, then is it not time we took these problems out of the hands of our wives and the dental supply houses?

SO

What can you and I do to solve this problem?

May I suggest an agreement between two or more local dentists or the establishment of an estate committee by your local dental society to assist in an overall plan for the liquidation, or if you wish, the continuation of your practice in the event of your death.

THAT WILL

1. Complete unfinished dental cases.
2. Place a definite figure on the value of the equipment and practice. A formula that has been used is the monetary value of equipment, records, furnishings, plus one month's gross.
3. Provide help to the assisting dentist (or those that are completing unfinished cases) by using the secretary and dental assistant of the deceased practice.

4. Screen applicants (trying to select one nearest the ability and age of the deceased).

5. Sell the practice to a responsible person requiring 50 percent cash, the balance in monthly payments.

6. Notify all patients the practice has been sold.

If such a committee is not available or you have not contemplated this problem

Then Immediately

1. Take an inventory of the office with a reliable dental supply salesman.

2. Have an assistant or auditor prepare a statement of accounts receivable.

3. Prepare a list of patients with unfinished work.

Take immediate steps to advise all dental salesmen in the area and have ads placed in the appropriate journal advising the practice is available.

Sudden death often places the burden of handling dental affairs in unskilled hands of widows, lawyers, and willing but incompetent friends.

CONSEQUENTLY

Many practices are sold for less than their true value.

Many good assistants are lost, and those patients whose work is unfinished are neglected, our obligations unfilled,

And perhaps most of all turmoil and financial sacrifice for your wife.

ALL COULD AND CAN BE PREVENTED

by

every dental society at local levels establishing a special committee whose sole duty would be to call upon the widow to offer its help in matters pertaining strictly to the deceased dental office and his patients, or an agreement between one or more dentists.

Gentlemen, are you cognizant?

Do you care?

WILL YOU ACT?

People's Only Hope

By M. W. Aldridge

IT IS MY SINCERE and honest belief that the future of the dental profession lies in the philosophy embodied in an organization called "The Society for the Preservation of Oral Health." This small, but dedicated, group has its central office in Topeka, Kansas, and is international in scope.

The Society is made up of men who practice true prevention. This does not consist of simply recalling patients every few months, cleaning them up, taking a set of bite-wings and then letting them go with their dental disease. They feel that the patient must stop his disease himself on a daily basis with a method of personal oral hygiene which works, is simple and economical, and not a burden which will be cast aside. This method is referred to as P O H or "People's Only Hope."

The purpose of this paper is to present the ideas and long term goals of this unique organization to the entire membership of the North Carolina Dental Society. A booklet has been set forth by this group such that those who read it may understand and, hopefully, subscribe to the beliefs and philosophy of dental practice contained therein. It is called "Twenty Questions About the Society for the Preservation of

Oral Health." The men in the society feel very strongly about the philosophy so stated in this booklet.

In my opinion, it is the greatest piece of dental literature ever written.

Membership in the Society is by invitation only and invitation is not extended until a man has attended the mid-winter seminar, where he can really see what is going on and then decide in his heart if he agrees and wants to join the group as a missionary to the dental profession. They are looking for men who "practice what they preach and preach what they practice."

TWENTY QUESTIONS

about

The Society for the Preservation of Oral Health

Come now, and let us reason together.—Isaiah 1:18

1. *What is the Society for the Preservation of Oral Health?*

It is an organization of dentists, international in scope, dedicated to preventing dental disease and preserving the natural teeth. Organized and founded in 1960, it was granted a non-profit corporate charter in May, 1961. Its members are guided by a unique philosophy of dental practice — a philosophy based on the ideal of performing the simplest restorative dentistry that can solve the dental problem effectively and that can be maintained indefinitely by the patient himself with methods now known to dental science.

2. *What is behind this philosophy?*

Surveys demonstrate conclusively that the dental health of Americans is deplorable and that despite all efforts to reverse the trend, it is growing steadily worse. The result — a deteriorating image of the profession and loss of respect by a public, so disillusioned and without hope that it believes artificial dentures are an inevitable way of life.

By attacking the dental health problem from the basis of its philosophy, the Society seeks to stop the breaking down and loss of natural dentition, restore and build respect for the profession of dentistry, and help dissolve the threat of socialization of the profession.

For the dentist, the philosophy becomes a way of life that reaches far beyond the confines of his dental office, bringing him the peace

of mind, the self-respect, and the personal satisfaction that comes from honestly serving mankind.

3. *Why does there need to be a special society for the preservation of oral health? Aren't all dentists working to prevent dental disease?*

Organized dentistry holds many different concepts as to what constitutes preventive dentistry. Some see it as diet control, others as some form of fluoride treatment, and still others as regularly removing calculus from the teeth. Experience shows that none of these methods alone is really effective because none of these are directly related to the cause of caries or periodontal disease. We believe that the only possible way to preserve oral health is to eliminate the primary cause of dental disease, and that all dentists are not exclusively dedicated to this pursuit.

4. *What do you understand to be the cause? Cause isn't simple.*

Caries and periodontal disease have common elements that must be present for the disease to occur — micro-organisms and their accumulated waste products which are present in all mouths. When these micro-organisms live on fermentable carbohydrates in the individual's diet, they eventually produce the visible breakdown we recognize as caries. When they live in the gingival crevice, they form waste products that attack the supporting tissues around the teeth and initiate periodontal disease.

5. *Are you saying that the same bacteria that cause dental decay also cause periodontal disease?*

Absolutely. We believe that periodontal disease actually begins in

childhood with the invasion of bacteria and their by-products into the healthy mouth, specifically in the area of the gingival crevice. We believe that the old scapegoat calculus, like bone deformities, pyorrhea pockets, and loose teeth, are symptoms and not causes of the disease. Calculus is an accumulation of waste products and micro-organisms that have calcified after the disease has become established. It must be removed periodically because it is almost impossible for the patient to clean his teeth effectively if calculus remains on the teeth. However, its removal does not prevent the disease from occurring.

6. Uncle Elmer is 62. He's never had a cavity or a loose tooth, never goes to the dentist, and doesn't even own a toothbrush. How do you explain this?

All persons have some degree of natural resistance to dental disease. Many factors contribute to individual differences — heredity, diet and eating habits, general health and temperament, body chemistry, to mention some of the common ones. Individual differences in the viscosity, rate of flow, and chemistry of the saliva is an important factor; antibiotics and some other drugs cause significant changes in the saliva of some individuals. Naturally, it will simply take longer for the cause of dental disease to overcome the resistance in individuals with a higher resistance.

7. How do you propose to attack or eliminate the cause?

Research by many men has conclusively demonstrated that waste products left on the teeth by micro-organisms, living and growing there

are the primary cause of dental disease. No matter how well the dentist may clean the patient's teeth, a disease producing accumulation of micro-organisms will form in most mouths within 24 hours.

We believe, therefore, that saving teeth depends entirely on the patient's interest in and ability to — prevent disease in his own mouth. So we feel that our first duty to each patient is to advise and teach him an effective method of personal oral hygiene that will remove from his teeth and gingival crevice waste products that cause dental disease, and then properly motivate him to use this method daily.

8. What is this method of personal oral hygiene?

It is a method developed from study and research. Basically it consists of:

a. A method of disclosing to the patient a way of visibly demonstrating the accumulated waste products that must be removed if dental disease is to be prevented.

b. A method of removing these waste products in the easiest and most efficient manner without damaging the dental structures.

9. Do you mean to say that removal of these waste products will prevent dental disease?

Yes, but experience has shown that patients must be taught how and motivated to want to do a thorough cleaning job every 24 hours, preferably before retiring at night. The dentist's responsibility is to carry out this program of education, and then check the patient regularly to see that he is doing an effective job. The very word "doctor"

means teacher, and we see that our first obligation to the patient is teaching him well.

10. *Few patients will conscientiously follow a program suggested by their dentist — do you believe they will follow this more exacting method that you outline?*

If they know they will get satisfactory results, most patients will. It's when they faithfully follow a dentist's directions (too often given with the admonition that even with the best care the teeth will eventually deteriorate) and their teeth and gingiva continue to breakdown, that they lose confidence and abandon the program. When they begin, almost immediately, to see and to feel the improvement in the dental health of their own mouth, they are encouraged to continue.

11. *Is this method really effective? Can dental decay and periodontal disease actually be prevented or stopped?*

Thousands of cases demonstrate conclusively that the answer to both questions is yes. Dentists who have conscientiously taught and used this method quite readily observe the results. Try it. It will work in your mouth!

12. *What about malocclusion? Isn't it often a cause of periodontal disease?*

Though waste products from the micro-organisms are the primary cause in periodontal disease, malocclusion can weaken the tissues around the tooth, making it easier for periodontal disease to occur. We believe that our responsibility in the study and treatment of occlusion from the preventive standpoint is

immense indeed, for it is the "sick occlusion" that aggravates many periodontal and related problems.

13. *How do you treat the patient who already has a periodontal problem?*

We believe that all dental office periodontal procedures, no matter how technically perfect, or how vastly extensive they may be, are strictly reparative rather than curative, and that all will ultimately fail without an extremely effective method of hygiene designed to eliminate the cause of the disease. We therefore believe that our patients deserve a method of prevention and periodontal maintenance that they can accept the responsibility for and reap the greatest benefit from, and at a cost that is minimal. Otherwise, any surgery or other treatment is wasted and the periodontal problem recurs.

14. *What is your philosophy with respect to restoration and reconstruction?*

We believe that enamel is the best covering for the crown of a tooth, and that our primary mission should be to preserve it. When decay does occur, we believe that intra-coronal restoration is the best treatment, so long as the tooth can support it. When the tooth can no longer support an intra-coronal restoration, then and only then is an extra-coronal restoration the best treatment. We believe that the primary reason for oral reconstruction is for the treatment of a crippled mouth, and that if it is copied, it is not treated, and nothing accomplished. Therefore, we strive to restore normal and symptom-free occlusion when doing operative pro-

cedures. This means achieving tooth-to-tooth and condyle-to-fossa relationship, functioning in harmony within physiological tolerance.

We believe that any and all restorations are doomed to certain failure — if not by decay, then by periodontal disease — unless the active microscopic processes are eliminated daily by an adequate system of personal oral hygiene on the part of the patient. Unless the patient himself is willing to prevent further damage and understands that a rebuilt mouth is only better than a set of dentures, oral reconstruction is a mistake. No matter what repair work the dentist may do, his primary mission is to educate the patient as to his own responsibility for preventing further damage to his teeth and their supporting structure.

Needless to say, we believe that artificial dentures are not only the worse possible substitutes for the natural dentition, but also the emblem of professional failure.

15. Who benefits from the practice of this philosophy?

We believe only in those methods and procedures in a dental office that will benefit the patient first, the professional image second, and the dentist third — always in that order. The patient benefits by enjoying optimum dental health at the lowest possible cost, and preserving his natural dentition throughout life. The profession benefits because patients have a restored faith in it. The dentist benefits by gaining the faith and loyalty of his patients, and by living at peace with his own conscience.

16. What about fees? Is this kind of dental care you advocate expensive for the patient?

As a part of our philosophy, fees are based on the Golden Rule — “Do unto others as you would that they should do unto you.” We believe that our treatment should be the most efficient and economical method possible to restore health. Anything added places an unnecessary burden on the patient, and anything less is neglect on the part of the dentist. Certainly the patient who is shown how to maintain his own oral health indefinitely will spend far less for dental service than the patient who has repeated attacks of dental disease.

17. But how does the dentist benefit? How can he earn a living if his patients do not have cavities to fill and dental disease to treat?

Like the physician, the dentist is a professional man, not a tradesman who tinkers in metal. Like other professional men, he should expect to derive his remuneration for his specialized knowledge, skill and judgment.

It has been said that people don't want a better treatment for tuberculosis — they just don't want to have the disease in the first place. There is no reason to suppose this is not equally true of dentistry. If the dental profession would and could convince the public that for all practical purposes they could be freed forever from dental disease, then each of us would have a line of patients a block long in front of our offices tomorrow morning. It's been our failure to provide this assurance, and then back it up with

performance that keeps the public from seeking our services.

18. *So you think you have all the answers?*

By no means. We feel great humility and responsibility when we realize that we have only begun to scratch the surface in our pursuit of preventive knowledge, and that the art of saving our patient's teeth is but in its infancy. We are receptive to new knowledge, willing to learn and change if necessary. We believe that we need postgraduate courses in various techniques to keep us abreast of new developments. We do believe we are on the right track in our search for truth.

19. *What are your immediate and long-term goals?*

At present we are a growing group, widely scattered. We hope to interest both dentists and the public in our work and our philosophy, and so to extend preventive dentistry to a larger number of persons everywhere. Each of us is working wholeheartedly toward the idealistic goal of teaching and showing

people how to care for and save their own teeth, so that ultimately there will be no need for the restorative phase of the profession of dentistry.

To achieve our goal, we welcome further inquiry from both dentists and the public. We maintain a speakers bureau that is available in any locality where a group of dentists wish to arrange for it.

20. *Where can one find a dentist who is a member of this society? Where can one obtain further information?*

The Executive Secretary of the Society will send the name of the nearest member to anyone who inquires. Other questions may be directed to the same source. Address inquiries to:

EXECUTIVE SECRETARY
THE SOCIETY FOR THE PRESER-
VATION OF ORAL HEALTH
4301 HUNTOON AVE.
TOPEKA, KANS.

Physician, heal thyself:

Luke 4:23

The Golden Thread

Part Two

**By the Staff
Miller and Breland
Pedodontic Associates**

Auxiliary personnel of this staff combine a total of 64 years dedicated to dentistry and include: Loretta Gaddy, Hygienist; Dorothy Holcombe, Janice Makarow, Jan Rado- vich, Evelyn Reavis, Carolyn Vance and Virginia Wilkins.

VI. Technical Talk—To Reach not Overreach?

We should use language on the patient's level not to mystify or impress, but for understanding. It is better that our patients be impressed, not with what we know, but with what they have learned. We should tell patients what they need to know to co-operate with us in treatment. Winged-collar stuffiness has no place in the modern dentist-patient relationship. Tell the truth; communicate, don't prevaricate.

One little detail — it would seem has already been implied — but it may bear emphasis: communicate best by the example of our own oral health. Our own teeth, ob-

served as we speak and smile, our breath, our physical well being as a whole . . . all are of the utmost importance. We are our own showcase.

VII. Our Dental Associations are Pro's at Communication

Our own dental associations — from the American Dental Association across and up from the grass roots affiliations we all have — are geared to help us with professional literature, bulletins, displays, information for the patient and about the patient. We should make use of them. A Children's Dental Health Week is set up to help us with the children in our practice. Booklets prepared to reach parents about their children, are available in a variety of subjects. Some specify the interest of the adult patient.

VIII. Attitudes that Count

Most of the friction in life is created by wrong attitudes — not by words, but by how they are spoken. When we talk with our patients, all of what we are comes into action. The more we have to

ffer — the more deeply we are live with interests and sympathies, the more likely will it be that we relate well to our patients because we are more alive and more interesting. We might sum it up as follows:

A. We must remember that case acceptance depends largely on how we convey the following "image" of dentistry.

1. That it will prolong life — certainly a basic desire.

2. That it will help in assuring recognition by preserving personal appeal and dignity.

3. That it will enhance chances for fulfillment of another basic desire — the fulfillment through love.

4. That it will save money because the only expensive item in dental health is neglect.

B. We must not foul up or short-circuit our lines of communication.

1. We must know ourselves, give thought to the words we use, to how we use them, to their effect on others. We must learn to adapt ourselves to what we know about others.

2. We must take pains to see that our offices are a projection of our standards, personality, outlook.

4. We must know our patients. The great diversity in human personality is what makes the words

we use so important. To one ear, a word may be right; to another, a red flag.

IX. The Golden Thread

Lastly, and a point that certainly has underscored all we have been saying about communications: the best message from us to our patients, the golden thread of communication which means everything to our professional success and the esteem in which we are held by everyone, is the dentistry that walks out of our office. A happy child, a satisfied parent, a proud business man, an active mother, a busy career girl — whoever they may be, send them from our offices with the best line of all written as it were, across their central incisors: *"I have my own teeth and look at them — aren't they beautiful? I've gone to Dr. A. for years and so will my children!"* As the advertising men would tell us, the best advertising of all is *word of mouth!* The phrase has specific meaning to dentists. Be sure the words from the mouths we send out will communicate to others how well we have done with our communications in word and in deed.

1927 BRUNSWICK AVENUE
CHARLOTTE
NORTH CAROLINA

The Board of Dental Examiners: Its Function and Responsibilities

By **Wade H. Breeland**

Dr. Breeland is president of the North Carolina State Board of Dental Examiners. This is the text of his address to the School of Dental Hygiene and Dental Assisting at Central Piedmont Community College in Charlotte March 14, 1967. It should be well received by students who will be coming before the Board for examination. It also will remind practicing dentists of their heritage and responsibilities.

Some months past, Dr. Hagemeyer requested that I appear before you as a representative of the North Carolina State Board of Dental Examiners, to attempt to explain the functions and the responsibilities of the State Board of Dental Examiners, and to afford you the opportunity of asking question relating to examination procedures as well as your responsibilities and your liabilities to the Dental Practice Act as written in the General Statutes of North Carolina.

Fortunately, you live in a democratic society, and in a democratic

society the citizens elect representatives who are given the authority by the Constitution to create laws by which the society shall be governed. You are all aware that according to our laws there are three branches of government, the legislative, the executive, and the judicial. You are also aware that the executive branch functions within the framework of purposes and powers granted to it by law, and that there are courts which are empowered to safeguard the rights of citizens, not only with respect to interpreting the propriety of laws which are passed, but also to control the extent and manner in which the executive branch functions.

For purposes of dividing the work-load and responsibilities, and to more adequately serve the entire citizenship of this State in all activities of life, especially in relation to the happiness, health, safety, and general welfare of the public, the Legislature is empowered to create and to establish committees, commissions, boards, and other agencies to operate within the framework of the legislation which created them.

These groups or agencies have various authorities and functions.

For example, some agencies have regulatory powers and regulate rates on insurance, gas, telephone, electric services and other. Some agencies "run things," such as the Board of Trustees of the University. They operate the University. The Watchmakers Board is simply a licensing board. There are many and various boards in the State of North Carolina.

The State Board of Dental Examiners has executive power granted to it. It is also an examining and licensing board, and it has regulatory and judicial function and power, but neither the Board of Dental Examiners, nor any other board, can exceed its authority by making its own laws.

Origin of Dental Education and Board of Examiners

The first School of Dentistry was the Baltimore College of Dental Surgery which graduated its first class in 1842.

The first Dental Society in North Carolina was organized in Raleigh on October 16, 1856.

Before 1858 there was no regulatory authority governing the prac-

tice of dentistry in North Carolina. Practitioners obtained their training as apprentices in dental offices or came by a certificate or diploma from schools, many of which were simply diploma-mills that turned out diplomas rather than dentists.

The Legislature of North Carolina realizing the need to protect the citizens of this State from untrained and unqualified practitioners enacted in 1858-1859 a regulatory act of medicine and allied occupations. This was a weak act as far as dentistry was concerned. The early graduated and organized dentist of North Carolina, with insistent effort, finally succeeded in getting the

Legislature to pass an act to regulate the practice of dentistry in North Carolina. This act was ratified March 7, 1879. This early act required a diploma from a reputable institution of dentistry and a license from the State Board of Dental Examiners, before a person could practice dentistry in North Carolina.

The enactment of the law to regulate the practice of dental hygiene in the State of North Carolina was adopted in the session of 1945.

Application for Licensure

The eligibility of applicants to apply for examination to practice dentistry or dental hygiene is plainly stated in the law. The law further requires each applicant to be a graduate of an approved college of dentistry or an approved school of dental hygiene. The law requires the Board of Dental Examiners to determine the applicant's proficiency to the satisfaction of the Board. The Board of Dental Examiners is empowered to examine all applicants in certain fundamental sciences and requires all applicants to perform clinical procedures of proficiency in the knowledge and practice of dentistry and oral hygiene. Upon fulfilling these requirements, a license to practice is issued by the Board. In other words the law is so framed that in order for an individual to be privileged to be examined, that individual must have adequate training in modern concepts of teaching and modern concepts of techniques. Be sure to always realize that the opportunity to take an examination for licensure is a *privilege* and *not a right*. The *rights* inherent in a license comes only as the result of passing the prescribed examinations.

The Constitutionality of the Dental Practice Act

The constitutionality of the dental practice acts of many states has been contested in the higher courts of these United States. The higher courts in these states affirmed that "the legislature may prescribe such reasonable conditions upon the right to practice medicine or any branch of medicine as will exclude from practice those who are unfitted for it." The ruling rendered in Minnesota on November 30, 1889 went on to say "the power rests on the right to protect the public against the injurious consequences likely to result from allowing persons to practice those professions who do not possess the special qualifications essential to enable the practitioner to practice the professions with safety to those who employ him." That, "in the exercise of that power, the legislature may require that the person shall procure a license. The legislature may designate some board to issue the license, and to determine whether an applicant possesses the qualifications required to entitle him to licensure. It is for the legislature, not the courts to determine these things." The court also declared that "the provisions and the requirements of the law are undoubtedly rigorous; in other words, they ought to be in any law aiming to protect the public against ignorance and incompetency in so important a profession as the medical profession or any of its branches." From this decision the court saw nothing in the provisions in this law which was not clearly inserted by the legislature in good faith to effect the end in view. The law was held valid.

It may be stated as a general

proposition that any person has the right to pursue any lawful calling, but in respect to certain occupations, not in themselves unlawful, this right is necessarily subject to legislative restrictions from considerations of public policy. The legislature surely has the same power to require, as a condition of the right to practice these professions, that the practitioner shall be possessed of the qualifications of honor and a good moral character, as it has to require that the practitioner shall be learned in the profession. It cannot be doubted that the legislature has authority, in the exercise of its general police power, to make such reasonable requirements as may be calculated to bar from admission to these professions, dishonorable persons whose principles or practices are such as to render them unfit to be intrusted with the discharge of its duties. And as the duty of determining upon these qualifications, both as to learning and skill, and as to honor and moral fitness, must from necessity be committed to some board or body other than the legislature, the responsibility was committed to the State Board of Dental Examiners.

It should appear that if you intend to practice dentistry or dental hygiene in the State of North Carolina you will need to have a diploma from an accredited school and acquire a license.

Entering the Dental Profession

Most of you have been students the better part of your lives and you are about to complete the collegiate phase of your professional training. As you enter the practice of your profession you will encounter a variety of unrelated prob-

lems. You will become a part of a professional family, a part of a professional team, a tenant, a debtor, a community leader, a personal counselor, and a taxpayer as well as a licensee. You will have continuing relationship with the Board of Dental Examiners as long as you practice, and you will no longer be the free agent that you were before licensure.

Many of your activities will be circumscribed by the large body of general law. You will be accountable for a wide variety of your acts. You will, in addition, be bound by specific state dental laws. Now, in addition, if you become members of dental societies, and you should, your conduct will be further circumscribed by those rules of conduct which dental societies declare shall be those expected of its membership, namely, by a code of ethics. Laws regulate acts, while codes of ethics are concerned with the formation and use of judgements of moral and professional worth. The State Board regulates the activities of dentists and dental hygienists according to the law, not the codes of ethics of dental societies.

Let me assure you now and for all times to come, that the North Carolina State Board of Dental Examiners is not an arm or a part of the State Dental Association. It is a part of the State Government of North Carolina. They are often confused by the public but there is no real or true connection. The members of the State Board of Dental Examiners take the same oath of office as required of other elected officials and members of the judiciary.

What does the public have a right to expect of you? That you conduct yourself and your practice as be-

comes a professional person. That you be a decent citizen. That you render the best dental health services possible within your knowledge, perception, skill, training and ability.

What Does the Board of Dental Examiners Expect of You?

The Board expects you to be well grounded in the basic sciences as they apply to the daily practice of your profession; that you possess sufficient knowledge, perception, skill, ability and judgment to carry on a practice. That you have a knowledge of form and function and be able to recognize deviations from the norm. You should be able to communicate with and be able to combine your efforts with others who make up the health team. You should acquire a wholesome respect for the whole health team and it is hoped that you are actuated by a philosophy of service to others and that you are committed to face up to these standards. The public expects you to be understanding and exercise patience with suffering.

A Personal Observation

Much has been said, and volumes have been written, about the manpower shortage in dentistry to meet the dental health needs of the public. Statistically, this is correct, but the fallacy of the statistics is that the statistics do not show the difference between the dental health needs of the public and the appreciation or the desire of the general public for total dental health care.

Many of us have the philosophy that the dental man-power shortage on an hourly basis is due mostly to the unavailability of capable and

adequately trained auxiliary personnel, namely, the dental hygienist, the dental assistant, and the dental technician. The development of capable and trained auxiliary dental personnel has not been in proportion to the advancements of the knowledge and techniques of dentistry. North Carolina has made great strides in attempting to meet the needs for trained auxiliary personnel but all these programs need urgent expansion.

The Board's View Point

Realizing the urgent need for capable and adequately trained auxiliary personnel and the accomplishments on the state level of programs instituted to supply auxiliary personnel, the Board realized changes in the law were necessary to legalize adequate use of this personnel. As a result of these developments, and in an effort to prepare for the future, the Board in conjunction with the dentists of the State requested the Legislature to enact provisions into the law whereby the expansion of the duties and uses of auxiliary personnel would be under the rules and regulations authority of the Board of Dental Examiners. This was enacted during the session of 1965.

The Board under the authority of its rules and regulations can and will expand the duties and uses of auxiliary personnel in proportion to the knowledge and training of auxiliary personnel. The dental health team needs expansion. The law and the Board is prepared for this expansion, but the Board must, for the protection of the public, demand this expansion be based on adequate knowledge, skill, and training.

Now, to You Seniors

For many of you an examination on the level of the State Board is an anticipated grueling experience. Let yourselves be assured that the Board will be there to help and not hinder you. All we ask is that you be completely honest with yourselves and with the Board. We expect you to perform clinically exactly what you have been taught to do. Above all things, do not attempt to impress the Board by attempting to go beyond your ability, your knowledge, your skill, or your experience.

On your information and instruction sheets that the secretary of the Board will send you along with your application for examination you will find all pertinent information for the examinations. You will notice that the Board will accept the results of the National Board Examination on those subjects required by the North Carolina Board for both dental and hygienist applicants.

You will be accurately and fully instructed in all details concerning the practical and written part of the examinations. You will be assigned a section and you will know the exact hour for all phases of the examinations. You will know the time when you must have your patients for the practical part of the examinations.

One of the real and refreshing rewards of the work of a Board member comes from observing the high quality performance of the graduates who come from our excellent School of Dentistry and schools of dental hygiene.

The next time I see you, I am confident, I will be proud to welcome you into a noble profession.

TAKE TIME

Take time to work—it is the price of success.

Take time to play—it is the secret of youth.

Take time to love—it is the one sacrament.

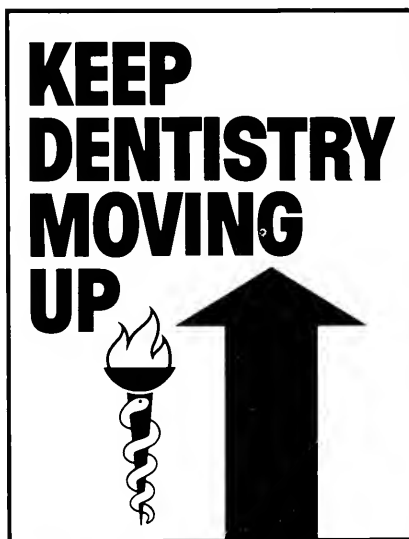

Take time to worship — it is the highway of reverence which cleanses and restores the soul.

Take time to think—it is the source of power.

Take time to read—it is the foundation of knowledge.

Take time to plan—it is the secret of being able to have time to take time for the first six things.

News from . . .

North Carolina

Dental Hygienists' Association

Since August, 1966 Nancy Ramsey, a dental hygienist from Kinston, North Carolina has been working for a dentist in Lausanne, Switzerland. She received her B.S. degree in Dental Hygiene from the University of North Carolina in 1965.

Readers will be interested in some of her comments in a recent letter.

"I've been working here now for two weeks, and I couldn't ask for a better employer than Dr. Charles Vallatton. He is an outstanding dentist with both an MD and DDS. He does beautiful work, and I'm quite proud to be associated with him. He has been doing a few prophylaxis but I'm afraid his time has been so occupied that he hasn't kept the patients up as they should be. I'm working quite hard, but I'm reaping rewards also. The doctor seems more than pleased and my patients seem to appreciate the service. I have a great deal of authority — almost more than I like, but Dr. Vallatton's faith in me is appreciated.

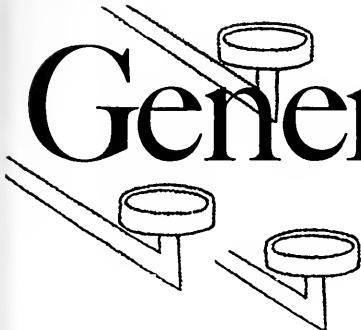

"I am having many problems obtaining needed supplies. Luckily, my employer loves suggestions and is willing to buy me anything I need. Not having what I'm used to work-

NANCY RAMSEY

ing with puts me off balance and I feel very frustrated at the end of a day. I may have to call on UNC to help me on occasions, but I hope that I can avoid putting you to this trouble. My scalers are much too large, and I haven't found a European company which makes smaller ones. I'm also having trouble obtaining any SnF1 or PhF1. If you know the name of the company which makes the phosphate fluoride I'd appreciate their address.

"Please keep me posted on the latest advances in Dental Hygiene, for I'm afraid Europe is about five years behind. I don't want to also get behind by being here."

General News

Grants For Research Centers

To stem the rising tide of dental and other oral diseases, a new program of grant support for the planning and development of dental research institutes or centers was announced by Surgeon General William H. Stewart.

Approximately \$3 billion now is being spent annually for dental treatment by a small segment of the population, Dr. Stewart said. Total annual cost for dental treatment might be in the range of \$20 to \$25 billion for the first year if all individuals requiring treatment were to receive it.

The first grant by the National Institute of Dental Research for the planning of a research center is being awarded to the University of Washington, Seattle.

As contrasted with the long-established program of support for individual research projects, the new program encourages institutions to develop research and training centers on a broad interdisciplinary base designed to bring the total university resources of clinical, basic and life sciences together. Thus, scientists of many disciplines would pool their skills and knowledge in a unified effort to solve oral health problems. These coordinated efforts

would greatly increase knowledge of the cause, prevention, and improved treatment of oral diseases, according to Dr. Seymour J. Kreshover, director of the National Institute of Dental Research.

The criteria for establishment of these institutes, set forth by a special advisory committee, call for the focusing on oral health problems of the diversified resources of a research and educational complex. A wide variety of approaches in organizational arrangements is permitted. In some instances, the resources of a single university may be used, whereas in others the proposed center may draw on resources available within a region.

National Board Exam

The North Carolina State Board of Dental Examiners has announced that effective February 6, 1967, it will recognize National Board examinations in determining qualifications of persons seeking license to practice dentistry in North Carolina. The Board will require examination only in those subjects not given in National Board examinations.

The University of Washington will receive \$252,905 for the first year to plan an interdisciplinary Research Center in Oral Biology. Expansion of its current research program would consider such areas as genetics, immunochemistry, and mineral metabolism. The graduate training program will also be further developed.

A number of other institutions are expected to plan, develop, and establish research centers with support under the new program, Dr. Kreshover indicated. This emerging network of dental research institutes not only will contribute to new knowledge, he said, but will also provide a unique environment for training researchers and teachers. Personnel at the centers would also work closely with private practitioners to speed the application of new research knowledge.

Speakers Announced

The Spring meeting of the North Carolina Society of Dentistry for Children will be held at Chapel Hill on Thursday, April 6 with Dr. Glenn A. Thomas of Wichita, Kansas as the principal speaker. His subject will be in the area of practice administration.

On October 20 and 21 the Society will meet at The Carolinian, Nags Head. Roy Garn of Emotional Appeal Institute will lecture at this Fall meeting.

New Study Club

Dentists in Wilkes, Yadkin, and Surry counties have formed a new study club, according to James A. Harrell of Elkin. It will be known as the Wiyasu Dental Study Club.

New Central Office

The Central Office of the North Carolina Dental Society will occupy brand new quarters on June 1, 1967. The move was approved by the Executive Committee January 7.

The one-story brick building of colonial design is now under construction and is located at the corner of Peace and Blount Streets in Raleigh. The Central Office has occupied its present quarters at 405 West Peace Street since it was established in October, 1955.

Initially the Central Office will occupy 1,300 of 2,000 square feet under a 5-year lease.

The 1966 House of Delegates authorized the Executive Committee to relocate the Central Office after it was determined that the present quarters would not adequately accommodate the present or future needs for efficient operation.

The new site will include offices for the Executive Secretary and staff, a conference room, storage area, machine equipment room and rest room.

Dr. Walter H. Finch, Jr. of Henderson headed the committee which surveyed over 25 possible sites before submitting its recommendation to the Executive Committee.

ESC Survey

Hospitals, doctors, nursing homes, welfare offices and local health officials will soon be requested to furnish to the Employment Security Commission information on job shortages to try to relieve a growing and critical need for trained medical service and health personnel in North Carolina.

At a recent meeting with the

Employment Security Commission health authorities considered the serious shortage of skilled and professional workers and reported that the bulk of North Carolina's major health facilities are under staffed.

To find out what jobs are going unfilled and where the shortages are most predominant, the Employment Security Commission will soon begin a statewide survey of approximately 800 leading medical facilities, including at least 510 major hospitals, nursing and rest homes, and all county health and welfare agencies.

Possibly 800 physicians and dentists in private practice will be contacted. According to Henry E. Kendall, Chairman of the Employment Security Commission, the survey is needed "to determine what occupations are most in need of trained personnel and what sections of North Carolina should have the highest concentration of medical service training."

Statement on OEO

Dentists involved in Head Start and other OEO programs will find the statement "Suggested Procedures for Publicly Funded Dental Care Programs" invaluable. The statement was developed by the Society's Council on Dental Health and approved by the Executive Committee.

It includes instructions to program supervisors, public health officials, school superintendents and principals, dentists and local dental societies. Services to be provided, methods of payment, quality of service and priorities are also covered.

Copies were sent to all dentists in

the State by the Dental Health Division. Additional copies may be obtained from the Central Office.

Insurance Conference

National figures from Blue Shield agencies, government sponsored programs and the Health Insurance Council will speak at a one day conference on insurance April 26 at White House Inn in Charlotte. The conference is sponsored by the American Society of Oral Surgery.

The program will cover three main facets of insurance — commercial carriers, non-profit organizations and government agencies.

All dentists are invited to attend to gather information and a better understanding of dental health insurance programs.

A nominal registration fee will be charged. For details on the program write: Dr. E. U. Austin, 315 Randolph Medical Center, Charlotte, 28207.

The Southeastern Society of Oral Surgeons will begin its three day meeting in Charlotte the next day.

Blue Ridge Clinic

Dr. William W. Dolan of Coral Gables, Florida will speak on "Oral Rehabilitation Procedures in General Practice" at High Meadows Inn, Roaring Gap, on Saturday, April 22. The clinic is sponsored by the Blue Ridge Dental Society.

Reservations may be made by writing Blue Ridge Dental Society, Box 1126, North Wilkesboro, N. C. 28659. Registration fees are \$35 for the dentist and \$5 for the dentist's wife or auxiliary personnel

and include a buffet lunch and coffee breaks.

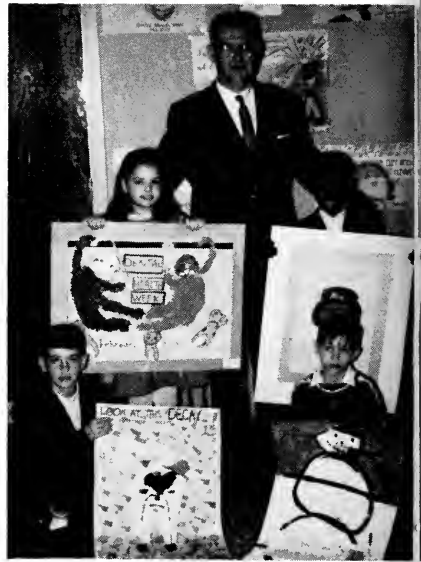

Dr. Dolan will cover the F.P.G. for single units or three unit bridges, electro-surgery, and basic principles of occlusion which can be used in routine operative or routine crown and bridge procedures.

Dr. Bell Donates Equipment

Dr. John T. Bell of Durham retired last Fall, but not for long. He donated all his dental equipment including three chairs, two X-ray units, and all his laboratory equipment to Sea Level General and Children's Hospital because he wanted it placed in a community that needed it. Sea Level was his choice.

The equipment was installed at the Sea Level hospital, but the nearest dentist is thirty miles away and Dr. Bell came out of retirement immediately to fill in the gap.

He now commutes to Sea Level each week to take care of dental patients in that coastal area until a dentist can be found for Eastern Carteret County.

HERE ARE THE WINNERS in the poster contest sponsored by the Durham-Orange County Dental Society in the Durham County Schools during Children's Dental Health Week. Front: Franklin Floyd, 4th grade, Bethesda Elementary School; Al Killette, 1st grade, Lowe's Grove School. Above: Lynn Strobel, 3rd grade, Lakewood School; Milton Harris, 3rd grade, Crest Street School. Dr. J. Wesley Mainwaring in the background was a co-ordinator of activities during NCDHW in the area.

Periodontists to Meet

The Southern Academy of Periodontology will hold its 47th Annual Meeting at the Voyager Inn in Greensboro, June 11-13. Dr. James B. Howell, current president of the Academy, will preside over the three-day meeting.

Principal clinicians include: Dr. Major M. Ashe, Jr., and Dr. Sigurd P. Ramfjord, both of Ann Arbor, Michigan.

For further information contact: Dr. Frank J. Malone, secretary, 490 Peachtree Street, NE, Atlanta.

UNC Alumni Plan Clinic

The UNC Dental Alumni will sponsor an all day clinic on Saturday, April 15 at Chapel Hill. Featured clinicians will be Dr. Marvin E. Chapin, Chairman, Department of Surgery, and Dr. W. D. Strickland, Associate Professor, Operative Dentistry at the UNC School of Dentistry.

Registration will begin at 9:15 a.m. in the School of Public Health Auditorium. The Association will meet at 4:00 p.m. and the annual Alumni Dinner and Dance will be held in the evening. Alumni and their wives are invited to spend the weekend "on the Hill."

Dental Tech Students Receive Award

Two second-year students at Durham Technical Institute received a \$500 scholarship from the American Fund for Dental Education for 1966-67. They are Vance D. High of Durham and Richard T. Kale of Chapel Hill.

There were 37 applications for the 1966-67 scholarships. Ten were awarded, including the two at Durham Technical Institute.

Applications for the 1967-68 AFDE scholarships are now available from the AFDE, 211 E. Chicago Ave., Chicago. Applicants must be high school graduates and agree to work as technicians for at least three years.

Dental Decay

Dental decay afflicts 98 percent of all Americans at some time during their lives. Beginning in early childhood, soon after eruption of the primary teeth, this disease continues its destructive course through the permanent dentition unless preventive or restorative measures are taken.

Investigations into the causes, treatment and prevention of this universal problem are summarized in a new booklet published by the Public Health Service.

"Research Explores Dental Decay," prepared by the National Institute of Dental Research, one of the National Institutes of Health, discusses work underway by Institute scientists and grant-supported investigators in various institutions throughout the country. It points out the wide variety of factors, such as nutrition, bacteria, oral hygiene

practices, and heredity, believed to contribute to the development of this disease.

Because tooth decay is so common, many people accept it as unpleasant but inevitable. The booklet notes that changing this attitude and encouraging proper oral hygiene and periodic professional care could considerably decrease the amount of decay.

Just as dental research is a collaborative task, the application of research findings in preventing decay is a partnership effort, the book-

LARRY SMITH, Innkeeper at New Bern's Holiday Inn gave Children's Dental Health Week a boost by displaying this sign in front of the motel.

AMERICAN DENTAL ASSOCIATION

TRUSTEE'S REPORT

Dr. Kellner is serving his first term as Fifth District Trustee. Since 1953 he has represented Florida in the ADA House of Delegates and has held the offices of First Vice President of the ADA and President of the American Association of Dental Examiners. He is a graduate of Chicago College of Dental Surgery.

Essayists

ROBERT V. WALKER, D.D.S.

Dallas, Texas

Dr. Walker is Professor of Surgery and Chairman of the Division of Oral Surgery, The University of Texas Southwestern Medical School, Dallas. He is a graduate of Baylor University College of Dentistry, a Fellow of the American College of Dentists, and a Diplomate of the American Board of Oral Surgery.

Thursday, May 11, 9:00 a.m.

Cardinal Ballroom

COMPLICATIONS, ACCIDENTS, AND POSTOPERATIVE CARE

This lecture will cover: complications associated with local anesthesia including paralysis, blanching of skin, hematoma, prolonged anesthesia, ulceration, allergic reactions, infections and broken needles; accidents caused by unsound planning, inadequate history taking, careless technique, and poor precautions taken to prevent postoperative difficulties; postoperative care of oral surgery patients.

Thursday, May 11, 2:00 p.m.

Cardinal Ballroom

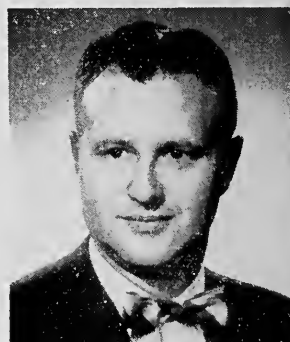

INFECTION: ITS NATURE AND SURGICAL MANAGEMENT

A discussion of the basis for infection of odontogenic origin prior to and following surgical procedures, and the indicated surgical and antibiotic treatment; safe anatomical areas for intraoral and extraoral drainage areas. Newer horizons in oral surgery that permit quick and accurate intraoral correction of occlusal deformities will be reviewed.

MERLE L. HALE, D.D.S.

Iowa City, Iowa

Dr. Hale is Professor and Chairman of Oral Surgery at The University of Iowa College of Dentistry, and Chairman, Oral Surgery and Dental Department, University Hospitals, Iowa City. He is a graduate of The University of Iowa College of Dentistry, a Fellow of the American College of Dentists, and a Diplomate of the American Board of Oral Surgery.

Thursday, May 11, 10:40 a.m. and 3:15 p.m.

DENTAL THERAPEUTICS—AN INTEGRAL PART OF TOTAL PATIENT CARE

Essayists

FAUSTIN N. WEBER, D.D.S.

Memphis, Tennessee

Dr. Weber is Professor and Chairman, Department of Orthodontics, University of Tennessee. He is a graduate of University of Michigan School of Dentistry, a Fellow of the American College of Dentists, a Diplomate of the American Board of Orthodontics, and Orthodontic Consultant at Kennedy Veterans Hospital in Memphis.

Friday, May 12, 9:00 a.m. and 2:00 p.m.

Cardinal Ballroom

ORTHODONTICS FOR THE NON-ORTHODONTIST

It is conservatively estimated that one out of every four children of school age needs orthodontic treatment. In many areas the need and the demand for this type of treatment is greater than the orthodontic manpower can supply. Many more dentists are being trained as orthodontists today than in former years, but the rapidly increasing population will still leave a shortage of trained orthodontists. A partial solution to the problem lies in the more widespread use of preventive orthodontic techniques and the application of limited orthodontic procedures by the general practitioner. Some of these techniques and procedures will be demonstrated in this clinic.

CAPT. FRANK D. GROSSMAN

DC, USN

Washington, D. C.

Captain Grossman is Head, Preventive Dentistry Section, Bureau of Medicine and Surgery, Navy Department, Washington, D. C. He is a graduate of The School of Dentistry, University of Minnesota, a Fellow of the American College of Dentists, and received a M.P.H. degree in Epidemiology from The University of California at Los Angeles.

PULLEN SIZER

A LETTER OF DEEP APPRECIATION

Dear Doctor:

We are using this space in your journal to express to you our grateful appreciation for the many courtesies which you have extended to us throughout the past 18 years.

It is only through your loyal support that we have grown. We will continue to exhaust all our energies toward justifying your confidence.

From all of us, our employees and families,
THANK YOU.

AN ENTIRELY NEW TOOTH BORNE METHOD
OF RESTORING LOST TEETH!

NEW!

ANDREWS BRIDGE SYSTEM*

The **Andrews Bridge** is a removable fixed bridge incorporating a removable pontic assembly. It has *retained all* the advantages of the conventional fixed bridge and the removable partial denture...but has none of the shortcomings associated with either.

PAT. PEND.

For further information, contact
your **LUXENE PROCESSING LABORATORY OR LUXENE, INC.**
118 EAST 25th ST., NEW YORK, N. Y. 10010.

One will do—but

Using only one local anesthetic may be suitable if all your procedures are extensive and complicated.

But many modern procedures are not time consuming. So, more and more dentists are taking advantage of the unique choice provided by the two formulas of Carbocaine: a choice of shorter or longer duration—each offering profound anesthesia¹ with rapid onset² and being well tolerated.³

Carbocaine 3% without vasoconstrictor is growing in popularity, in keeping with high-speed procedures and for routine extractions which do not require long-lasting anesthesia. Carbocaine 2% with Neo-Cobefrin assures unsurpassed depth of anesthesia for the most protracted procedures; the need for reinjection is rare.

Carbocaine[®] HCl
brand of **mepivacaine HCl**

FOR YOUR INFORMATION: These local anesthetic solutions are for dental block and infiltration injections only. There are no known contraindications in dentistry except for patients known to be sensitized. Inject slowly and avoid intravascular injection by aspirating. As with all local anesthetic solutions, adverse reactions due to intolerance, overdosage, or intravascular injection may occur and include hypotension and respiratory depression. Such reactions occur infrequently and usually are readily controlled by supporting circulation with a vasopressor and respiration with oxygen. Carbocaine and Neo-Cobefrin are trademarks (Reg. U.S. Pat. Off.) of Sterling Drug Inc.

Carbocaine HCl 3% without vasoconstrictor

provides very rapid, profound anesthesia without unwarranted duration—particularly desirable in children's dentistry and modern high-speed restorative procedures. *Operating anesthesia* averages 20 minutes upper, 40 minutes lower.

Carbocaine HCl 2% with Neo-Cobefrin[®] 1:20,000 (brand of levo-nordfrin)

offers rapid-acting, consistently profound anesthesia of sufficiently long duration that even extensive and complicated procedures seldom require reinjection.

NEW!

DENTISTRY'S ONLY AIR-DRIVEN HANDPIECE

WITH INSTANTANEOUS HIGH TORQUE

KWIK-TORK®

STARTS INSTANTLY... STOPS INSTANTLY

Kwik-Tork, the new precision-engineered, air-driven handpiece is unexcelled for all operations requiring low speed and instantaneous high torque—prophy-laxis, grinding and polishing, and for cavity preparation, where indicated.

Here are some of its outstanding features: ■ Delivers maximum torque immediately. ■ Built-in brake action prevents coasting when air is cut off. ■ Swivel connection facilitates stress-free handling . . . enables tubing to rest on your hand without twisting. ■ Light weight—only 5 ounces—easy to handle as a pencil. ■ Takes all standard burs and angles . . . no special attachment needed. ■ Positive reverse action. ■ Quiet, cool running for patient comfort. ■ Air and water at the handpiece. ■ Sterilizable by autoclave.

Order your Kwik-Tork now . . . or, if you would like a demonstration, call your dealer salesman. S.S. White Company, Philadelphia, Pa. 19105.

GOOD NUTRITION PROMOTES DENTAL HEALTH

Good nutrition is necessary for normal growth, development, maintenance, and repair of *all* cells of the body. Dental health, then, like general health, depends in part on good nutrition.

To achieve a state of good nutrition, all essential food nutrients must be provided in ample amounts and in favorable ratio to each other. In addition, the body must be able to properly digest the food, and absorb and utilize the nutrients it provides.

Dental health, therefore, also favors good nutrition. This interrelationship is logical inasmuch as the first step in the digestion of food is its thorough chewing in the mouth.

Better dental health is possible for most persons, if present knowledge of factors which influence the health of the entire body and which affect teeth and gums locally is applied to daily living habits. This means meals should contain a well-chosen variety of foods. These foods should provide all known essential nutrients in recommended amounts. Excesses of any single type of food should be avoided, especially those which are concentrated sources of food energy without being accompanied by essential food nutrients.

NOW, SAVINGS BONDS PAY MORE INTEREST!

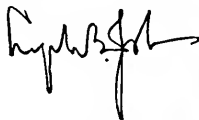

4.15% when held to maturity

*Higher interest on the
bonds you already own, too!*

Now U. S. Savings Bonds are a better way to save money than ever. Because now all Series E and Series H Bonds bought after December 1, 1965 will earn the new, higher interest rate of 4.15% when held to maturity. That's only 7 years for Series E—9 months quicker than before. All H Bond interest checks will be larger beginning in June 1966. And your outstanding bonds will earn more, too, from now on. So, you don't have to cash in your present bonds to get the new rate. Ask about buying bonds where you work or bank. For America's future. And yours.

"Today, None of Us Can Remain Aloof on the Sidelines."

"Not all of us are called upon to fight in the jungles of Vietnam, but, while our men are there, in the front lines of a distant land, none of us can remain aloof on the sidelines. We must all do our share—in every way we can—to support our men in Vietnam. One sure way is open to all Americans through the Savings Bond program."

**H. Royster Chamblee, D.D.S.
Raleigh, North Carolina**

Royster Chamblee is loyal to his profession, his church, and to his many, many friends. He has that regard for duty and responsibility which carries him the second mile and often drives him beyond his physical endurance. He is accommodating, tolerant, and understanding, and always ready to lend a helping hand to every worthy cause. Dentistry is richer and our community has greatly benefited because of his many enviable contributions to the welfare of both. He is held in high respect and affectionate regard by his countless friends.

The President's Page

ALL OF US who attended the one hundred and eleventh meeting of the North Carolina Dental Society, I am sure, left with the feeling that it was another fine and successful convention. All the alterations and changes that the hotel had made may have created a few problems for the different chairmen in charge and our executive secretary, but I think everything was carried out very smoothly and with efficiency. Several members could not find the exhibit area and many of the exhibitors complained about the dust stirred up in this area. I am hoping that both of these problems can be corrected before our next meeting. Also, at the Auxiliary lawn party, which was held inside because of threatening weather, there was a group of uninvited guests. This was called to my attention by some of the members present and we shall try to prevent such a crash in the future.

Something must also be done to create more interest in our final business session and installation ceremonies. Excluding families and a few friends of the officers and the central dental office staff, less than a dozen members were present. Also to the disappointment and embarrassment of your president, only the president-elect, Colin Osborne, showed up to be installed. I think the whole Society is treating this part of our program too lightly. From past experience I realize that this is the session that draws the least attendance. However, the pitiful attendance at the final session was a discredit to the whole Society. This is the occasion that the incoming president should relay some of his ideas and plans for the future. With the lack of enthusiasm of the other members, it is only natural that this final session was not much more than a formality. We shall do our best not to have a duplication of this experience next year. We are going to arrange the program so that the final business session and installation will not directly precede the President's reception and also at a time when more members will be in the convention hall. This can easily be done since we are having the meeting beginning at the first rather than the last of the week. Also, let me urge all members

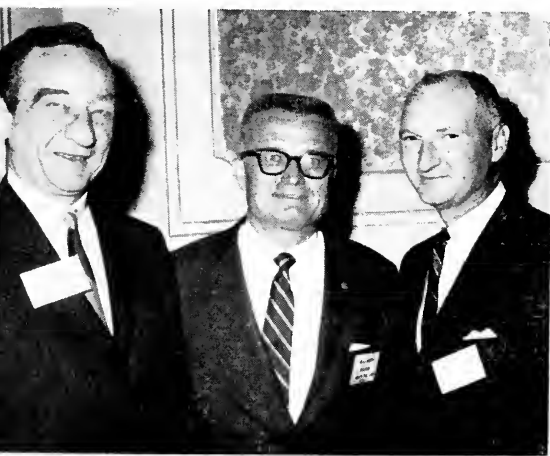

to make a special effort to catch this part of our function. It should be our duty and responsibility.

Plans have already been undertaken for the coming year. Dr. Baxt Sapp is our program chairman and since last November he has been lining up clinicians for the scientific part of our meeting. Dr. L. D. Herring is convention chairman. L. D. is an experienced and able member and I am looking forward to a great year from him. Also, I feel we are very fortunate to get Dr. Frank Atwater to serve as chairman of the Executive Committee.

With the team we have lined up, the Society can be assured of one hundred-percent effort and should be able to look forward to another successful year.

GEORGE F. KIRKLAND, JR.

INSURANCE CONFERENCE

Three of the principal speakers at the Health Insurance Conference held at the White House Inn in Charlotte April 26 are pictured here. From left to right: Dr. Frank W. Jones, president, Medical Society of the State of North Carolina; Dr. Edward U. Austin, Chairman of the Conference; and R. F. Clodfelter, vice president, Wachovia Bank and Trust Company.

Sponsored by the American Society of Oral Surgeons, the conference was attended by over 175 Society members and representatives of insurance companies.

SECOND LETTER FROM DR. JOE AVERAGE

DOCTOR ERNEST MERIT
SCHOOL OF DENTISTRY
UNIVERSITY OF HEALTH SERVICE
FUTURE HOPE, NEW DENTISTRY

Dear Doctor Merit:

For the first time since finishing dental school I feel I am really practicing dentistry. Instead of fighting the forest fire in the middle of the blaze, I am putting more effort in the area where it starts. The treatment is easier, the damage is repairable, and the results are more beneficial and lasting.

The state meeting was restful and rewarding. Programs were planned so I had time for leisure, some good rounds of golf renewing friendships and tired body. This I needed. But what I needed most was also provided—being stimulated mentally by the outstanding clinicians. There are two vital areas of great interest to me now. One is philosophy related to understanding ourselves and our patients. The other is engineering. The failure of dentistry can be attributed to these reasons: 1. Not knowing the patient and being able to prevent the recurrence of disease through habitual neglect of oral hygiene and body health; and

2. The structural failure of restorative dentistry by the dentist's lack of understanding of the basic limits of the materials used, and their supporting tissue under the conditions found in individual oral cavities. This is where physiology and engineering have a vital bond. If in the practice of dentistry we must build bridges, let us be competent in our knowledge as we are fortunate to be a member of the health team with such a challenging part. For we not only diagnose and treat but also go further—we add to the human body replacing tissue lost by disease or accident. Looking at dentistry in this respect, it is impossible to "fill" a tooth—it must be restored. It is impossible to replace teeth with bridges without maintaining the integrity of the dental arch. It is impossible to insert dentures without educating the patient to why he was the tree in the middle of the forest fire, so he can in turn educate the other members of his family.

Dentistry is a great, challenging profession, and I am glad to be a part of it.

Sincerely,

JOE AVERAGE, D.D.S.

Numbers have changed position in over 200 years. Certainly dentistry has progressed, but even the ADA chooses to feature this image of dentistry. Just an image, but it belongs to us. When the public views this, they don't see a 1796 engraving, they see you, their dentist. The present day cartoonists all too often display this image of pain, fear, & discomfort with a ridiculously sadistic appearing dentist who has nothing to offer his patient except a repetitious relieving of pain in a crude and painful manner. What is the true image of our profession today, 1967?

THE STATE BOARD OF DENTAL EXAMINERS

AT the invitation of the University of Alabama, the Alabama State Dental Society, the Alabama State Department of Health and the University of Alabama Dental School, Wade H. Breeland, president of the N. C. State Board of Dental Examiners will attend the Workshop on Dental Manpower, Montgomery, Alabama, July 13-14, 1967. He will give North Carolina's philosophy and approach to the relief of dental manpower shortage by the extension of duties allowed to be performed by auxiliary personnel in North Carolina. Alabama is also interested in the N. C. Dental Practice Act which grants the N. C. State Board of Dental Examiners

the authority to make various changes without going through the State Legislature for each change.

Recent Extended Duties of Auxiliary Personnel

Hygienists' duties have been extended to include the removal of surgical packs and dressings, periodontal packs, sutures, excess cement from cemented restorations, and the polishing of all restorations excluding porcelain.

Assistants may now apply topical fluoride. This was added shortly after they were allowed to take radiographs.

The Challenge

Under present law concerning rules and regulations relating to assistants, the Board has the power by law to grant them almost any kind of duty, but it is the philosophy of the Board that their extended duties will only be granted when assistants are adequately trained and certified under the standards of dental education.

This action of our Board of Dental Examiners is in line with the suggestion made to the 18th National Health Conference by Dr. William E. Brown, Jr., that the duties of auxiliary personnel must be expanded. (JADA, Vol. 74, June, 1967, page 1440) It is good to see North Carolina dentistry progressing.

Book Reviews

The Business Management of Dental Practice. By Harvey Sarner. 222 pp. \$7.50. Philadelphia and London: W. B. Saunders Co., 1966.

Mr. Sarner, secretary of the American Dental Association's Judicial Council, brings to the profession a textbook that has a place in every dental office. This text covers practically every aspect of the business of operating a dental office. It is not concerned with the chairside practice of dentistry or patient motivation techniques for better dentistry.

The book is divided into 15 chapters. "The Expert Witness," "Real Estate," "Restrictive Covenants," and "Purchase and Sale of a Dental Practice" are chapter titles which may illustrate the vast amount of information contained in this text.

Twenty percent of the book's written material is included in the excellent chapter "Partnerships and Other Group Practice Arrangements." Due to the trend toward group practices in the health professions today, all dentists should

acquaint themselves with the legal and economic advantages of entering into a group practice arrangement.

Although this text does not contain any illustrations, it does contain many sample letters, contracts, agreements and covenants.

This book is highly recommended for the dentist who is considering a group practice arrangement, and the senior dental student.

FREDERICK B. STOREY, D.D.S.

Principles of Periodontics. By John Oppie McCall. 83 pp. Philadelphia and Montreal: J. B. Lippincott Co., 1964.

This is a very brief review of the etiology and treatment of periodontal disease. Being less than 100 pages in length, it obviously is not intended as a definitive reference or text but does present the underlying principles of periodontics and their application to clinical practice. The author's approach to therapy is basically conservative and deals

very little with more recent surgical techniques.

The philosophy is developed by the author that periodontics must be the bridge used to link dentistry and medicine more closely. The language is not highly technical, which is perhaps its chief value, in that it will permit the clinician to accomplish a brief review and provide him with some terminology for use in communicating with his patients.

W. STEWART PEERY, D.D.S.

Orthodontics: Principles and Practice. By T. M. Grober. Second edition. 922 pp. 2495 illustrations on 804 figures. \$18.00. Philadelphia: W. B. Saunders Co., 1966.

This book would be of particular interest for graduate students in orthodontics and general practitioners who wish to understand more of the principles of orthodontics. It would serve as an introduction to graduate students in orthodontics.

It is not meant to be an all inclusive text on the total field of orthodontics. It is a book that is easy to read but it is for the careful reader. The book itself should be read from front to back quite carefully by those seeking to understand orthodontic principles. In some areas for example, serial extraction is introduced as a means of aiding the orthodontic situation and it is much later in the book that the pitfalls and dangers of serial extraction are elaborated upon. The author is quite careful to emphasize that the responsibility for planning an orthodontic correction should be left in the hands of the one who is going to ultimately be responsible for its correction. He tries to discuss all aspects of given situations in this text.

The book is extremely well written and the illustrations are of excellent quality and would be a fine addition to any dental library.

FAY H. CULBRETH, D.D.S.

Eighteenth National Dental Health Conference

**Chicago
April 17-18, 1967**

FRANCIS A. BUCHANAN

THIS is a report to the North Carolina Dental Society on the 18th annual National Dental Health Conference held in Chicago April 17 and 18, 1967. The Conference this year was co-sponsored by a newly created Council on Dental Care Programs. The first day was devoted to discussion of the ADA's Dental Health Program for Children and the second day Dental Prepayment was the primary topic.

There were approximately 18 speakers on the two day program. I would like to present several ideas which I feel will be of interest to our Society.

Dr. Phillip Lee, assistant secretary of the Department of Health, Education and Welfare made the keynote address stating that he felt the responsibility for the administration of the ADA Dental Health Pro-

gram for Children would rest in the dental division of the Bureau of Health Manpower of the U. S. Public Health Service. He pointed out that the Federal Government was only interested in using public funds for indigent children but would encourage voluntary prepayment for those able to pay for services rendered.

Dr. Edward B. Gernert, chairman of the Council on Dental Health, stated that the main objective of the proposed pilot studies in HR 5710 was fact-finding. Federal funds are to be provided for 75 per cent of the cost of the pilot studies. Possibly this bill, HR 5710, will come to the floor of the House of Representatives sometime in July or August.

Dr. William Brown of the Kellogg Foundation Institute stressed the importance of the hygienist in

the education of the patient relating to home care and prevention. Our own Dr. Roy Lindahl gave an excellent paper on prevention in our office practice. He stressed that we must develop a "philosophy of practice" with prevention in mind.

There was some discussion of Title XIX program in two states. Our own state must proceed carefully as regards Title XIX and has the opportunity to learn much from the mistakes of those Title XIX programs previously begun by the other states. Mr. Bernard Berkov, a union insurance consultant from San Francisco stated that labor generally likes "closed-panel clinics" and does not like deductible and co-insurance plans. Also he felt that the "usual and customary" fee basis eliminated the ability to bargain for cost and he felt that labor did not look with favor on this fee basis. This paper was quite revealing to me and without a doubt if labor continues along this line, I can see their opposition to many types of prepaid insurance and to many methods of determining dental fees under dental service corporations.

In sharp contrast, Mr. Richard Agnew stated that he felt management favored deductible and co-

insurance. He felt that if the insured would assume a portion of the cost it would be a consideration in establishing a plan under the dental service corporation.

Dr. Harvey G. Behner gave a very interesting report of a survey in Ohio revealing how dentists in that state felt about dental prepayment. Generally the survey revealed that dentists in Ohio favor some sort of prepayment (or at least those answering the survey), they like the dental service corporation, they do not like welfare programs, and they do not like paper work.

Mr. Herbert C. Lassiter, executive vice president of the National Association of Dental Service Plans stated that in the not too distant future a national claim form will be available for dental service corporations and possibly private carriers.

I detected a feeling among many of those present that with all the state and federal programs now existing and those in the planning stages perhaps we might be creating a situation in which one hand does not know what the other hand is doing. Duplication and waste may be the result. Perhaps there should be a central agency to co-ordinate the dental program.

Osteolytic Lesion of the Mandible

By Richard J. Eamich, D.D.S.

and

Edward U. Austin, D.D.S.

Dr. Eamich is Chief, Dental Service and Dr. Austin is Consulting Oral Surgeon at Veterans Administration Hospital in Salisbury, North Carolina.

ON OCTOBER 23, 1958, a forty-seven year old Negro male was admitted to the Veterans Administration Hospital, Salisbury, North Carolina. The admission diagnosis was Schizophrenic Reaction, paranoid type. The patient had no physical abnormalities. His past medical history was negative and all routine laboratory data were within normal range. He was examined in the Dental Clinic on November 10, 1958. On examination the patient appeared disorientated, but he was verbally responsive. Dental radiographs (See Fig. 1) made on that date revealed a number of missing teeth and moderate generalized alveolar bone resorption. No radiographic defects of the maxilla or mandible were noted. However, there was an impacted maxillary right third molar. The only dental treatment rendered was an oral prophylaxis because the patient refused

to consent to any other dental treatment. Repeated attempts to render dental treatment, including restorations or construction of removable partial dentures, were met with refusal by the patient.

Routine dental radiographs made on March 29, 1961 (See Fig. 2) showed an extensive radiolucent area approximating the distal and inferior to the mandibular right second molar. Anterior, posterior and lateral radiographs of the mandible were obtained. These films showed a large osteolytic lesion at the angle of the right mandible extending into the ramus (See Fig. 5). No history of removal of the mandibular right third molar was available although the left third molar was present and asymptomatic. A tentative diagnosis of cystic formation or ameloblastoma was made.

The patient was transferred to another Veterans Administration Hospital for surgical treatment of this osteolytic lesion. On arrival at that hospital, the patient again refused treatment, and his family would not consent to an operation. He was re-

Figure 1. 1958

Figure 2. 1961

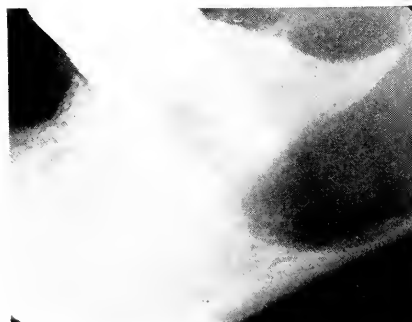

Figure 3. 1964

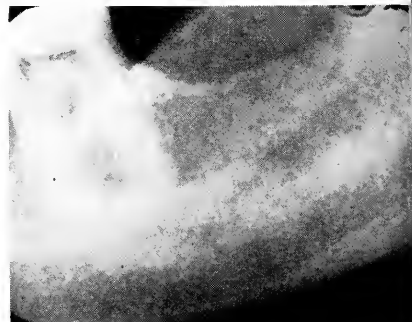

Figure 4. 1966

turned to the Veterans Administration Hospital, Salisbury, North Carolina for continuation of psychiatric therapy. With the patient and his family refusing treatment, the only course of action was periodical oral and radiographic examinations. In June, 1963 (See Fig. 6), the patient was again considered before the Tumor Board. As before, he stated he did not want surgery, and again his next of kin refused to sign an operative consent. At this time, there appeared to be some extension of the lesion. The soft tissues, orally and extra-orally, showed some swelling at the angle of the mandible. Observation was continued on a periodic basis.

During an examination in December, 1964, it was noted that there

was a draining fistula in the oral cavity approximately two centimeters distal to the mandibular right second molar along the crest of the alveolar ridge (See Fig. 7). A whitish-gray, keratotic-like tissue surrounded the aperture, and there was a yellow, serous exudate. The swelling of the buccal tissue and of the floor of the mouth had subsided to some degree. In June, 1965, the fistula and the discharging secretion were still present. The swelling had completely subsided, and radiographs gave the appearance that the cystic-like lesion was less extensive and showed new bone regeneration. In December, 1965 (See Fig. 8), there was neither swelling nor clinical inflammation present. The radiographs made in September-

Figure 5. 1961

Figure 6. 1963

Figure 7. 1964

Figure 8. 1965

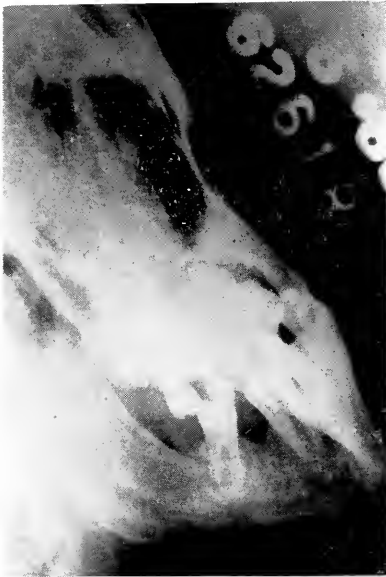

Figure 9. 1966

Figure 10. 1966

ber, 1966 (See Fig. 9 & 10) showed extensive healing of the lesion at the angle of the mandible, which appears to be filling in with normal bony trabeculae.

This is an academically interesting case because it is not often that the opportunity is present to observe an extensive bone lesion for this length of time. Generally, the lesion is either treated surgically or becomes more extensive. On last examination, in September, 1966,

this lesion was not completely obliterated, but it showed considerable regression with new bone regeneration. The patient will be followed, and subsequent developments will be reported. No definite diagnosis has been established, but, with the clinical course, the most likely possibility would be a cyst. The type of cyst is purely academic, but consideration has to be given to radicular, follicular, primordial, or traumatic bone cyst.

Fluoridation and Caries In Primary Teeth Mecklenburg County 1966

**By Luby T. Sherrill, Jr., D.D.S.
Dental Director
Mecklenburg County
Department of Health**

THE 1966 HEAD START program in Mecklenburg County has produced some new evidence as to the value of fluoridation of public water supplies. This evidence is not as well documented as we would like, but we believe that it does show appreciable protection against dental caries in the deciduous dentition.

The form devised for use in the examination of these children provided for the collection of data we would need. Place of birth and life-time residence history on each child was to be filled-in. This section was not completed in most cases. A home visit would have been required to get the information and we were not able to do this.

We cannot assume that these children are life-time residents of the community in which they are now living. Some isolated families are using private wells even though city water is available in the subdivision. Pineville, for example, has a water system supplied with water from

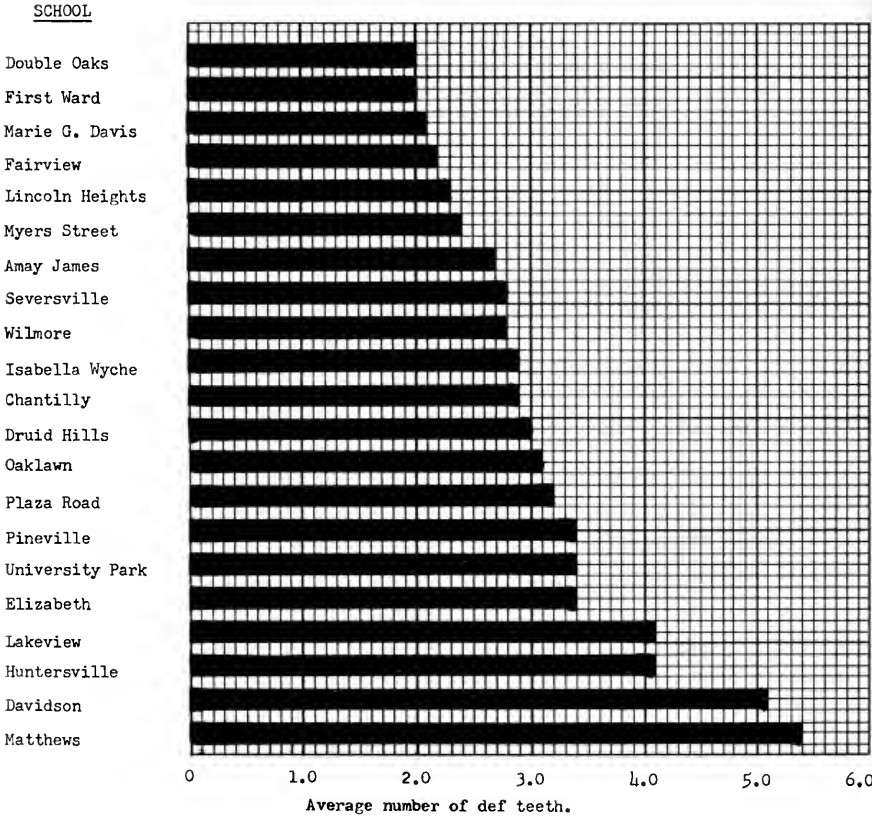

the city of Charlotte, but no doubt many of the children registered in Pineville school live outside the town limits and are not on city water. We can be reasonably sure that none of the children attending the Matthews, Huntersville, or Davidson schools have fluoridated water in their homes. Bussing of children was quite prevalent and therefore very few of the other schools can be classified for sure as being either all fluoride or all non-fluoride.

A reasonable statement would be that Matthews, Davidson, and Huntersville are predominantly if not completely non-fluoride. All others are fluoride communities with varying but an undetermined number of non-fluoride families. Another bias that must be mentioned is the fact that examinations were performed by 14 different dentists. These were private practitioners and none had been trained in public health survey methods. They were instructed to chart defects as

they would in their own offices. This would result in a higher caries rate than would have been recorded by trained examiners. In public health surveys uniformity is the goal rather than complete accuracy. Therefore, a lesion is not called carious unless it is unquestionably carious. These men, quite properly, called pit and fissures that should be restored, caries in many cases where in a public health survey they would not have been counted. When

it is necessary in a public health survey to use different dentists as examiners, examiner difference can be minimized as a biasing factor by a system of "calibration" is used. This was not done in this program. The def index used was as it is commonly used in examining children and is comparable to the better known DMF Index used in examining the permanent dentition. Lower case letters are used to indicate that it is concerned with pri-

(Primary teeth only)**

mary teeth, "d" is used to indicate a restorable carious tooth, "e" denotes a tooth that is "indicated for extraction" and "f" is a tooth that has been satisfactorily filled. The M or missing classification is not used because the examiner has no way of knowing whether a missing deciduous tooth was extracted due to caries or if it was exfoliated in a natural manner. This is not always the case but is the accepted convention in an attempt at uniformity.

These reservations do not greatly affect the def rates in so far as this study is concerned, but would make a comparison with similar data from another study invalid. What we are saying here is that since the same recording methods were used on all children, comparisons within this group are possible, but comparison with data collected elsewhere should not be considered.

With these explanations of how the data were collected, the follow-

	1,783	1,178	66	4,633	547	73	2.9

ing graph and table are presented. We feel that the story is so evident that it has validity in spite of the above limitations.

Discussion

All the different centers fit our hypothesis very nicely with the exception of Lakeview. The rate of 4.1 def teeth per child in this supposedly fluoride area is inconsistent with the other findings. We do not have an explanation at this time. A number of possible explanations present themselves. The only way to check out this apparent deviation from the expected results would be to check each of the 77 children involved to get accurate life histories as to place of residence and source of drinking water. An attempt will be made to do this as soon as possible.

There were also 694 carious permanent teeth. This gives a rate of 0.39 per child. The rate for permanent teeth is about what would be expected for a fluoride community,

remembering that a number of deep pits not actually carious were probably counted. With this small rate and for reasons stated above, no analysis of this information was attempted.

The average def for Matthews, Davidson, and Huntersville (non-fluoride areas) was 4.7. For all others, including Lakeview, the rate was 2.8. This large a difference is certainly noteworthy. In spite of the biases listed above and others that could be mentioned, we feel that this is evidence that fluoridated drinking water is most effective in preventing caries in the primary dentition.

Of the 1,783 children examined, 66 percent had one or more carious teeth. We must also point out that of 5,253 carious primary teeth among these children, only 73 had been filled. None of the 694 carious permanent teeth had been filled. A recent nationwide poll of dentists reported that 39 percent felt that dental needs were being met. What do you think?

LUBY T. SHERRILL

Coverage of Dentists' Services Under Medicare

The Law

Physicians' services are covered under the medical insurance provisions of the law (title XVIII of the Social Security Act). For purposes of medicare coverage, the term "physician" includes a doctor of dental surgery or a doctor of dental medicine who is legally authorized to practice dentistry by the State in which he performs such function but only with respect to (a) surgery related to the jaw or any structure contiguous to the jaw or (b) the reduction of any fracture of the jaw or any facial bone.

Another provision of the law (section 1862(a)) sets out the exclusions from coverage under medicare. This section, as it relates to dental services, provides that, "Notwithstanding any other provision of this title, no payment may be made under Part A or Part B for any expenses incurred for items or services . . . where such expenses are for services in connection with the care, treatment, filling, removal, or replacement of teeth or structures directly supporting teeth." (Part A refers to the hospital insurance program and Part B refers to the medical insurance program of medicare.)

Correlation Between Coverage and Exclusion Provisions

Since a dentist is, by definition, a "physician" only when he performs surgery related to the jaw or structures contiguous to the jaw (including the reduction of any fracture of the jaw or any facial bone), all such surgical procedures performed by a dentist are covered unless the procedure comes within the scope of those services specifically excluded by the statute. Any ser-

This paper explains in detail the limitation on coverage of dental services under medicare. It was prepared by the Department of Health, Education, and Welfare in co-operation with the American Dental Association and the American Society of Oral Surgeons.

vices rendered in connection with the examination, care, treatment, filling, removal, or replacement of teeth are excluded. In addition, any services rendered or procedures undertaken in connection with the examination, care or treatment of structures directly supporting the teeth are excluded.

"Structures directly supporting the teeth" means the periodontium which includes the gingivae, dento-gingival junction, periodontal membrane, cementum of the teeth, and alveolar process. However, if an otherwise noncovered procedure or service is performed by a dentist as an incident to and as an integral part of a covered procedure or service performed by him, the total service performed by the dentist on such an occasion would be covered. For example, payment would be made for the wiring of teeth when this is done in conjunction with the reduction of a jaw fracture. Too, the extraction of teeth to prepare the jaw for radiation treatments of neoplastic disease would be covered. (This is an exception to the requirement that, in order to be covered, a noncovered procedure or service performed by a dentist must be an incident to and an integral part of a covered procedure or service *performed by him*. Ordinarily, the dentist extracts the patient's teeth, but another physician, e.g., a radiologist, performs the radiation treatments.) On the other hand, when an excluded service is the primary procedure involved it would not be covered regardless of the complexity or difficulty of the procedure. For example, the extraction of an impacted tooth is not covered. Similarly, an alveoloplasty (the surgical improvement of the

shape and condition of the alveolar process) and a frenectomy are excluded from coverage when either of these procedures are performed in connection with an excluded service; e.g., the preparation of the mouth for dentures.

Payment *can* be made for a *covered* surgical procedure, as for example, the excision of a cyst or tumor of the jawbone, or reduction of a fracture of the jaw or any facial bone without regard to where the covered service is performed. Conversely, payment cannot be made for those services which are excluded by the law no matter where the excluded service is performed. Therefore, the hospitalization or nonhospitalization of a patient would have no direct bearing on the coverage of a given procedure. (Also, the coverage or exclusion of any given dental service is not affected by the professional designation of the "physician" rendering the service; i.e., an excluded service would remain excluded, and a covered service would still be covered, regardless of whether the service was furnished by a dentist or a doctor of medicine.)

Services Incidental to Covered Dental Surgery—Out of Hospital

As indicated above, payment would be made for any covered dental services furnished by a dentist in his own office. Services and supplies furnished incident to covered dental services (including the reduction of any fracture of the jaw or any facial bone) as, for example, by a dental technician or nurse who is under the direct supervision of the dentist, and which are included in the dentist's bill, are also covered. Whether or not such services as the

administration of anesthesia, diagnostic X-rays, and other related procedures are covered depends upon whether the primary procedure being performed by the dentist is itself covered. Thus, an X-ray taken in connection with the reduction of a fracture of the jaw or facial bone would be covered. However, a single X-ray or X-ray survey taken in connection with the care or treatment of teeth or the periodontium would not be covered.

Services Performed in a Hospital Setting

When a patient is hospitalized in order to undergo a dental procedure and it is determined that the dentist's service is covered under Part B, the inpatient hospital expenses incurred in connection with this hospital stay would be covered under Part A as inpatient hospital services. Since, in such a case the dentist is a "physician," he can certify (and recertify where appropriate) to the medical necessity for inpatient hospital services. Thus, for example, both the professional services of the dentist and the inpatient hospital expenses would be covered when the dentist reduces a jaw fracture of an individual who is an inpatient of a participating hospital.

When noncovered dental procedures are performed on a patient who was hospitalized *solely* for the purpose of receiving noncovered dental treatment, neither the professional services of the dentist nor the inpatient hospital services would

be covered. When a patient is hospitalized in connection with the performance of noncovered dental procedures, but the hospitalization was required in order to assure proper medical management, control, or treatment of a nondental impairment (e.g., a patient with a history of repeated heart attacks who must have all of his teeth extracted), the inpatient hospital services would be covered under the hospital insurance program even though the dentist's services are not covered. In such a case, the physician who is responsible for the treatment or management of the nondental impairment must certify to the necessity for the patient's hospitalization on the basis of the nondental impairment in order for payment to be made for the inpatient hospital services.

When hospital insurance benefits are payable in the case of a dental patient requiring medical management of a nondental impairment, all of the ancillary services furnished by the hospital such as X-rays, administration of anesthesia, use of the operating room, etc., are covered. Regardless of the coverage of inpatient hospital services under Part A, those Part B services which are furnished in connection with noncovered dental services would not be covered; e.g., the services of an anesthesiologist, radiologist, or pathologist whose services are performed in connection with the care, treatment, filling, removal, or replacement of teeth or structures directly supporting teeth.

News briefs from . . .

North Carolina

Dental Hygienists' Association

Mrs. Carolyn C. Williams of Raleigh was installed as president at the 20th annual meeting in Southern Pines May 11-13 at Mid Pines Club. Other officers for the coming year are: Mrs. Jackelyn Morris, Asheville, president-elect; Mrs. Gail McLean, Durham, vice president; Miss Betty Pemberton, Raleigh, secretary; and Mrs. Sally Rose, Charlotte, treasurer.

Registration for the three-day meeting totalled 149, the largest number to attend a state meeting. Present were 45 members, 103 students, and 1 guest.

Guest speakers included Dr. Harry Snyder, director of dental programs at Central Piedmont Community College in Charlotte, and Dr. T. George Johnson, Jr., dental director at Western Carolina Center in Morganton. Dr. Snyder talked on "The Training of a Dental Hygienist" and Dr. Johnson showed slides and discussed "Dental Care for the Handicapped Child."

At the luncheon for students a fashion show of uniforms was presented by Guilford Technical Institute students with Mrs. Lundee Amos as narrator.

Greetings from the North Carolina Dental Society were extended by Dr. J. Homer Guion, president and Dr. W. Stewart Peery, advisor to the Association.

MRS. CAROLYN C. WILLIAMS

Seventy-two hygienists will graduate from North Carolina schools this year. In May, Central Piedmont Community College in Charlotte graduated 32 and in June UNC School of Dentistry awarded certificates to 14. Wayne Technical Institute in Goldsboro will graduate 10 and in September Guilford Technical Institute in Jamestown will graduate 16.

Mrs. Margaret Cain of High Point will be a candidate for VI District Trustee when the American Dental Hygienists' Association meets in Washington, D. C., October 29 to November 2. District VI includes Alabama, Florida, Georgia, North Carolina, South Carolina, Panama, and Puerto Rico.

Four editions of the *NCDH*

Newsletter will be published during the year by Miss Jean Stines of Asheville, editor. Miss Stines will attend the Journalism Conference in Washington, D. C., October 29, sponsored by the ADHA.

A coffee hour for state board applicants will be held on Sunday, June 25 at the home of Mrs. Hope Anderson in Chapel Hill from 10:00 a.m. to 12:00 noon.

District meetings this Fall will be

held in conjunction with the District meetings of the North Carolina Dental Society as follows: District I, Grove Park Inn, Asheville, September 30-October 1; District II, White House Inn, Charlotte, September 17-19; District III, Sheraton Hotel, High Point, September 23-25; District IV, Downtowner Motor Inn, Fayetteville, October 7-9; District V, Blockade Runner, Wrightsville Beach, September 10-11.

RECOGNIZE THIS SEAL!

It means that the dental laboratory which displays it has been accredited by the Joint Commission on Accreditation of Dental Laboratories.

It means that the laboratory has voluntarily sought inspection and has met the standards set by the Joint Commission.

Campus News

THE 14TH HONORS CONVOCATION at the School of Dentistry on June 5 recognized 46 graduating dentists and 14 graduating dental hygienists.

Receiving dental degrees were: Dan M. Averett, Oxford; Charles Brantley Aycock, Durham; Robert E. Bass, Roxboro; John W. Blackman, III, Fremont; Michael E. Bost, Marion; Benjamin W. Brown, High Point; John Edward Chandler, III, Greensboro; George F. Church, North Wilkesboro; Michael L. Collins, High Point; William B. Cox, Greenville; William T. Cozart, Jr., Roxboro; Lyle E. Crumpler, Rocky Mount.

Herbert C. Davis, Jr., Lexington; Benjamin T. Ellis, Shelby; Richard B. Finger, Jr., Greenville, S. C.; Robert D. Fox, Winston-Salem; William C. Goodwin, Jr., Greenville; Thomas J. Head, Jr., Wilmington; Sarvis Joel Hedgecoe, Tabor City; Hermon K. Herrin, Jr., Gastonia; Max R. Hiatt, Mount Airy; Barrett McK. Hunter, Winston-Salem; Luther Hill Hutchens, Jr., Winston-Salem; Percy Wells Jessup, Jr., Elizabethtown.

Charles W. McCall, Jr., Tryon; Michael T. McKee, Kings Mountain; Ronnie H. Miller, Spencer; Carl B. Moore, Mount Holly; Jerry E. Patterson, Kings Mountain; Phillip S. Perdue, Louisburg; Riley C. Pleasants, Jr., Raleigh; Bobby C. Raynor, Chiquapin; Irvin A. Roseman, Jacksonville; Jerry H. Rosenbaum, West Orange, N. J.; William J. Sherwood, Jr., Chapel Hill; Gene M. Shuford, Lincolnton.

McDuffy B. Skeen, Biscoe; James B. Slack, Pantego; Charles D. Stroud, Ellenboro; Phillip G. Tesh, Kannapolis; James C. Thompson, Hillsborough; Pendleton G. Waldron, Greensboro; John D. Ward, Nakina; Raymond B. Warren, Kernersville; John F. White, Jr., Enfield; and Pinkney B. Young, III, Washington.

Completing work for the bachelor of science degree in dental hygiene were Susan S. Brownstein, Chapel Hill and Jane S. Caulkins, Charlotte.

Earning certificates in dental hygiene were: Taska La-Rue Almond, New London; Jane C. Davis, Durham; Miranda Y. Franks, Greensboro; Margaret Sue Harris, Apex; Bessie Jim Hinson, Goldsboro; Donna Marie Jones, Durham; Patricia Ann Morris, New Bern; Carol Anne Pierce, Charlotte; Marcia Lynne Ray, Winston-Salem; Barbara Ann Rhodes, Mebane; Mary C. West, Raleigh; Ruth D. White, Enfield.

THE FIRST PROGRAM IN THE U. S. leading to a degree in dental assistant teacher education will be established at the University of North Carolina here under a contract with the U. S. Public Health Service.

The program also will include a similar course of study for dental hygienists interested in teaching careers.

The federally supported, six-year training project has a tentative total budget of about \$350,000. Funds for the first year have been approved in the amount of \$20,354.

Dr. Benjamin R. Baker in charge of the program, said the first year will be spent developing the curriculum and course materials.

Training will be provided jointly by the UNC School of Dentistry and the UNC School of Education in co-operation with Central Piedmont Community College in Charlotte. Classroom work will be conducted on the UNC campus and 12 weeks of practice teaching will be conducted in Charlotte.

While national in scope, the new degree program will help solve the critical need for teachers of dental assisting and dental hygiene in North Carolina's five community colleges and vocational schools which offer dental auxiliary training programs.

Plans are to admit the first students for the bachelor's and master's degree programs in September, 1968. The new program is expected to attract certified dental assistants and dental hygienists and others interested in teaching careers in dental auxiliary education.

TWENTY GIRLS WERE CAPPED and received certificates in dental assisting from UNC School of Dentistry on May 26. They were: Ann Broadway, Mary Sue Clark, Dorothy A. Foley, Lynne Navin, Vicki A. Oakley, Chapel Hill; Kathy Bullock, Williamston; Laura G. Earp, Martha Phillips, Durham; Linda L. Finch, Greenville; Brenda Faye Goodwin, Fuquay; Beckie S. Hinson, Wadesboro; Dianne Jackson, Sumter, S. C.; Hilda L. Moore, Willow Springs; Sharon A. Page, Fayetteville; Dana Patterson, Butner; Barbara A. Smith, Vienna, Va.; Kaye Stokes, Lexington; Linda Lee Taylor, Elm City; Ann Marie Thomas, Charlotte; and Gipsie L. Warren, Reidsville.

CAMELIA MOSELEY OF GREENVILLE was selected to receive a \$200 scholarship in dental assisting sponsored by the Fifth District Auxiliary. She began her studies at UNC in July with a class of dental assistants whose training program continues through next May. She is the daughter of Mr. and Mrs. Robert F. Moseley of Greenville and is a 1967 graduate of Junius H. Rose High School.

A \$3.5 MILLION GRANT for dental research has been awarded to the new Dental Research Center in Chapel Hill which will permit expansion of the nucleus of highly qualified research personnel already in residence.

UNC School of Dentistry is one of 5 institutions selected to receive such a grant to encourage the development of research and training cen-

ters on a broad interdisciplinary base designed to bring all university resources of clinical, basic, and life sciences together.

THE NEW DENTAL RESEARCH CENTER will be dedicated on October 15 at 2:00 p.m. Speakers will be Dr. John C. Brauer, former dean, and Dr. Seymour Kreshover, director, National Institute of Dental Research. An open house will follow the dedication ceremony.

TEACHING TRAINING FELLOWSHIPS have been awarded by the American Fund for Dental Education to Dr. H. Wayne Mohorn of Chapel Hill and Dr. George E. Lyman of Loma Linda, California. Dr. Mohorn will study endodontics at the University of Michigan School of Dentistry and Dr. Lyman will study pedodontics at the UNC School of Dentistry.

DR. F. A. BUCHANAN was among the twenty-seven members of the University of North Carolina Board of Trustees recently elected by the General Assembly for a term of eight years.

This is Dr. Buchanan's second term as a U.N.C. Trustee. He previously served on the Board from 1957 to 1965.

IN VIETNAM

Lt. Darden J. Eure, Jr., a 1965 UNC Graduate, has been stationed in Vietnam since September, 1966. He is currently attached to the Marine Corps at Chu Lai. He is shown here (lower left) with his staff in front of the dental clinic which he designed and had built under his supervision and aptly called "The Home of the Wing's Finest Drill Team."

Lieutenant Eure is the son of Dr. and Mrs. Darden J. Eure of More-

head City and is a member of the Fifth District Dental Society.

First District Dental Society

Max W. Carpenter
President

First Returns to Grove Park

IT IS MY PLEASURE to welcome all members of the First District Dental Society and members of the other districts of the North Carolina Dental Society back to Grove Park Inn, Asheville, for our 46th annual meeting, September 30 through October 2, 1967.

This meeting promises to be a very good one, highlighted by one of the best clinicians today on restorative dentistry in the United States—Dr. Peter E. Dawson from St. Petersburg, Florida. Our thanks go to Dr. Cecil Pless, Jr., for getting this man for our program. Dr. W. A. Davis has also arranged for some very fine table clinics. Dr. Hugh Cole has been hard at work to make sure all local arrangements are complete.

You are urged to make reservations early at the Grove Park Inn so that you can get the rooms you desire. Be sure to come and enjoy the fine Fall weather, fun and hospitality.

FIRST DISTRICT

Program

GROVE PARK INN, ASHEVILLE

SEPTEMBER 30-OCTOBER 2, 1967

Saturday, September 30

4:00	Executive Committee Meeting
4:00- 6:00	Registration
6:00- 7:30	Cocktail Party
7:30- 8:30	Dinner
9:00-12:00	Dance

Sunday, October 1

8:00-10:00	Golf Tournament
3:30- 6:00	Registration
4:00- 5:30	Table Clinics
5:30- 6:30	Official Reception
6:30- 8:30	Buffet Dinner
8:30-10:30	Business Meeting

Monday, October 2

7:30- 8:30	Breakfast for New Members

2:30	Final Business Session Installation of New Officers Golf Awards Adjournment

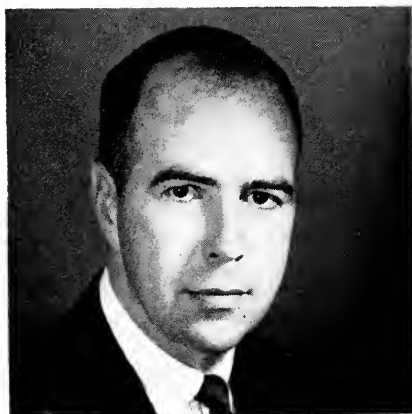

Table Clinics

Sunday, October 1

4:00-5:30 p.m.

1. Tongue Thrust-Correction, John L. Thompson, Jr., Shelby.
2. Porcelain Jacket for Non-vital Teeth, Robert B. Litton, Shelby.
3. Crown and Bridge Technique, Harold E. Plaster, Shelby.
4. Horizontal Pin Splint, Robert H. Owen, Jr., Asheville.
5. Impression Technique, Richard K. Bowling, Hendersonville.
6. Simple Office Procedure, William S. Prevost, Jr., Waynesville.
7. Pin-Retention in Restorative Dentistry, M. V. Massey, Brevard.
8. Endodontia Following Traumatic Injury, Gary F. Daniel, Asheville.

Essayist

Peter E. Dawson, D.D.S.
St. Petersburg, Florida

Dr. Dawson was the recipient of the Thomas P. Hinman Medallion award in 1964 for leadership in dental progress. A graduate of Emory University School of Dentistry, he has lectured extensively throughout the country and has taught postgraduate courses in many dental schools.

Monday, October 2

9:00 a.m. to 12:30 p.m.

THE CONCEPT OF COMPLETE DENTISTRY

Discussion with color slides will include a philosophy of treatment and the comparison of many techniques as they relate to principles. In other words, the "how" will be correlated with the "why." Included will be such topics as full coverage, splinting, periodontal aspects of restorative dentistry, pin retention, both parallel and non-parallel vertical and horizontal techniques.

Second District Dental Society

J. Harry Spillman
President

Third Annual Tar Heel Dental Seminar

ON SEPTEMBER 17, 18, AND 19, we will hold our Third Annual Tar Heel Dental Seminar at the White House Inn, in Charlotte.

We believe we have a program that will appeal to all the members, and each of us can learn something that we can take back to the office.

A full social program has been planned also, and there will be a full schedule of activities for the ladies.

Sometime in early August a complete program and the pre-registration forms will be sent to all the members of the North Carolina Dental Society.

I would like to extend an invitation to all of you to be with us in Charlotte.

Projected Clinics

Sunday, September 17

2:00-3:30 p.m.

- 1. Anterior Filling Materials**, C. L. Sockwell, Chapel Hill.
- 2. Pedodontics**, Frank H. Daniel, Winston-Salem.
- 3. Periodontia in North Carolina Five to Ten Years in the Future**, Paul M. Cummings, Jr., Winston-Salem.
- 4. Patient Education in Full Denture Construction**, Keith L. Bentley, North Wilkesboro.

Program

WHITE HOUSE INN, CHARLOTTE
SEPTEMBER 17-19, 1967

Sunday, September 17

12:00	Registration
2:00- 3:30	Projected Clinics
3:30- 5:00	Table Clinics
6:00- 7:00	Social Hour
7:00- 9:00	Banquet
9:00-12:00	Dance

Monday, September 18

8:30	Registration
9:00-10:30	Dr. Archer
10:30-10:45	Coffee Break
10:45-12:15	Dr. Schweitzer
12:15- 2:00	Lunch
2:00- 3:30	Dr. Archer
3:30- 3:45	Coffee Break
3:45- 5:15	Dr. Schweitzer
8:00-10:00	Business Session

Tuesday, September 19

8:00- 9:00	New Members Breakfast
9:00-10:15	Dr. Schweitzer
10:15-10:30	Coffee Break
10:30-11:45	Dr. Archer
11:45-12:30	Question and Answer Period
12:30	Business Session and Adjournment

Table Clinics

- Sunday, September 17** **3:30-5:00 p.m.**
- 1. Aids to More Retentive and Stable Full Dentures**, Bernard Wilkie, Charlotte.
 - 2. Electrosurgery**, Ervin M. Funderburk, Charlotte.
 - 3. The Functionally Generated Path**, James E. Graham, Jr., Charlotte.
 - 4. The Pulpotomy in Primary Teeth**, Robert W. Clinard and Robert M. Wilkinson, Winston-Salem.
 - 5. Pin Techniques for Crowns**, Amalgam and Plastic Restorations, James A. Harrell and Eldon H. Parks, Elkin.

Essayists

JEROME M. SCHWEITZER, D.D.S.

New York, New York

Dr. Schweitzer is clinical professor of denture prosthetics at New York University College of Dentistry Graduate School. He is guest lecturer in prosthodontics at Columbia University School of Dental and Oral Surgery and the University of Pennsylvania Graduate School of Medicine.

Monday, September 18

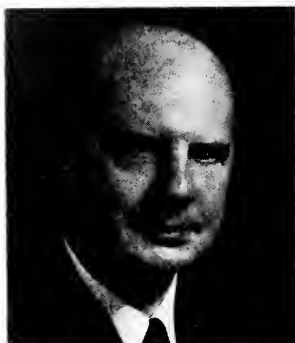

10:45 a.m. and 3:45 p.m.

Tuesday, September 19

9:00 a.m.

RESTORATIVE DENTISTRY, A PRACTICAL APPROACH

Restorative dentistry lends itself to a discussion of endodontia, oral surgery, periodontia, orthodontia and allied subjects. These areas will be considered as well as an evaluation of newer methods of retaining natural teeth to stabilize removable dentures.

W. HARRY ARCHER, D.D.S.

Pittsburgh, Pennsylvania

Dr. Archer is professor of oral surgery and anesthesia, and chairman of the department of oral surgery at the University of Pittsburgh School of Dentistry.

Monday, September 18

9:00 a.m. and 2:00 p.m.

Tuesday, September 19

10:30 a.m.

ORAL SURGERY FOR THE GENERAL PRACTITIONER

This lecture will cover a review of the examination, diagnosis, treatment planning, and current techniques for extraction of teeth. Special emphasis will be placed on oral, face, and neck infections, and oral surgery for dental prosthesis.

Third District Dental Society

Charles W. Horton
President

Work, Study, and Play In High Point

IN KEEPING with the Third District's past record of offering well balanced social-scientific programs, the 1967 meeting will be cast in the same mold with the theme "Dentist-Patient, Dentist-Auxiliary, and Profession-Public Relations."

Dr. Harry M. Klenda, first vice president, American Dental Association will be the speaker for the scientific sessions. He is a dynamic and interesting clinician.

On Saturday afternoon tours of Alderman Studios and Hatteras Boat Works will be conducted.

Alderman Studios is the largest commercial photographic company in the world of home furnishings and associated products. Both men and women will find this tour interesting.

The Hatteras Boat Works is the world's foremost manufacturer of yachts with molded fiber glass hulls. Incidentally, if you would care to make a purchase, you may expect to pay from \$35,000 up.

Saturday evening a buffet and play at the dinner theater will round out the day.

On Sunday there will be a golf tournament. For those not athletically inclined, a tour of the Dental Hygiene School at Guilford Technical Institute will be arranged.

A social hour and banquet is scheduled for Sunday evening with one of the great speakers in the United States today—Dr. Thomas Stephen Haggai. You will find his message entertaining as well as inspirational.

On Monday there will be a fine array of table clinics, and of course our clinician, Dr. Klenda.

Your arrangements committee and officers have been working hard to make this an excellent meeting. I urge you to come for the entire meeting. You will find High Point and its people most cordial.

I extend a special invitation to the officers and members of the North Carolina Dental Society and their wives, and the officers and wives of the District Societies to join us in High Point.

Come and work with us. Come and study with us. Come and play with us.

Table Clinics

Monday, September 25

9:00-10:15 a.m.

1. **Emergencies in the Dental Office**, Jerry Partrick and Tom Williams, Duke University Medical Center.
2. **Reparative-Restorative Dentistry**, Baxter B. Sapp, Jr., Duke University Medical Center.
3. **The Importance of Profile in Serial Extraction**, W. Robert Wentz, Durham.
4. **Topical Fluorides**, T. R. Oldenburg, UNC School of Dentistry.
5. **Oral Cytology for the General Practitioner**, J. U. Newman, III, Burlington.
6. **Preventive Dentistry-Total Patient Care**, Alston J. McCaslin, Senior dental student, UNC School of Dentistry.
7. **Lower Denture Retention**, Division of Orthodontics, Duke University Medical Center.
8. **Temporo-mandibular Joint Problems, Exhibit, Facial Anomalies and Treatment**, Duke University Medical Center, Division of Orthodontics, Galen W. Quinn, Duke University Medical Center, and Wallace D. Abbey, Jr., Department of Orthodontics, UNC School of Dentistry.
9. **A New Finish for Gold**, Charles A. Reap, Jr., Chapel Hill.

Program

**SHERATON HOTEL, HIGH POINT
SEPTEMBER 23-25, 1967**

Saturday, September 23

- 12:00- 6:00** Registration
1:00 Tour of Hatteras Yacht Company
3:00 Tour of Alderman's Studio
6:30 Leave for Showboat
7:00 SHOWBOAT: "Barefoot in the Park"

Sunday, September 24

- 9:00-10:30** Golf Tournament—Blair Park
10:00 Guilford Technical Institute: School of Dental Hygiene
1:00- 6:00 Registration
5:30- 6:30 Social Hour (Courtesy of Powers & Anderson, Thompson,
and Walker-Sizer Dental Companies)
7:00 Banquet
Speaker: Dr. Thomas S. Haggai
8:30 Opening Session
President's Address
Report of Secretary-Treasurer
Committee Reports
Reading of Changes in Constitution and Bylaws
Election of Officers
Election of Candidates for Membership

Monday, September 25

- 7:30** Breakfast for New Members
8:00- 1:00 Registration
9:00-10:15 Table Clinics and Projected Clinics
10:30 "Selecting-Compensating-Training Auxiliary Personnel"
"Practice Administration Objectives"
Dr. Harry Klenda, Wichita, Kansas
12:30 Business Luncheon
Committee Reports
Report on President's Address
Old and New Business
Charge to New Members
2:00 "Factors to be Considered in Establishing Dental Fees"
Dr. Harry Klenda, Wichita, Kansas
4:00 Final Business Session
Installation of Officers
Awarding of Prizes (Courtesy of High Point Dental
Society)

THIRD DISTRICT

Essayist

**Harry M. Klenda, D.D.S.
Wichita, Kansas**

Dr. Klenda is a graduate of Chicago College of Dental Surgery. He is first vice president of the American Dental Association and a past president of Kansas State Dental Association, Wichita Dental Society, Seventh District Dental Society and the American Academy of Dental Practice Administration.

Monday, September 25

10:30 a.m.

**SELECTING—COMPENSATING—TRAINING—AUXILIARY
PERSONNEL**

PRACTICE ADMINISTRATION OBJECTIVES

In his lecture Dr. Klenda will cover optimum dental health, preventive dentistry, case presentation, and conservation of the dentist.

Monday, September 25

2:00 p.m.

FACTORS TO BE CONSIDERED IN ESTABLISHING DENTAL FEES

This will be a "how to do it" presentation and Dr. Klenda will discuss what constitutes a dental fee and factors involved in determination of a fee for specific procedures.

Fourth District Dental Society

Joseph M. Johnson
President

Three Day Meeting Planned

OCTOBER will soon be here and the Fourth District is looking forward to another wonderful meeting in Fayetteville.

We hope that you will plan to be with us for three days of informative programs and enjoyable social activities at the Downtowner Motor Inn.

Our local arrangements chairman, Dr. Fred Hasty, and Mrs. Carol Talley, president of the Fourth District Dental Auxiliary, and their committees have made plans for this to be an exceptional meeting.

Dr. Penn Marshall, our program chairman, has arranged for Dr. Roderick Lister of Denver, Colorado to be our principal clinician. I have had the opportunity of hearing Dr. Lister on two separate occasions and have found him to give clinics that were both interesting and practical. These clinics give you knowledge that you can take home and use in your own practice.

We would like to invite each and every member of our district to attend the meeting. We would also like to extend a cordial invitation to all members of the North Carolina Dental Society to come to Fayetteville and bring their wives.

Remember the dates are Saturday, October 7 through Monday, October 9.

FOURTH DISTRICT

Program

DOWNTOWNER MOTOR INN, FAYETTEVILLE

OCTOBER 7-9, 1967

Saturday, October 7

- 9:00-1100** Optional Golf
10:30 Clinic Committee Meeting
3:00- 6:00 Registration
4:00 Executive Committee Meeting
6:30 Social Hour
Dr. R. L. Holzbach, Chairman
7:30 Banquet
9:00 Dance—Roy Roach Orchestra
Dr. Mitchell W. Wallace, Chairman

Sunday, October 8

- 8:00** New Member Breakfast
Dr. James H. Edwards, Chairman
9:00-11:00 Golf Tournament—Highland Country Club
Dr. W. J. Wiggs, Chairman
11:00 The Churches of Fayetteville Welcome You
4:00- 5:30 Table Clinics
Dr. Robert H. Gainey, Chairman
6:00 Social Hour
7:00 Buffet
7:30 Golf Prizes
8:00 First General Session

Monday, October 9

- 8:30** Dr. Roderick L. Lister, Denver, Colorado
12:00 Lunch
1:30 Dr. Roderick L. Lister, Denver, Colorado
3:30 Second General Session

Adjournment

Essayist

RODERICK L. LISTER, D.D.S.

Denver, Colorado

D.D.S.—University of Minnesota—1947; General Hospital, Denver, Colorado Staff; Duty assignments Schofield Barracks, T. H.; Tripler General Hospital, Hawaii; Walter Reed General Hospital; 97th General Hospital, Frankfurt, Germany; Madigan General Hospital, Tacoma, Washington; Instructor, University of Washington College of Dentistry; Director, Oral Surgery Service, Walter Reed General Hospital; Member American Board of Oral Surgeons, Psi Omega Fraternity.

Monday, October 9

8:30 a.m. and 1:30 p.m.

EVERYDAY PROBLEMS OF THE GENERAL PRACTITIONER IN EXODONTIA

Dr. Lister will cover most of the significant problems encountered by the general practitioner, such as: medical complications; importance of preoperative roentgenographic and clinical evaluation of the proposed extraction; postoperative complications such as bleeding, painful socket, infection, hematoma, hypoesthesia of the lip, etc.

Table Clinics

Sunday, October 8

4:00-5:30 p.m.

- 1. Management of Impacted Cuspids**, Vonnie B. Smith and Benny W. Martin, Raleigh.
- 2. Technique for Single Crown Impression and Bite Restoration**, Thomas H. Fetzer, Raleigh.
- 3. The Advantages of Patient Education as Presented by Dental Hygienists**, Mrs. Terri Wooten, and Mrs. Hazel Stofflefield, Raleigh.
- 4. Maxilla Denture Reline Technique**, Norman B. Grantham, Jr., Smithfield.
- 5. Extraction Problems**, Frederick G. Hasty, Fayetteville.
- 6. Management of Dry Sockets**, Frank B. McGrath, Jr., Lumberton.
- 7. Two Clinics from Wayne Technical Institute**, Goldsboro.
- 8. Closure of Oral Antral Fistula**, W. Robert Caviness, Fayetteville.
- 9. Front Office Efficiency, Recalls, Collections, Appointments**, W. C. Keith, Elizabethtown.

Fifth District Dental Society

Z. L. Edwards, Jr.
President

Object: Improved Communications

THE FIFTH DISTRICT is again meeting at the Blockade Runner on Wrightsville Beach. "Henry" Aldridge has secured an interesting program on crown and bridge procedures. Dr. G. L. D. Burnett of Rochester, New York is the clinician. Although a newcomer to the speaking circuit, he comes highly recommended. Don Henson's advice on the Keogh plan is worth the trip alone. We throw in more excellent table clinics in case your interests are elsewhere.

You are aware of the many other attractions such as fishing, golf, surfing, and sailing. And for you brown baggers there may be still more attractions.

Lack of communication between different segments of our dental world is one of our biggest problems. Informal discussions at the district meetings can improve these channels of communication. Bring your gripes to the meeting and let's try to iron them out. Bring your brides also. Send in your reservation early and select whether you want to be on the sound side or the ocean side.

Program

**BLOCKADE RUNNER MOTOR HOTEL, WRIGHTSVILLE BEACH
SEPTEMBER 10-11, 1967**

Sunday, September 10

1:00 Registration

3:00 Table Clinics

6:00 Social Hour

7:00 Banquet

Master of Ceremonies—Dr. M. W. Aldridge

Address of Welcome—Luther T. Rogers, Mayor, Wrightsville
Beach

Response to Welcome—Dr. J. M. Zealy

Introduction of Guests—Dr. James E. Furr

8:30 General Session

Invocation

Necrology Service, Dr. David H. Freshwater, Presiding

Minutes of Last Meeting and Secretary-Treasurer's Report

President's Address—Dr. Z. L. Edwards, Jr.

Presentation of New Members—Dr. Richard F. Hunt, Jr.

Nominating Committee Report—Dr. James H. Lee

Election of Officers

Monday, September 11

8:00 New Members Breakfast

8:00 Registration

9:00 Dr. G. L. D. Burnett, Rochester, New York

12:00 Lunch

1:00 Dr. G. L. D. Burnett, Rochester, New York

3:00 Final Business Session

Report on President's Address

New Business

Installation of New Officers

Table Clinics

Sunday, September 10

3:00 p.m.

1. Keogh Plans, Donald L. Henson, Kinston.

2. Pin Amalgams, William E. Kidd, Washington and Junius H. Rose, Jr.,
Kinston.

3. Control of Hemorrhage, Richard F. Hunt, Jr., Rocky Mount.

4. Orthodontics, Eastern North Carolina Orthodontic Study Group.

FIFTH DISTRICT

Essayist

G. L. D. Burnett, D.D.S.
Rochester, New York

Dr. Burnett is a native Virginian from Lynchburg. He is a graduate of the University of Rochester and received his dental degree from the Medical College of Virginia and returned to Rochester to practice. A continuous student, with a deep interest in elevating the cause of dentistry, he has presented clinics and seminars to state, district, and local dental societies.

Monday, September 11

9:00 a.m. and 1:00 p.m.

PRACTICAL PROCEDURES IN CROWN AND BRIDGE PRACTICE

Dr. Burnett will cover the following topics: rationale of procedures; pre-medication; an armamentarium for crown and bridge; tooth preparation; tissue retraction and subsequent care; a versatile impression technique; treatment (temporary) crowns and other protection; occlusion—obtaining centric relation—T. M. J. problems—functional bite techniques; incisal guidance; esthetics and materials; use of pins—threaded and self-shearing—for retention and resistance; cementation; patient relations; drugs and psychology; establishing values—your office—your patients—yourself—your family—your country.

General News

Group Retirement Program

A group retirement program for members of the Society has been selected by the Insurance Committee and approved by the Executive Committee.

Financial Service Corporation of America will implement the plan. A North Carolina bank will be appointed to serve as trustee of the retirement fund, and members will be able to elect to participate, either under the provisions of the Keogh Plan or as a voluntary investment program.

The Fidelity Group of Mutual Funds will be the primary vehicle for the trust to provide a broad range of investment objectives.

Continental American Life Insurance Company will be the primary insurance carrier.

As soon as Internal Revenue Service has approved the plan as qualified under the Keogh Act, it will become available to the members.

In commenting on the plan, Dr. J. S. D. Nelson, chairman of the Insurance Committee, said: "Financial Service Corporation of America is an Atlanta based firm with branch offices throughout North Carolina. They have a highly qualified Financial Planning Committee

which includes members with accounting, legal, investment, insurance, and retirement planning experience. They have assigned over 20 full-time qualified sales representatives throughout North Carolina to serve you. The plan we have adopted is extremely flexible. It allows a broad latitude for each participant to create the most effective retirement vehicle that best suits his individual objectives."

New Central Office

The Central Office now occupies brand new offices in Raleigh at the corner of East Peace and North Blount streets, four blocks north of the Governor's Mansion and the Legislative Building and one block east of Peace College.

The new quarters include offices for the executive secretary and staff, a conference room, work room, and filing area. Decorated in walnut paneling and wainscoting, they occupy 1,300 square feet in a new brick building of colonial design. Ample parking facilities adjoin the building.

Before relocating on May 26, the Central Office occupied space at 405 West Peace Street for almost 12 years.

The mailing address of the Cen-

tral office remains the same—P.O. Box 11065, Raleigh, N. C. 27604. For the time being the telephone number will not be changed. It is still 832-6746 (Area Code 919).

The officers and staff cordially invite members to visit their new Central Office at their first opportunity. Office hours are from 8:30 a.m. to 4:30 p.m. Monday through Friday.

Hygiene Program Approved

The two-year dental hygiene program at Central Piedmont Community College in Charlotte has been accredited by the Council on Dental Education of the American Dental Association. College officials were notified of the accreditation by telegram on May 26. It was the result of a visit by representatives of the Council on Dental Education earlier in the year.

Dr. Harry G. Snyder, director of the college's dental programs said that the accreditation means that graduates of the hygiene courses will be eligible to take examination for licensure by the State Board of Dental Examiners and also to enter an educational program which will lead to a baccalaureate degree in this field.

There are currently three dental hygiene training programs in operation in community colleges in North Carolina. The other two are at Wayne Technical Institute at Goldsboro and Guilford Technical Institute at Jamestown. Accreditation status of the Wayne and Guilford programs has not yet been determined, although both sites have been visited by representatives of the Council on Dental Education.

General Assembly Adjourns—Finally

After setting a record of 143 calendar days in session the 1967 General Assembly adjourned on July 6. Since it convened in February, the legislators were preoccupied with brown-bagging, re-districting, and regional universities but bills affecting dentistry were ratified, including three which were sponsored by the State Board of Dental Examiners and endorsed by the Society's Executive Committee.

H.B. 418 and H.B. 419 provide that all proceedings relative to revocation or suspension of license to practice dentistry and refusal to issue or renew license be in accordance with the Uniform Revocation of License Act (G.S. 150).

H.B. 420 provides that G.S. 150 also applies to licensing of dental hygienists and sets a maximum fee of \$25 for renewal of license to practice dental hygiene.

The General Assembly also ratified legislation which abolishes automatic exemptions from jury duty. Effective January 1, 1968, existing exemptions for more than 20 professions, including physicians, dentists, national guardsmen and various other "emergency service" groups will be eliminated. The new law sets up a unique "excuse procedure" in which a selected juror must appear before a judge and plead his reason for being excused from jury duty. Guidelines for a judge to follow in excusing jurors are based on personal hardship, public health, or safety. In the public interest physicians and dentists offered no opposition to the legislation.

A bill to provide for the incor-

poration of a non-profit dental service corporation in this State also was approved by the General Assembly. When the Corporation Law (G.S. 55) was re-written in 1957, provision for incorporation of non-profit medical, hospital, or dental service corporations was inadvertently omitted.

"Remote Areas"

No longer will the Department of Defense refer to military installations where dental care is furnished military dependents as "remote areas" but as "authorized routine dental care . . . at stations where adequate civilian facilities are unavailable."

This change is prompted not by any abandonment of the "remote area" concept, but by P.L. 89-614 (Military Medical Benefits Amendments of 1966) which discontinued use of the term "remote areas."

Dependents are not authorized routine dental care at uniformed services facilities in the United States, except at stations where adequate civilian facilities are not available. Normally, a station will not be so designated unless it is more than 30 miles from a community with adequate civilian dental facilities. Consideration is given to unusual geographic and transportation factors which would unreasonably increase the time and expense of travel.

A community's dental facilities ordinarily will not be considered adequate unless an average of one civilian dentist is in civilian practice per 2,000 population. It is the responsibility of a local military commander to request designation

of a station to provide routine dental care to dependents when he believes justification exists. He must include in his request a statement from the state dental society on its position concerning the designation of the station to provide routine care to dependents.

Four military installations in North Carolina have been authorized to provide routine dental care to dependents. They are: Fort Bragg, U. S. Naval Facility at Buxton on Cape Hatteras, Pope Air Force Base, and Seymour-Johnson Air Force Base.

Wilson Dentist Joins Squadron

Dr. Charles S. Cooke of Wilson has been awarded a membership certificate in the Raleigh Power Squadron, a part of the 60,000-member United States Power Squadrons which conduct classes in free piloting each year. The piloting class graduates become eligible for membership in the squadron.

Graduate members instruct the classes in piloting, seamanship, advanced piloting, navigation, marine electronics, engine maintenance, sail, weather, and instructor training.

District 27 Commander James H. Pou Bailey awarded the certificate to Dr. Cooke.

Chapel Hill Dentist Elected

Dr. Grover C. Hunter, Jr., of the UNC School of Dentistry faculty was named president-elect of the Southern Academy of Periodontology at its 47th annual meeting in Greensboro June 12-13. The academy also

installed Dr. Marvin Sugarman of Atlanta president. He succeeds Dr. James B. Howell of Greensboro.

Approximately 165 periodontists attended the two-day meeting which featured Dr. Sigurd Ramfjord and Dr. Major M. Ash, both of the University of Michigan, as speakers.

Art Exhibit By Dentist

In June an exhibit of paintings by Dr. Richard M. Fields of Pleasant Garden was on display at Guilford Technical Institute in Jamestown. Dr. Fields has been dabbling in art since he was 12 years old and his work has appeared in New Orleans, Memphis, Japan and Greensboro Public Library.

He describes his work as impressionistic, "putting a little of my own feeling in what I do."

77 Dentists Licensed

Seventy-seven dentists and 48 dental hygienists were licensed to practice in North Carolina by the State Board of Dental Examiners as a result of examinations given the week of June 24. Announcement of the licensees was made by the Board on July 9.

According to the Board there were 87 candidates for licensure as dentists and 51 candidates for licensure as dental hygienists.

Licensed to practice dentistry were: Alton G. Anderson, Hendersonville; Charles B. Aycock, Charlotte; Dan M. Averett, Oxford; Robert E. Bass, High Point; John W. Blackman, III, Fremont; Horace D. Blanton, Lenoir City, Tennessee; Michael E. Bost, Chapel Hill; James A. Brown, Charlotte; Benjamin W. Brown, High Point; Bernard A. Brown, Raleigh; Michael B. Buckland, Chapel Hill; John E. Chandler, III, Greensboro; George F. Church, Millers Creek; Michael L. Collins, Greensboro; Richard M. Courtney, Chapel Hill; William B. Cox, Greenville; William T. Cozart, Jr., Carrboro; Edward L. Cranford, Asheboro; Lyle E. Crumpler, Charlotte; Herbert C. Davis, Jr., Chapel Hill; John G. Edwards, Chapel Hill; Thomas D. Edwards, Montgomery, Alabama; Benjamin T. Ellis, Grover; Richard B. Finger, Greenville, South Carolina; John T. Fox, Selma; Robert D. Fox, Winston-Salem; Charles J. Goodwin, Jacksonville.

Now...one posterior tooth design

akes the place
of all these!

There are no contra-indications for the use of
Swissdent's new Centrimatic posterior teeth.

Centrimatic teeth and compare
with any other tooth you've ever
seen. You'll find Centrimatic teeth pro-
vide better results, without changing
your present office procedure.

Swissdent laboratories listed be-
cause they are expert in the use of Centrimatic
teeth. They will be happy to assist you
with your denture problems. Give one
of them a call on your next case. And
use the coupon for stone models of
finished Centrimatic dentures, along
with full information on Swissdent's
Centrimatic tooth design.

Swissdent Corporation
P.O. Box 60054, Terminal Annex
Los Angeles, California 90054

Please send me, at no charge, stone models and
complete information about Centrimatic teeth.

You should carry two, too...

You need *both* formulas of Carbocaine, to give you a choice of longer or shorter duration of local anesthesia. Take this young patient, for example. To prepare a cavity, extract a tooth, or whatever is indicated, in most cases the procedure will not take more than half an hour. Particularly with modern high-speed methods in operative procedures.

Carbocaine HCl 3% without vasoconstrictor

offers unsurpassed depth of anesthesia, of shorter duration to minimize the chance of biting a numb lip or cheek after the patient leaves the chair. *Operating anesthesia* averages 20 minutes upper, 40 minutes lower.

And in longer procedures...

Carbocaine HCl 2% with Neo-Cobefrin® (brand of levo-nordefrin) 1:20,000

gives the same superb depth of anesthesia, but extends its duration. Even the most complicated procedures rarely require reinjection.

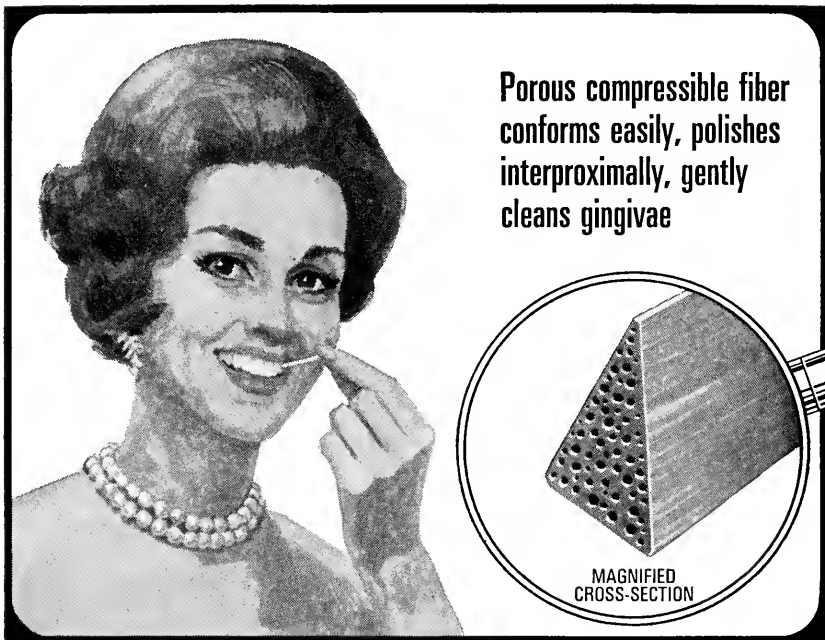

FOR YOUR INFORMATION: These local anesthetic solutions are for dental block and infiltration injections only. There are no known contraindications in dentistry except for patients known to be sensitized. Inject slowly and avoid intravascular injection by aspirating. As with all local anesthetic solutions, adverse reactions due to intolerance, overdosage, or intravascular injection may occur and include nausea and vomiting, hypotension, convulsions and respiratory depression. Such reactions occur infrequently and usually are readily controlled by supporting circulation with a vasopressor and respiration with oxygen.

Carbocaine and Neo-Cobefrin are trademarks (Reg. U.S. Pat. Off.) of Sterling Drug Inc.

Are Bioblend® Anteriors just for patients who wear mink?

No. Bioblend Anteriors are for any denture patient who uses lipstick, goes to the hairdresser and tries her hardest to look her best.

The Average American Woman spends nearly fifteen dollars on cosmetics and beauty care every month. And when the time comes that she needs a denture, one thing is certain: In her mind the success of the denture will depend on how it looks.

This is why so many dentists rely on Bioblend Anteriors for all their denture cases. The small difference in cost is more than offset by the great difference in patient appreciation.

Doctor, Bioblend Anteriors are for every denture patient.

**Horace K. Thompson, D.D.S.
Wilmington, North Carolina**

Horace Thompson, a past president of the North Carolina Dental Society, was born in Raleigh, attended the University of North Carolina at Chapel Hill, and received his dental degree from the Medical College of Virginia. He was awarded an M.S. degree from Northwestern University and also attended Dewey School of Orthodontics in New York.

He served three years on the State Board of Dental Examiners and is a former member and secretary of the staff of James Walker Memorial Hospital in Wilmington. He is a member of Xi Psi Phi, the Cape Fear Club, Surf Club, the American Legion, and the Committee of One Hundred.

He has served as president of the Fifth District Dental Society and the Kiwanis Club.

Dr. Thompson lives on Middle Sound, Wilmington and limits his practice to orthodontics.

Report of the President

J. HOMER GUION
Charlotte

It is indeed a distinct honor and privilege for me to have been able to serve as your president for the past year. The experience of working with you is one I shall never forget. I have tried to justify your confidence in me.

I have come to know and appreciate more the dentists in North Carolina, and I want to thank everyone for the many courtesies extended Faye and me.

As I stated one year ago when elevated to this office, no one man can run the activities of the North Carolina Dental Society. It is the combined effort of the membership that makes our organization move forward. To all who have worked so faithfully this year, my deepest appreciation for a job well done.

To the Annual Session Committee under Ed Austin as co-ordinator, who has done so much to make this a successful and enjoyable meeting, a special thanks.

The program has as its theme for this session a most timely subject—"Preventive Dentistry, a Positive Approach for the Profession." There is a variety of subjects included and if we can succeed in challenging your thinking, we know the meeting will be a success.

I will not go into detail on all the activities of the Society, but will try to touch on the highlights, and then let you read the activities of the committees as published in the proceedings.

Dr. Ostrander will take up subjects of great interest to all of us, including the A.D.A. action on a program for dental care for children; the A.D.A. position on accreditation of dental laboratories and dental technicians, so I will not have anything to say on those subjects except that North Carolina will apply for one of the pilot programs of dental care for children that is to be established by the Federal Government.

Last year the House of Delegates passed a resolution that the Society support and the officers seek legislative action in the 1967 General Assembly to provide the appropriation necessary to restore the fourth floor, as originally planned, to the addition being erected at the dental school. Dr. Bawden will be one of our speakers for Friday night, and I am sure he would like to have the pleasure of announcing the results of that undertaking.

While the addition to the dental school will increase the enrollment of dental students by fifty percent to help meet the needs of the public in the foreseeable future, I am concerned as to whether or not the number of qualified applicants for training will seek admission. It will be necessary for the individual dentist, as well as the Society, to continue an active recruitment program to help fill the needs.

The Insurance Committee has submitted to the Executive Committee a group life insurance plan that is already in effect, and a group retirement program. The proposal submitted by the Financial Service Corporation of America was approved and will be offered in the near future to the members of the Society.

The Dental Service Corporation is closer to becoming a reality. The proposed constitution and bylaws have been submitted to the Executive Committee and approved. Legal counsel has advised that further enabling legislation will be necessary before we can proceed further. This legislation will be introduced soon.

The committee on the location of a site for a central office has completed its work, and the central office building is a reality. Located at the corner of Peace and Blount streets in Raleigh, it is a beautiful one story building of Williamsburg architecture. We have all the necessary space needed at this time with an option on the remainder of the building when the need arises. Visit the office when in Raleigh. I am sure you will be proud of it.

This year we joined the North Carolina Association of Professions. There are six dentists on the Board of Directors. At the annual meeting in April a dentist was elected Secretary of the Association and a dentist was elected to the Executive Committee of the Board.

The Committee on Continuing Education is seeking ways to finance an in-depth study of the needs of the profession and how to best serve those needs.

We have a member of the Health Committee on the North Carolina Governor's Co-ordinating Council on Aging.

In 1966 Congress passed "The Comprehensive Health Planning and Public Health Services Act," which sets forth what the states must do in order to provide comprehensive health care to all persons. As stated in the law, the purpose of the act is "to assure comprehensive health service of high quality for every person, but without interference with existing patterns of private professional practice of medicine, dentistry, and related healing arts." Comprehensive planning for health service, health manpower, and health facilities are essential at every level. The Governor is to appoint a council, the majority of whom shall be consumers of health care, and name a single agency to administer the act. I have requested the Governor to appoint a dentist to this council.

In view of the many state, federal, voluntary, and private agencies providing health service, and anticipating the Governor naming this planning group, it seems appropriate that some type of central planning should be undertaken by the dental profession in North Carolina. Accordingly, I have named a committee to provide the mechanism through which the dental profession will co-ordinate all parts of dentistry into the total health plan for North Carolina. This committee can hopefully serve as a consultant group for the Governor's planning council. It can function as an advisory group, study group, or a planning group. It cannot serve as a policy making body. It can advise and recommend only. The objectives as outlined initially will be:

1. To identify dental needs of the people in North Carolina.
2. To identify needs of the profession of dentistry in North Carolina.

3. To identify dental resources in North Carolina.

4. To develop methods which will provide more dental care for more people in North Carolina.

This is not just a study of the needs of the indigent, but the total needs of all the people.

The Council on Dental Health, with the aid of the Dental Health Division of the State Board of Health, has been active in promoting fluoridation of communal water supplies. As of February 15, 1967, seventy water systems provided fluoridated water to 88 communities serving a total of 1,508,100 persons. This represents 65.4 percent of the urban population served by public water systems.

"Suggested procedures for publicly funded dental care programs" was mailed to all dentists and governmental agencies instrumental in setting up dental care programs under Head Start or ESEA funds.

In the Regional Medical Program on Heart, Cancer, and Stroke and related diseases, we now have a task force of dentists studying to identify the areas whereby dentistry may obtain a grant to work within the concepts of the program.

If we are to maintain the system of free enterprise, which we all love so dearly, and which made this country great, it is necessary that we join for a common purpose. The power of any effective group is far greater than the power of its individual members.

They tell us we are in the throes of a harsh transition. We have been in a transition ever since I was born, having passed from the horse and buggy days to the jet and computer age. As long as we live we will be in a transitional state.

The shape of the new order is not yet clear, they tell us. If we are to help shape the future of our country it will require a strong, well supported organization such as this through which the voice of the members can provide high quality professional advice and assistance to the public agencies.

Obviously we are building a new world for ourselves and children. Must this mean a new set of values, or will the fundamental values that have existed through history endure?

Is honesty any less likely to be desirable in the future than it has in the past? A person can be dishonest and still make progress in this world, but not over any sustained period of time, and not without such personal turmoil as to make the dishonest game not worthwhile. Integrity is one of our fundamental values that make our clientele stay with us for decades and even one generation to another.

Industry and thrift are worthwhile basic values that must be carried over. I believe now it is maximum output and budget control, but the ideas are the same. One of the fundamental ideas that motivated our ancestors in this country was that making a profit and moving up from one stratum of society to another was a legitimate ambition. If you deprive the individual of the opportunity to better his lot in life through personal effort and initiative, you will destroy human progress and eventually society as we know it. When we all become wards of a socialistic government, I'll guarantee there will be little personal character left. Yet many politicians make it the "whipping boy" for every economic ailment real or imagined.

Because of you, the North Carolina Dental Society is a dynamic organization, not afraid to move forward as a united group, who are

willing to work to solve new problems and help us as a profession to supply more professional and community leadership, and to provide better guidance for the future than the glib smartness which today often passes for genius.

To Andy, Mira, and Dorothy of the central office, my sincere appreciation for the help given me and the capable and loyal service rendered the North Carolina Dental Society during the year.

Resolutions

Greensboro

NORTH CAROLINA DENTAL SOCIETY AUDIT FOR FISCAL YEAR ENDED MAY 31, 1967

June 16, 1967

The Officers and Directors
North Carolina Dental Society
Raleigh, North Carolina

We have examined the balance sheets and related statements of receipts and disbursements for the General Fund, Relief Fund and Development Fund, together with supporting schedules, of the North Carolina Dental Society for the year ended May 31, 1967. Our examination was made in accordance with generally accepted auditing standards applicable to accounts maintained on the cash basis and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Inasmuch as the records are maintained on the cash basis of accounting, income earned but not received and liabilities incurred but not paid, if any, are not reflected in the accompanying financial statements.

In our opinion, the accompanying financial statements present fairly the financial position of the North Carolina Dental Society at May 31, 1967, and the results of its cash transactions for the year then ended, on a basis consistent with that of the preceding year.

SECRETARY-TREASURER
Supplemental Report Number 1

RESERVE FUNDS
North Carolina Dental Society

Ten years ago reserve funds equal to one year's operating expenses were considered essential and reserves to equal two year's operating expenses were considered highly desirable.

In June, 1966 Dr. Harold Hillenbrand told the Secretaries Management Conference that the accepted standard today for professional organizations is reserve funds equal to three times the annual budget.

Our annual operating expenses are now approximately \$55,700. At the end of the fiscal year 1965-66 unappropriated money in the Society's General Fund totalled \$40,965, or only 74 per cent of one year's operating expenses. (See Schedule 1—Reserve Funds, May 31, 1966)

The largest amount ever held in reserve was at the end of the fiscal year 1964-65 when unappropriated funds reached a total of \$47,431, still short of equaling the annual budget for one year. In 1965-66 the surplus (revenue receipts in excess of disbursements) was a scant \$64 to make a total of \$47,495.

The 1966 House of Delegates authorized the expenditure of \$1,498 from reserve funds, including \$716 for the special session of the House of Delegates, and \$782 for legislation proposed by the Blue Cross-Blue Shield Committee. The House also appropriated \$5,000 of reserve funds to the Dental Service Corporation Committee, and paid \$32 to the UNC Dental Student Loan Fund ($\frac{1}{2}$ of annual surplus) as directed by the 1965 House of Delegates. These expenditures and appropriations reduced the amount in reserve to \$40,965. (See Schedule 2—Analysis of Change in Unappropriated Reserve)

The 1965 House of Delegates directed that, beginning with the fiscal year 1964-65, one-half the annual surplus be given to the UNC Dental Student Loan Fund for a period of three years. This means we have one more payment to make, and one-half of whatever surplus we have at the end of this fiscal year will go to the Fund.

To date we have given a total of \$1,921 to the UNC Dental Student Loan Fund as follows:

Fiscal year 1964-65.....	\$1,889
Fiscal year 1965-66.....	32
	<hr/>
	<u>\$1,921</u>

Sound financial planning precludes further reduction of unappropriated reserve funds. It requires that in the future all surplus money be placed in reserve, and no appropriations be made from reserve funds until the unappropriated reserve equals at least one year's operating expenses. It would be even more desirable to have in reserve an amount equal to two year's operating expenses. This would be in the neighborhood of \$100,000

Keep in mind that annual budgets are increasing from year to year and ten years from now more than \$100,000 will be required to meet this standard.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

Report of the Executive Secretary

ANDREW M. CUNNINGHAM
Raleigh

As your Executive Secretary it is my duty and privilege to submit my twelfth annual report as required by Article XV, Section 8 of the *Bylaws*.

A New Central Office: In September, 1955, I was appointed Executive Secretary and one month later the Central Office was opened at 405 West Peace Street in Raleigh. The location was considered "temporary" at the time. Little did we know that it would be our home for almost 12 years.

In that span of time, the Society has grown from 989 members in 1955 to 1,310 in 1966 and the services required of the Central Office have increased in even greater ratio. Consequently, we have outgrown our present quarters and the need for additional space has become acute. The 1966 House of Delegates authorized the Executive Committee to find and lease property which would provide space adequate for our needs. The president appointed a committee charged with this responsibility and the committee, headed by Dr. Walter H. Finch, Jr., successfully completed its mission. On January 7, 1967 the committee reported to the Executive Committee and its recommendation for a new location for the Central Office was approved.

On June 1 the Central Office will move to brand new quarters in an attractive one-story brick building of colonial design, recently constructed at the corner of Peace and Blount streets in Raleigh, just four blocks North of the Legislative Building. We are looking forward with anticipation to the re-location and the many advantages it will offer including increased office and work space and a conference room which we have long needed for meetings of committees and other groups. We are confident that the Society will be proud of its new Central Office and that it will enhance the image of dentistry in the Capital City.

Not only will the new location adequately accommodate our present needs but it will provide room for future expansion. Initially we will occupy 1,300 of the 2,000 square feet in the building. The remaining 700 square feet will be leased to a suitable tenant on a short-term basis.

and we will have the opportunity of acquiring this additional space as each lease expires.

Activities of the Central Office: It would be impossible, if not impractical, to list the many and varied functions of the Central Office. The flow of correspondence necessary in the proper administration of the Society may give some indication of the work-load. In the calendar year 1966 the Central Office received 4,981 pieces of mail and dispatched 29,845, including 6,141 *JOURNALS* and 9,536 *Newsletters*.

As a service to the Districts, the Central Office reproduces letters, bulletins, announcements and reports and addresses envelopes for mailing to the members. The Districts are charged for these services on a cost basis. This is a proper function of the Central Office. However, allied organizations are requesting these services more and more. With a limited staff, it is becoming increasingly difficult to meet these requests without interfering with routine work. In the near future we may find it necessary to restrict these services to Districts only.

Visual Education: The Central Office now has available on a loan basis an exhibit and a film for the promotion of student recruitment.

"The Challenge of Dentistry," an attractive table top exhibit has been displayed at more than six career days in the State.

"Dentistry Through the Ages," a 16mm film in color and sound was shown to school, civic, and PTA groups in six communities.

The Executive Committee has authorized the donation of the film to the Film Library of the State Board of Health in order to get better distribution and to provide proper care and maintenance, a service which the Central Office is unprepared to render without professional assistance.

Conferences: As your representative, I have participated in 72 conferences and meetings during 1966 including:

- 18 Conferences with officers and committee chairmen
- 24 Conferences and meetings with other organizations
- 16 Committee meetings
- 9 State and District meetings
- 3 Out-of-State meetings
- 2 Court hearings

I attended the meeting of the American Dental Association in Dallas, Texas November 14-17, 1966 and sat with the North Carolina delegation in the three sessions of the House of Delegates and attended all district and state caucuses.

Along with the Secretary-Treasurer, I attended the 17th Secretaries Management Conference at ADA Headquarters in Chicago last June.

Committee Work: With 17 standing committees and more than 23 special committees, the responsibility of co-ordinating their activities becomes a demanding task. I have endeavored to lend assistance to all of them whenever called upon and to provide background information so that the chairmen might be better informed and better prepared to implement their assignments. It has been said that an executive secretary lends continuity to an organization. This is particularly true in the area of committee work.

District Officers Conference: The Central Office assisted in the planning and preparation of the 14th Annual District Officers Conference which was held December 3-4, 1966 in Raleigh at the Velvet Cloak Inn. Total registration was 82, including 53 dentists. This Conference continues to be a valuable medium for training District officers and an informative forum for the exchange of ideas among Districts. Many improvements in

the format and execution of the annual meetings of the Districts have originated in this Conference.

Publications: As managing editor of the JOURNAL it is my responsibility to solicit advertising; contract for the printing; edit, prepare, and proof copy; and get the issues in the mail.

On January 1, 1967, the Post Office required all second-class bulk mail to be pre-sorted by zip codes which required a complete revision of our mailing list. This was quite an undertaking, but we met the deadline. We hope it has meant better delivery service.

For the past several years the Roster of Members has been printed as a separate publication and mailed as a supplement of the January issue of the JOURNAL. The 1967 directory was included in the January issue on a trial basis in the interest of economy.

An estimated 120 hours of staff time in the Central Office is required for each issue of the JOURNAL.

It should be noted here that the Internal Revenue Service is now proposing a regulation to tax income from advertising in publications of tax-exempt organizations as non-related income. If adopted, this tax will apply to our JOURNAL.

Thanks: No profession has ever been blessed with finer leadership than organized dentistry in North Carolina. I am grateful to President J. Homer Guion and the officers of the Society for their many courtesies and the opportunity of working for them and with them during the past year. I hope I have contributed in some small measure to the success and accomplishments of this administration.

A word of thanks to my secretary, Miss Mira Riddle for the many services she continues to render so well, not only to me but to the Society. My thanks also to Mrs. Cunningham for helping us out in the Central Office when extra hands are needed.

Action by House of Delegates: Received for information May 12, 1967.

APRIL 15, 1967

APRIL 16, 1967

MAY 10, 1967

PINEHURST, NORTH CAROLINA

May 8, 1966

Call to Order: The Executive Committee convened in the Crystal Room of The Carolina, Pinehurst, North Carolina, Sunday, May 8, 1966 following the adjournment of the 110th Annual Session. President Guion called the meeting to order at 8:15 a.m. Mr. Cunningham led in prayer.

Roll Call: Committee members present were: Drs. J. H. Guion, W. L. Hand, Jr., George F. Kirkland, Jr., Walter H. Finch, Jr., C. W. Poindexter, S. H. Isenhower, Pearce Roberts, Jr., and L. B. Peeler.

Others present were: Mr. Andrew M. Cunningham, Executive Secretary and Miss Mira Riddle, Central Office Secretary.

Introduction of New Members: Dr. Guion welcomed and presented the new committee members, including: President-Elect George F. Kirkland, Jr.; Vice President Walter H. Finch, Jr.; and Dr. L. B. Peeler, appointed to succeed Dr. Roy L. Lindahl as a committee member.

Dr. Guion announced the appointment of Dr. W. L. Hand, Jr., as committee chairman to succeed Dr. S. H. Isenhower.

He noted with pleasure that Dr. C. W. Poindexter had been re-elected and would continue to serve on the committee, as would the immediate past president, Dr. Pearce Roberts, Jr.

Dr. Hand assumed the chair and presided for the rest of the meeting.

Editor-Publisher: Dr. Hand reported that Dr. Barry G. Miller had tendered his resignation as Editor-Publisher effective immediately. Dr. Guion moved that a committee be appointed to secure a successor to Dr. Miller as Editor-Publisher. Seconded by Dr. Poindexter. Motion carried.

Dr. Hand appointed the following to the committee: Dr. Guion, Chairman; Dr. Roberts and Dr. Kirkland.

It was suggested that Dr. Miller be requested to consider serving as Editor-Publisher through 1966.

Executive Secretary: Dr. Kirkland moved that Mr. Andrew M. Cunningham be re-appointed Executive Secretary for the year 1966-67 and

that he and the Central Office staff be commended for their fine work during the past year. Seconded by Dr. Finch. Motion carried.

Dr. Roberts expressed personal thanks to Mr. Cunningham for his help during the past year and noted that past presidents, more than anyone else, appreciated the tremendous and valuable assistance rendered the Society by the Executive Secretary.

Mr. Cunningham accepted the appointment with thanks.

Dr. Hand expressed his pleasure and that of the officers and members that Mr. Cunningham would continue as Executive Secretary.

State Secretaries Management Conference: Dr. Guion moved that the Executive Secretary be authorized to attend the 17th Annual Secretaries Management Conference in Chicago, June 6-8, 1966 and that his expenses be paid by the Society. Seconded by Dr. Kirkland. Motion carried.

Dr. Guion moved that Secretary-Treasurer C. W. Poindexter be requested to represent the Society at the 17th Annual Secretaries Management Conference in Chicago, June 6-8, 1966 and that he be re-imbursed as provided in Article XII, Section 1 of the *Bylaws*. Seconded by Dr. Kirkland. Motion carried.

Budget Committee: Dr. Guion announced the appointment of the following to the Budget Committee: Dr. Poindexter, Chairman; Dr. Hand and Dr. Kirkland.

The Budget Committee was requested to submit its report at the next meeting of the Executive Committee.

Legal Counsel: Dr. Roberts moved that the firm of Joyner & Howison of Raleigh be retained as legal counsel for the year 1966-67 and that Colonel Joyner and Mr. Howison be thanked for their valuable legal advice during the past several years. Seconded by Dr. Poindexter. Motion carried.

1968 Annual Session: It was noted that the Society in General Session May 5 voted to hold the 112th Annual Session in Pinehurst, May 5-8, 1968.

Dr. Guion moved that these dates be confirmed with The Carolina. Seconded by Dr. Finch. Motion carried.

Mr. Cunningham reported that The Carolina had advised that because of the proposed Federal Minimum Wage Law the American Plan daily rates, effective in May, 1967 will be \$36 double and \$20 single, plus the usual 15 per cent gratuity to maids and waitresses.

Dental Health Column: It was noted that the 1966 House of Delegates had adopted a resolution establishing a Public Relations Committee as a sub-committee of the Publicity Committee and charged it with the responsibility of producing and distributing a dental health column to the newspapers throughout the State. Dr. Roberts moved that for the present no action be taken on this resolution and that the responsibility for dental health columns be assumed by the Publicity Committee. Seconded by Dr. Poindexter. Motion carried.

Comments by the President: President Guion expressed his personal appreciation to committee members for attending the meeting. He announced that the theme of the 111th Annual Session would be preventive dentistry and that his program committee had already secured two excellent clinicians. He estimated that the scientific program would cost \$2,100 and that the entire session would cost approximately the same as the 110th Annual Session.

Article on Dental Manpower: A request was received from Mr. Ted Davis, Information Officer, Employment Security Commission, for an article on the dental manpower situation in North Carolina, to be published in the *E. S. C. Quarterly*. Dr. Poindexter moved that Dr. James W. Bawden, Dean-elect of the UNC School of Dentistry, be asked to write this article. Seconded by Dr. Isenhower. Motion carried.

Announcement: Dr. Hand announced that copies of the Blue Book would be distributed to the ADA Delegates for their information.

Adjournment: On motion by Dr. Kirkland, seconded by Dr. Poindexter, the meeting was adjourned at 10:00 a.m.

C. W. POINDEXTER, D.D.S.
Secretary-Treasurer

Read and approved: June 25, 1966.

CHARLOTTE, NORTH CAROLINA

June 25, 1966

Call to Order: The Executive Committee convened in the Champagne Room of the Red Carpet Inn, Charlotte, North Carolina, Saturday, June 25, 1966. Chairman Hand called the meeting to order at 2:20 p.m. and Dr. Peeler led in prayer.

Roll Call: Committee members present were: Drs. W. L. Hand, Jr., J. Homer Guion, Walter H. Finch, Jr., George F. Kirkland, Jr., Pearce Roberts, Jr., S. H. Isenhower, L. B. Peeler, and C. W. Poindexter.

Others present were: Dr. C. C. Diercks, Dr. Barry G. Miller, Dr. A. Breece Breland, Mr. Andrew M. Cunningham, Executive Secretary and Miss Mira Riddle, Central Office Secretary.

Approval of Minutes: Dr. Finch moved that the minutes of May 4, 1966, and May 8, 1966 be approved. Seconded by Dr. Guion. Motion carried.

Editor-Publisher: Following a report by the committee on the Editor-Publisher, Dr. Roberts moved that A. Breece Breland be appointed Editor-Publisher for 1966-67. Seconded by Dr. Guion. Motion carried.

Dr. Breland announced that Dr. Barry G. Miller had agreed to continue on the staff of the JOURNAL as Associate Editor-Publisher.

Dr. Miller discussed some of the problems of the Editor-Publisher. He introduced Dr. C. C. Diercks, who outlined the difficulties he had experienced as Editor-Publisher.

Dr. Poindexter moved that the Editor-Publisher be given a drawing account of \$250 to be used at his discretion to help defray expenses incurred in the performance of his duties. Seconded by Dr. Roberts. Motion carried.

Dr. Guion announced that he had authorized Dr. Breland to attend the Dental Editors Seminar, September 11-15, at Ohio State University, and the meeting of the American Association of Dental Editors at the ADA Annual Session in Dallas next November. Dr. Breland will be reimbursed first-class, round-trip air transportation and per diem of \$25 for each day of official participation at both meetings.

Dr. Isenhower moved that a letter of appreciation be sent to Dr. Miller for his services as Editor-Publisher and that a letter of welcome be sent to Dr. Breland assuring him of the co-operation and support of the Executive Committee. Seconded by Dr. Roberts. Motion carried.

1967 Annual Session: Dr. Guion announced that clinicians for the 1967 annual session would include: Faustin N. Weber, Memphis, Tennessee; Robert V. Walker, Dallas, Texas; and F. D. Grossman, U. S. Navy. He said that the Program Committee was also considering Herbert J. Bartelstone, Scarsdale, New York.

He stated that the theme of the 111th Annual Session would be "Preventive Dentistry."

Financial Reports: Dr. Poindexter moved that the audit of the Society's accounts for the fiscal year ended May 31, 1966 be approved. Seconded by Dr. Isenhower. Motion carried.

Dr. Roberts moved that President Guion be authorized to sign checks drawn on checking accounts of the General Fund and the Relief Fund, in addition to the Secretary-Treasurer. Seconded by Dr. Isenhower. Motion carried.

Dr. Kirkland moved that consideration of investment of reserve funds be tabled until reports were received from the Dental Service Corporation Committee and the Location of the Central Office Committee. Seconded by Dr. Guion. Motion carried.

1966-67 Budget: Dr. Roberts moved that the budget for 1966-67 presented by the Secretary-Treasurer be approved. Seconded by Dr. Isenhower. Motion carried. A copy is attached to these minutes.

Reports on Conferences: Dr. F. A. Buchanan submitted a written report on his participation in the 17th National Dental Health Conference in Chicago, April 25-27. It will be published in the August, 1966 JOURNAL. Dr. Finch moved that the report be received for information. Seconded by Dr. Roberts. Motion carried.

Dr. Poindexter reported informally on his attendance at the 17th State Secretaries Management Conference in Chicago, June 6-8. Dr. Roberts moved that the report be received for information. Seconded by Dr. Peeler. Motion carried. Dr. Poindexter will submit a written report for publication in the JOURNAL.

Mr. Cunningham reported for Dr. Roy L. Lindahl who attended the conference and the first annual meeting of the National Association of Dental Service Plans in Chicago, June 14-16. It was noted that annual dues for constituent society membership would be \$150, payable January 1, 1967. Dr. Lindahl will submit a written report for publication in the JOURNAL.

Mr. Cunningham also reported that Dr. Lindahl plans to meet in the near future with the Superintendent of Public Instruction to negotiate a fee schedule for the school health program. By law, a statewide fee schedule is required for this program. It was pointed out that all other State health care programs can be negotiated on a usual or customary fee basis.

Membership Policy: Dr. Guion moved that a dentist joining the Society as an active member for the first time, who was not a student member of the ADA or was not a transfer from another constituent of the ADA, be required to pay full State dues for the remainder of the calendar year in the event he desired an ADA card for the current year, and that District Societies consider adopting a similar policy. Seconded by Dr. Kirkland. Motion carried.

Comments by the President: President Guion reported that the Society had been invited to send a representative to the Second National Conference on Public Relations in Chicago, August 2-3, but that he had not decided whether the invitation would be accepted.

He stated that he had received a letter from Hospital Saving Association requesting a meeting with representatives of the Society and that he would consult with the chairman of the Dental Service Corporation on the advisability of participating in the proposed meeting.

He said a letter had been received from Dr. I. M. Taylor, Dean, UNC School of Medicine, thanking the Society for the resolution adopted by the 1966 House of Delegates in support of legislation which would provide sufficient funds to complete the facilities and programs of the UNC Division of Health Affairs as originally planned.

He reported that he, Dr. Bennie Barker, and Mr. Cunningham had attended a meeting of the North Carolina Regional Medical Program June 1, at Duke University. He noted that the President of the N. C. Dental Society is a member of the Advisory Board of the program and that effort would be made to have better representation, including the dean of the School of Dentistry as an ex-officio member.

He announced the following appointments:

Location of Central Office Committee: Walter H. Finch, Jr., Henderson Chairman; D. T. Carr, Durham; J. S. D. Nelson, Raleigh; and George F. Kirkland, Jr., Durham. J. Henry Ligon, Jr. of Raleigh will be asked to serve as consultant to the committee.

Board of Directors, N. C. Association of Professions: E. Kent Rog-

ers, III, Asheville; John H. Dixon, Charlotte; Walter H. Finch, Jr., Henderson; William G. Ware, Jr., Winston-Salem; James E. Furr, Wilmington; George F. Kirkland, Jr., Durham.

Voting representatives, N. C. Health Council: John W. Girard, Jr., Asheville; and R. J. Shankle, Chapel Hill.

National Association of Dental Service Plans: Roy L. Lindahl, Chapel Hill, delegate; Glenn F. Bitler, Raleigh, alternate delegate.

He said that the Superintendent of Public Instruction had requested assistance in up-dating a textbook on dental health for use in the public schools and that the dean of the UNC School of Dentistry would be requested to recommend a faculty member to render this assistance.

He announced that he had invited William A. Garrett, President-Elect, American Dental Association to speak at the 111th Annual Session of the Society May 10-14, 1967, but that Dr. Garrett had advised with regret that his schedule would not permit him to accept.

He noted the resolution of the 1966 House of Delegates requesting the Executive Committee to study the committee structure of the Society and appointed the following to a committee to complete the study: Ralph D. Coffey, Chairman; Pearce Roberts, Jr. and Darden J. Eure.

He reported that Wachovia Bank & Trust Company had proposed a group retirement program for the membership and that he would refer the matter to the Insurance Committee.

He reported the receipt of a letter from the Office of Dependents' Medical Care requesting a copy of the current VA fee schedule. He directed the Secretary-Treasurer to answer the request, suggesting that treatment of dependents of military personnel would be accomplished on a usual and customary basis, and not on the basis of a fee schedule, in accordance with the policy approved by the 1966 House of Delegates.

He reported that complaints had been received on the inadequate coverage of dental injuries in school accident insurance policies and that the matter would be referred to the Dental Health Insurance-Industry Liaison Committee for study.

He reported that he had attended the Fluoridation Conference in Greensboro, June 7, sponsored by the Division of Dental Health. He said that the Conference had suggested that the Society organize a speakers bureau on fluoridation to better inform the public on its effectiveness as a public health measure, and that E. A. Pearson, Jr., director, Division of Dental Health, had offered to sponsor a three-day course for training speakers for the bureau.

Dr. Guion invited committee members and their wives to join Mrs. Guion and him for dinner at their home following adjournment of this meeting.

Next Meeting: Dr. Isenhower moved that the Executive Committee meet at Grove Park Inn, Asheville, Sunday, October 2 at 10:00 a.m. during the annual meeting of the First District. Seconded by Dr. Poindexter. Motion carried.

Adjournment: At 4:58 p.m. Dr. Poindexter moved that the meeting be adjourned. Seconded by Dr. Isenhower. Motion carried.

CHARLOTTE, NORTH CAROLINA

September 18, 1966

Call to Order: The Executive Committee convened in Parlors E & F of the Queen Charlotte Hotel, Charlotte, North Carolina, Sunday, September 18, 1966. Chairman Hand called the meeting to order at 10:10 a.m. and Dr. Peeler led in prayer.

Roll Call: Committee members present were: Drs. W. L. Hand, Jr., J. Homer Guion, George F. Kirkland, Jr., Walter H. Finch, Jr., C. W. Poindexter, Pearce Roberts, Jr., S. H. Isenhower, and L. B. Peeler.

Members of the Legislative Committee present were: Drs. Mott P. Blair and L. C. Holshouser.

Members of the N. C. State Board of Dental Examiners present were: Drs. Wade H. Breeland, C. C. Diercks, R. B. Barden, S. L. Bobbitt, Guy R. Willis and Freeman C. Slaughter. Also, Mr. Thomas M. Starnes, attorney for the Board.

Others present were: Dr. A. Breece Breland, Editor-Publisher; Dr. Ralph D. Coffey, Speaker of the House; Dr. James W. Bawden, Dean, UNC School of Dentistry; Mr. Andrew M. Cunningham, Executive Secretary; and Miss Mira Riddle, Central Office Secretary.

Approval of Minutes: Dr. Isenhower moved that the minutes of June 25, 1966 be approved. Seconded by Dr. Poindexter. Motion carried.

Secretary-Treasurer: Dr. Poindexter moved that the financial report of August 31, 1966 be received for information. Seconded by Dr. Guion. Motion carried.

Dr. Poindexter called attention to the resolution adopted by the 1966 House of Delegates which provided that the Executive Secretary's salary be reviewed annually and adjusted according to the consumer price index published by the Department of Labor, either up or down, using June 1, 1966 as a base. He noted that the Bureau of Labor Statistics quoted the June, 1966 index to be 112.9.

Relief Fund: Mr. Cunningham announced that the Indenture of Trust for the Relief Fund prepared by legal counsel had been filed with the Internal Revenue Service September 1, 1966 for exemption under Section 501 (a) of the Internal Revenue Code.

Board of Dental Examiners: Dr. Wade H. Breeland, president, Board of Dental Examiners, said that the Board had experienced difficulty in administering the laws pertaining to the practice of dentistry and had determined that several sections of the General Statutes needed revision in order to make them more effective in the regulation of the profession.

Mr. Thomas M. Starnes, attorney for the Board, recommended that the Dental Practice Act be completely reviewed and that amendments be proposed to the 1967 General Assembly which would, among other things:

- (1) more clearly and accurately define the practice of dentistry
- (2) provide for a hearing to determine whether a license should or should not be renewed
- (3) refine the section on revocation or suspension of license so that the Board would not be acting as a quasi-judicial agency

Dr. Poindexter moved that the following resolution be adopted: Realizing that there is a need for a complete review of the scope of the Dental Practice Act, and pursuant to a request of the Board of Dental Examiners that modifications of the Act be proposed by the North Carolina Dental Society, therefore, be it

Resolved, that the Legislative Committee be directed to study the problem in consultation with the Board of Dental Examiners in order to make specific recommendations to the Executive Committee, and be it further

Resolved, that because no funds are budgeted this year for such purpose, the Executive Committee suggests that the Board of Dental Examiners furnish legal counsel for those specific changes which they have requested having to do with difficulties in administering the work of the Board under the present Dental Practice Act, and be it further

Resolved, that the Legislative Committee request funds for such other changes that the Committee deems necessary.

Seconded by Dr. Isenhower. Motion carried.

Dental Service Corporation: A report from the Dental Service Corporation Committee indicated that on September 7 the committee had met with representatives of the Blue agencies and explored possible areas of co-operative effort in providing care to the people of North Carolina.

The committee also reported that plans for funding a dental service corporation were being studied and that as promptly as possible a constitution and bylaws and sample contract would be drafted for submission to the Insurance Commissioner for approval and determination of the capitalization required.

Dr. Isenhower moved that the report be received for information, and that a letter of thanks be sent to the chairman of the committee, reminding him that in accordance with the action of the 1966 House of Delegates the proposed constitution and bylaws and contract should be submitted to the Executive Committee for review and approval before they are submitted to the Insurance Commissioner. Seconded by Dr. Poindexter. Motion Carried.

UNC School of Dentistry: Dean James W. Bawden of the UNC School of Dentistry advised the committee that funds allocated for the new four-story Dental Education Wing were insufficient to complete the entire project because of escalation of building costs. This shortage of funds, he pointed out, had dictated that the project be reduced to a three-story structure and that facilities for expansion of the dental hygiene and continuing education programs be eliminated.

He said that the University would seek an appropriation of \$950,000 from the 1967 General Assembly to restore the project to its original size and scope, but that \$20,000 was needed immediately to underwrite the architect's fee for designing the fourth floor, pending approval of the appropriation request by the General Assembly. This will enable the entire project to be completed on schedule as a unit.

He announced that the Dental Foundation of N. C. had inaugurated a campaign for underwriting the architect's fee and asked the Executive Committee to endorse it.

Dr. Roberts moved that the campaign by the Dental Foundation of N. C., Inc. for pledges to underwrite the architect's fee for designing the fourth floor of the new Education Wing at the UNC School of Dentistry be endorsed. Seconded by Dr. Isenhower. Motion carried. It was stipulated that a letter of endorsement be written by the Secretary-Treasurer and forwarded to Dr. Bawden for use as he sees fit.

Insurance Committee: The Insurance Committee reported that subsequent to the action of the 1966 House of Delegates authorizing J. L. Crumpton and Moore & Johnson Company to make available to the membership a hospital income plan, the Moore & Johnson Company had complained that this would virtually place the plans in competition and indicated that under these conditions it would prefer to withdraw its proposal. Representatives of both companies met with the Insurance Committee on September 11 and presented their views on the matter. A review of both plans revealed that the benefits offered were identical, but that the premium schedule of J. L. Crumpton's plan was more attractive. The Insurance Committee concluded that it had no alternative but to reaffirm the resolution of the House of Delegates and recommended that the Executive Committee approve its decision.

Dr. Kirkland moved that the Executive Committee approve the recom-

mendation of the Insurance Committee that the resolution on hospital income insurance adopted by the 1966 House of Delegates be re-affirmed. Seconded by Dr. Isenhower. Motion carried.

The Insurance Committee reported that after careful study it had decided to recommend to the Executive Committee that a group life insurance program underwritten by the Northwestern National Life Insurance and administered by J. L. Crumpton be endorsed and made available to the membership.

Dr. Kirkland moved that the group life insurance plan proposed by Northwestern National Life Insurance Company be endorsed and offered to the membership. Seconded by Dr. Finch. Motion carried.

J. L. Crumpton requested authorization to offer the group insurance plan to dental students and faculty members of the UNC School of Dentistry. Dr. Kirkland moved that this request be referred to the Insurance Committee for study. Seconded by Dr. Guion. Motion carried.

Insurance-Industry Liaison Committee: Dr. James B. Howell, chairman, Dental Health Insurance-Industry Liaison Committee, reported that the Health Insurance Council had indicated that a Dental Claims Review Committee would be beneficial to the insurance industry.

Dr. Howell stated that complaints from dentists concerning the Scholastic Accident Insurance Program had been brought to the attention of the Pilot Life Insurance Company. The company suggested that the dentists be informed on the limitations of the policy so that they can explain to their patients what the policy will cover.

Dr. Isenhower moved that the report be received for information. Seconded by Dr. Guion. Motion carried.

Dr. Guion moved that the chairman of the Dental Health Insurance-Industry Liaison Committee write Dr. Charles F. Carroll, Superintendent, Department of Public Instruction, protesting against the unrealistic allowance of \$50 per tooth in scholastic accident insurance programs. Seconded by Dr. Poindexter. Motion carried.

Council on Dental Health: Dr. Francis A. Buchanan, chairman, Council on Dental Health, reported that the Council would attempt to act as a clearing house of information on Head Start and other OEO and ESEA programs in North Carolina.

He announced that the Third Annual Career Day at the UNC School of Dentistry would be held March 11, 1967.

Dr. Isenhower moved that the report be received for information and that a letter of thanks be sent to Dr. Buchanan commending him for his plans for compiling information on anti-poverty programs and for recruiting qualified dental students. Seconded by Dr. Kirkland. Motion carried.

Editor's Comments: Dr. A. Breece Breland, Editor-Publisher, reported that he had attended the Dental Editors Seminar, September 11-15 at Ohio State University and THE JOURNAL OF THE NORTH CAROLINA DENTAL SOCIETY had received favorable comments by the seminar faculty members and others.

Dr. Breland announced that in the future, actions of the Executive Committee would be published in the JOURNAL.

Dr. Roberts expressed the hope that the policy of the JOURNAL would always be to publish facts without bias; and, in the interest of human relations, goodwill, and a Christian understanding of one's fellowman, to publish nothing in the nature of a personal attack on any individual member.

President's Comments: President Guion made the following announcements:

A request for revision of the VA fee schedule has been referred to the Military and Veterans' Affairs Committee.

Dr. J. Donald Kiser, chairman, Publicity Committee, was unable to attend the Conference on Dental Public Relations in Chicago, August 2-3, because of the airline strike.

Dr. Colin P. Osborne, Jr., chairman, Prosthetic Dental Service Committee, will represent the Society at the Conference on Education Standards for Dental Laboratory Technicians, October 14-15, in Chicago.

Dr. G. F. McBrayer, chairman, State Institutions Committee, has resigned and a new chairman will be appointed at an early date. Dr. McBrayer is leaving the profession to enter private business.

An invitation to participate in a Workshop on Dental Assistant Certification Examinations, November 18, in Dallas, has been referred to Dr. William H. Oliver, chairman, Dental Assistants Committee.

The American Association of Public Health Dentists has invited the chairman of the Council on Dental Health of each state to become members of the Association. Because Dr. E. A. Pearson, Jr., is a member of the Council and is a member of AAPHD, Dr. Guion suggested that he would decline the invitation.

A committee on continuing education will be appointed and will work with Dr. Bennie D. Barker in developing a program. There is a possibility that it can be supported by a Federal grant.

Executive Secretary's Comments: Mr. Cunningham reported that in August the Governor appointed Dr. S. P. Gay to the Medical Advisory Council to the Board of Mental Health.

He noted that the Durham Ironworkers Trust Fund had announced that its Dental Plan had been modified. Payments to any one person are now limited to \$500 during any 36 month period.

He read a letter from Dr. Gerald D. Timmons, campaign chairman, American Fund for Dental Education, thanking the Society for its \$10 contribution to the Fund and advising that 58 dentists in North Carolina had made individual contributions to the Fund.

He announced that over half the exhibit spaces for the 1967 annual session had been sold to date.

He reported that a bedroom-parlor suite has been reserved at the Hilton Hotel in Dallas for the ADA meeting which will be occupied by the president and serve as a headquarters for North Carolina. The Executive Secretary will have a room close by.

He reported that the Hinman Dental Clinic will invite a limited number of out-of-state men to present table clinics at its meeting next March and the Society had been requested to suggest three North Carolina dentists for consideration.

He reminded the committee that the District Officers Conference will be held at the Velvet Cloak Motel in Raleigh, December 3-4, 1966.

Next Meeting: Dr. Isenhower moved that the meeting scheduled for October 2 in Asheville be cancelled and that the next regular meeting be held in Pinehurst, January 7, 1967 and a joint meeting with the Annual Session Committee be held January 8, 1967, also in Pinehurst. Seconded by Dr. Guion. Motion carried.

Adjournment: At 2:20 p.m. Dr. Roberts moved that the meeting be adjourned. Seconded by Dr. Isenhower. Motion carried.

C. W. POINDEXTER, D.D.S.
Secretary

Read and approved: January 7, 1967.

PINEHURST, NORTH CAROLINA

January 7, 1967

Call to Order: The Executive Committee convened at The Carolina Pinehurst, North Carolina, Saturday, January 7, 1967. Chairman W. J.

Hand, Jr. called the meeting to order at 8:45 p.m., and Dr. Finch led in prayer.

Roll Call: Committee members present were: Drs. W. L. Hand, Jr., J. Homer Guion, George F. Kirkland, Jr., Walter H. Finch, Jr., Pearce Roberts, Jr., S. H. Isenhower, L. B. Peeler, and C. W. Poindexter.

Others present were: Dr. Mott P. Blair, Chairman, Legislative Committee; Dr. Roy L. Lindahl, Chairman, Dental Service Corporation Committee; Mr. Andrew M. Cunningham, Executive Secretary; and Miss Mira Riddle, Central Office Secretary.

Approval of Minutes: Dr. Roberts moved that the minutes of September 18, 1966 be approved. Seconded by Dr. Isenhower. Motion carried.

Secretary-Treasurer: Dr. Poindexter moved that the financial report of December 31, 1966 be received for information. Seconded by Dr. Finch. Motion carried.

Dr. Poindexter pointed out that the assets of the Relief Fund were in excess of \$35,000 and currently no grants were outstanding. He suggested that the Relief Committee should consider liberalizing requirements and grant amounts in the future so that more use could be made of these funds, and to avoid possible IRS investigation. Dr. Guion was asked to discuss this matter with the Chairman of the Relief Committee.

Dental Service Corporation: Dr. Roy L. Lindahl, Chairman, Dental Service Corporation Committee, reported that legal counsel had discovered a provision in Chapter 55 A of the General Statutes which might prevent the establishment of a dental service corporation in North Carolina, and that it might be necessary to seek legislation to eliminate this provision. He stated that he had contacted officials of both Blue Agencies, and that they had indicated that they would not oppose such legislation.

Dr. Lindahl further reported that legal counsel had recommended that the following provisions be included in the bylaws of the proposed dental service corporation:

1. Limit membership on the board of directors to dentists initially.
2. Provide an acceptable procedure for processing applications for participation in the dental service corporation.
3. Provide representation on the board of directors from each of the five Districts and make all participating dentists eligible for membership on the board.
4. Provide a method of terminating membership in the event a member admitted guilt to include an opportunity for the member to appeal to the board of directors, patterned after Article XVI of the Society's *Bylaws*.
5. Provide that a participating dentist could be suspended from membership for any violations of the dental practice laws which could cause his license to be revoked, and work out an agreement with the State Board of Dental Examiners so that the Board would in fact revoke the license of the member if found guilty.

Dr. Peeler moved that the Legislative Committee be authorized to seek an amendment to Chapter 55 A of the General Statutes, if necessary, so that a dental service corporation could be established in North Carolina. Seconded by Dr. Guion. Motion carried.

School Health: Dr. Lindahl reported that negotiations with Dr. Charles F. Carroll, Superintendent of Public Instruction, in behalf of a more reasonable fee schedule for the School Health Program were at a standstill. He said that Dr. Carroll was aware that the present fee schedule was unrealistic, and that he understood that Dr. Carroll was consulting with other State agencies to the end that one fee schedule could be applied to all State dental programs.

Dr. Lindahl reported that Dr. Glenn L. Hooper, Chairman, School Health Committee, was co-operating with a similar committee of the Medical Society in an effort to establish fees for all State agencies on a usual or customary basis, and provide for an Advisory Council to the

School Health Program composed of physicians, dentists, and representatives of allied health fields.

Public Law 89-749: It was noted that the 89th Congress had passed the Comprehensive Health Planning and Public Health Services Amendments of 1966 which provide for grants to states and requires the establishment of a planning council in each state. Dr. Roberts moved that the president write Governor Moore expressing the interest of dentists, and suggesting that the dental profession be represented on the planning council in North Carolina. Seconded by Dr. Poindexter. Motion carried. It was suggested the letter be followed up with a personal call on the Governor by representatives of the Society.

Legislative Committee: Dr. Mott P. Blair, Chairman, Legislative Committee, reported that the Committee recommended that a study in depth of the present dental practice laws be initiated, and any needed changes in the General Statutes revealed by the study be referred to the Legislative Committee, after approval by the House of Delegates, for presentation to the 1969 General Assembly. Dr. Blair stated that the Board of Dental Examiners agreed with this plan.

Dr. Poindexter moved that the president be directed to appoint a special committee to study the present dental practice laws in co-operation with the State Board of Dental Examiners and report to the 1967 House of Delegates. Seconded by Dr. Roberts. Motion carried.

It was suggested that the membership be informed of the proposed study through the publications of the Society, and that members be encouraged and requested to submit to the special committee suggested changes in the dental practice laws.

It was also suggested that District presidents be advised of the study and request that they consider including a report from the special committee on the District programs next fall.

Dr. Blair also reported that liaison dentists for the 90th Congress had been appointed, and that District presidents had been requested to appoint liaison dentists for the 1967 General Assembly.

Dr. Blair stated that the Legislative Committee would support legislation in the 1967 General Assembly to provide for dentists on all State boards and agencies administering a dental care program as directed by the 1966 House of Delegates. He recommended that the Society endorse and support B Budget requests by:

- (1) The UNC School of Dentistry for the completion of the Dental Education Wing.
- (2) The Department of Community Colleges for the support of dental auxiliary personnel programs.
- (3) The Division of Dental Health for expansion of its services.

Dr. Roberts moved that the Legislative Committee be empowered to support B Budget requests in the interest of dentistry for the UNC School of Dentistry, the Department of Community Colleges, and the Division of Dental Health. Seconded by Dr. Kirkland. Motion carried.

Central Office: Dr. Walter H. Finch, Jr., Chairman, Location of Central Office Committee, reported that the committee had investigated and inspected over 25 possible sites for re-location of the Central Office in Raleigh, and recommended that space in a proposed building at the corner of Peace and Blount streets be leased, effective June 1, 1967. The builder, John O'D. Williams, has agreed to lease approximately 1,275 square feet at \$3.50 per square foot on a 5-year basis with a renewal option. The annual rent would be approximately \$4,334.50. The lessor will furnish all utilities (except telephone) and janitorial service. The building will total about 2,050 square feet and will be air conditioned. Mr. Williams has agreed to lease the remaining 800 square feet on a short-time basis, so that the Society would be given the opportunity to expand its space at reasonable intervals.

Dr. Guion moved that the office space described and recommended in the report of the Location of the Central Office Committee be leased for 5 years with an option of renewal from Mr. John O'D. Williams; the Secretary-Treasurer be authorized to sign the necessary papers for a

fecting the lease; and the expenditure of money from the Development Fund be authorized for the required millwork to be built in the new office, the purchase of needed furniture and equipment, moving, and other necessary expenses involved. Seconded by Dr. Roberts. Motion carried.

Membership: A report was received from Dr. George F. Kirkland, Jr., Chairman, Membership Committee, indicating that the Society ended 1966 with a total membership of 1,306, a net gain of 61 over 1965; that 76 new members were accepted by the Districts this past Fall, including 26 Negro dentists; that the Society now has 27 Negro members; and that 4 members failed to pay their 1966 dues by December 31.

Dr. Poindexter moved that it be made a matter of record that the following have been dropped from the roll for non-payment of 1966 dues by December 31, 1966, as provided in Article VI, Section 6 of the *Bylaws*: John W. Gibbs, Charlotte (Second District); James C. Hill, Hickory (Second District); and Robert L. Turner, Greensboro (Third District). Seconded by Dr. Guion. Motion carried.

Dr. Guion moved that the 1966 dues of Perry M. Noblitt of Shelby, a member of the First District, be waived as provided in Article VI, Section 10 of the *Bylaws*, and that he be retained on the roll as an active member in good standing without penalty, provided he pays his 1966 ADA dues. Seconded by Dr. Finch. Motion carried.

Council on Dental Health: Dr. F. A. Buchanan, Chairman, Council on Dental Health, submitted a statement titled: "Suggested Procedures for Publicly Funded Dental Care Programs." Dr. Finch moved that the statement be approved. Seconded by Dr. Isenhower. Motion carried.

The Executive Secretary was directed to write a letter to Dr. Buchanan expressing appreciation for his efforts in preparing the statement.

Honorary Membership: Dr. Guion moved that the Executive Committee recommend to the House of Delegates that Honorary Memberships be awarded to: Dr. Jacob Koomen, Jr., director, North Carolina State Board of Health; and Dr. F. Darl Ostrander, president-elect, American Dental Association. Seconded by Dr. Kirkland. Motion carried. Both men will be on the program of the 111th Annual Session.

DOC Resolutions: The following resolutions were received from the District Officers Conference:

(1) A resolution in support of Resolution 244 adopted by the 1966 ADA House of Delegates concerning the identification of additional functions which can be delegated to auxiliary personnel working under the direct supervision of the dentist to help bolster dental manpower.

(2) A resolution encouraging the Legislative Committee to expedite a request from the State Board of Dental Examiners that changes in the General Statutes be made to facilitate the proper enforcement of the laws pertaining to the practice of dentistry.

Dr. Roberts moved that both resolutions be referred to the special committee appointed to conduct a study in depth of the dental practice laws. Seconded by Dr. Peeler. Motion carried.

President's Comments: President Guion expressed special thanks to Dr. Finch and his committee for their diligence in locating new quarters for the Central Office.

He made the following announcements:

A Continuing Education Committee has been appointed with Dr. Guy R. Willis as chairman which will plan extensive continuing education programs in co-operation with the UNC School of Dentistry.

A State Health Planning Committee has been appointed with Dr. E. A. Pearson, Jr. as chairman which will develop and recommend plans for dental care programs in the implementation of Public Law 89-749, the "Comprehensive Health Planning and Public Health Services Amendments of 1966."

Dr. Colin P. Osborne, chairman, Prosthetic Dental Service Committee, has advised that the North Carolina Dental Laboratory Association will

not support the accreditation program of the Joint Commission on the Accreditation of Dental Laboratories. Dr. Guion noted that the ADA no longer recognizes the National Association of Certified Dental Laboratories, and is now negotiating with the newly organized National Forum of Dental Laboratory Owners.

Dr. F. Darl Ostrander, president-elect of the ADA, and Dr. Arthur W. Kellner, fifth district trustee of the ADA, have accepted invitations to appear on the program of the 111th Annual Session next May.

According to Dean James W. Bawden of the UNC School of Dentistry TV Channel 4 will soon have statewide coverage, and dentistry may get some prime TV time on this channel.

Executive Secretary's Comments: Mr. Cunningham recommended that the 16 mm film "Dentistry Through the Ages of Man," a gift to the Society from Rocky Mountain Products Company, be donated to the Film Library of the State Board of Health, so that it might get better distribution to schools and civic and P.T.A. groups throughout the State. By common consent, the film will be so donated.

He reported that in 1956 the Society had purchased a second hand 16 mm sound projector for \$217.50, and that it had been used very little. It was suggested that consideration be given to selling the projector for whatever the market would bring, or donating it to some deserving organization which was in need of such equipment.

He reported that in the eleven years since the Central Office was established, files of correspondence, reports, and other papers had accumulated which taxed storage facilities. In preparation for the move to new quarters a systematic policy would be followed, so that all files except legal papers, vouchers, and tax reports would be retained for three years and then disposed of.

He announced that *Newsletter* mailings in November and December were omitted because the addressograph plates were being revised and filed in zip code sequence to comply with postal regulations for bulk mailing which became effective January 1, 1967. The work has now been completed and no further delay in bulk mailing of publications is anticipated.

He reported that he and Drs. George F. Kirkland, Jr. and William C. Ware, Jr. attended a meeting of the Board of Directors of the North Carolina Association of Professions in Durham, December 9. There are now 412 individual members in the Association, including: 12 pharmacists, 77 dentists, 77 physicians, 68 professional engineers, 3 veterinarians, and 29 architects.

Legislative objectives of the participating professions were discussed. The Association will serve as a "watch dog" for all legislation in the 1967 General Assembly, especially that of local counties being given authority to license anyone for a specific service.

He stated that a dentist, who wished to remain anonymous, had donated an attractive sign to the Central Office made of 9 inch satin aluminum letters. The donor had the sign installed at his expense.

He announced that the Society would sponsor an exhibit at the Carolina Health Fair in Goldsboro March 16-17, sponsored by the North Carolina Health Careers. Dr. Guion has been named a member of the Executive Committee of the Fair.

Legal Counsel: Dr. Roberts moved that it be left to the discretion of the president and the chairman of the Executive Committee whether to request legal counsel to attend the Annual Session in May. Seconded by Dr. Finch. Motion carried. A letter of appreciation is to be sent to legal counsel for their legal services during the past several years, and requesting that they submit a written report to the House of Delegates if agreeable to them.

Adjournment: At 11:45 p.m. Dr. Roberts moved that the meeting be adjourned. Seconded by Dr. Kirkland. Motion carried.

C. W. POINDEXTER, D.D.S.
Secretary

Read and approved: April 16, 1967.

JOINT SESSION WITH ANNUAL SESSION COMMITTEE
PINEHURST, NORTH CAROLINA

January 8, 1967

Call to Order: The Executive Committee and the Annual Session Committee convened in joint session at The Carolina, Pinehurst, North Carolina, January 8, 1967. President Guion called the meeting to order at 9:40 a.m., and Dr. Kiser led in prayer.

Roll Call: Members of the Executive Committee present were: Drs. J. Homer Guion, W. L. Hand, Jr., George F. Kirkland, Jr., Walter H. Finch, Jr., Pearce Roberts, Jr., S. H. Isenhower, L. B. Peeler, and C. W. Poindexter.

Members of the Annual Session Committee present were: E. U. Austin, General Chairman and Program Chairman; T. G. Collins (Exhibits); R. Bruce Warlick (Entertainment); R. L. Earp (Scientific Exhibits); J. Donald Kiser (Publicity); C. A. Jarrett (Arrangements); F. H. Stone (Hospitality); Paul A. Stroup, Jr. (Clinic).

Others present were: Drs. B. B. Sapp, Jr., L. D. Herring, and Robert H. Gainey.

Staff members present were: Mr. Andrew M. Cunningham, Executive Secretary; and Miss Mira Riddle, Central Office Secretary.

Remarks by President: Dr. Guion thanked everyone for their interest and attendance. He introduced Mr. Demont Roseman, Jr., Public Information Officer, UNC Division of Health Affairs, who has handled the press releases for the last several Annual Sessions, and will perform this duty for the 1967 Annual Session.

Annual Session Reports: Annual Session Committee members present submitted reports.

Reports in absentia were submitted by: Luther H. Butler (Necrology); and Robert H. Watson (Sports).

Dr. Austin, General Chairman, expressed his appreciation to members of the Annual Session Committee for their reports.

Executive Session: The Committee then went into executive session, with Dr. Hand presiding.

Approval of Reports: Dr. Roberts moved that the report of the Arrangements Committee be approved. Seconded by Dr. Peeler. Motion carried. Dr. Roberts moved that \$3,475.00 be allocated to this committee. Seconded by Dr. Guion. Motion carried.

Dr. Finch moved that the report of the Exhibits Committee be approved. Seconded by Dr. Roberts. Motion carried. Dr. Guion moved that \$2,050.00 be allocated to this committee. Seconded by Dr. Peeler. Motion carried.

Dr. Kirkland moved that the report of the Entertainment Committee be approved. Seconded by Dr. Roberts. Motion carried. Dr. Kirkland moved that \$1,190.00 be allocated to this committee. Seconded by Dr. Guion. Motion carried.

Dr. Guion moved that the report of the Hospitality Committee be approved. Seconded by Dr. Roberts. Motion carried. Dr. Kirkland moved that \$100.00 be allocated to this committee. Seconded by Dr. Guion. Motion carried.

Dr. Roberts moved that the report of the Necrology Committee be approved. Seconded by Dr. Isenhower. Motion carried. Dr. Roberts moved that \$35.00 be allocated to this committee. Seconded by Dr. Guion. Motion carried.

Dr. Kirkland moved that the report of the Program Committee be approved. Seconded by Dr. Guion. Motion carried. Dr. Isenhower moved that \$2,025.00 be allocated to this committee. Seconded by Dr. Roberts. Motion carried.

Dr. Guion moved that the report of the Publicity Committee be approved. Seconded by Dr. Poindexter. Motion carried. Dr. Guion moved

that \$245.00 be allocated to this committee. Seconded by Dr. Isenhower. Motion carried.

Dr. Roberts moved that the report of the Clinic Committee be approved. Seconded by Dr. Kirkland. Motion carried. Dr. Roberts moved that \$25.00 be allocated to this committee. Seconded by Dr. Kirkland. Motion carried.

Dr. Peeler moved that the report of the Sports Committee be approved. Seconded by Dr. Isenhower. Motion carried. Dr. Peeler moved that \$50.00 be allocated to this committee. Seconded by Dr. Guion. Motion carried.

Dr. Roberts moved that \$10.00 be allocated to the Visual Education Committee. Seconded by Dr. Guion. Motion carried.

Dr. Finch moved that the report of the House of Delegates be approved. Seconded by Dr. Isenhower. Motion carried. Dr. Roberts moved that \$225.00 be allocated to the House. Seconded by Dr. Kirkland. Motion carried.

Dr. Kirkland moved that a Contingency Fund of \$300.00 be allocated to be used at the discretion of the President. Seconded by Dr. Isenhower. Motion carried.

No report or request for funds were received from the Monitor Committee.

Dr. Roberts moved that a room or parlor be reserved at the expense of the Society during the Annual Session for small conferences and meetings to be used at the discretion of the President and Speaker of the House. Seconded by Dr. Kirkland. Motion carried.

Total Budget: Dr. Kirkland moved that the total budget of the Annual Session Committee of \$9,730.00 be approved. Seconded by Dr. Guion. Motion carried. A copy of the approved budget for the Annual Session is attached. It was noted that this was \$830.00 in excess of the \$8,900.00 allocation approved June 25, and that this amount will be charged to the Contingency appropriation in the General Fund. This will leave a balance of \$1,095.00 in this account.

Policy on Soft Drink Companies: Dr. Kirkland moved that the policy of restricting soft drink companies exhibiting at all annual sessions to advertising and dispensing beverages of the sugar-free, low calorie type adopted by the Executive Committee September 19, 1965, be rescinded. Seconded by Dr. Guion. Motion carried.

State Agency Endorsed Programs: Dr. Roberts moved that the Legislative Committee with aid of legal counsel be instructed to investigate any restrictions in the General Statutes of North Carolina that prevent free negotiation of methods for dental compensation to recipients of State agency endorsed programs. Seconded by Dr. Poindexter. Motion carried.

Next Regular Meeting: Dr. Poindexter moved that the next regular meeting of the Executive Committee be on Wednesday, May 10, at 9:00 a.m. at an appropriate site to be secured by the Executive Secretary. Seconded by Dr. Isenhower. Motion carried. Dr. Guion informed the Committee, however, that it would probably be necessary to have called meeting of the Committee prior to May 10 to consider proposed bylaws for the dental service corporation.

Thanks: Dr. Hand thanked the Committee members and others present for attending the meeting.

Adjournment: The meeting was adjourned at 12:40 p.m. on motion by Dr. Roberts. Seconded by Dr. Isenhower. Motion carried.

Joint Meeting

EXECUTIVE COMMITTEE

and

LEGISLATIVE COMMITTEE

RALEIGH, NORTH CAROLINA

April 15, 1967

Call to Order: The Executive Committee and the Legislative Committee convened in joint session at the Velvet Cloak Inn, Raleigh, North Carolina on Saturday, April 15, 1967. President J. Homer Guion called the meeting to order at 8:40 p.m.

Roll Call: Members of the Executive Committee present were: Drs. J. Homer Guion, Pearce Roberts, Jr., W. L. Hand, Jr., S. H. Isenhower, Walter H. Finch, Jr., George F. Kirkland, Jr. and Lackey B. Peeler.

Members of the Legislative Committee present were: Drs. Mott P. Blair, chairman; and Paul E. Jones.

Members of the North Carolina State Board of Dental Examiners present were: Drs. Wade H. Breeland, president; C. C. Diercks, secretary-treasurer; R. B. Barden, Freeman C. Slaughter and Guy R. Willis.

Representatives of the North Carolina Dental Hygienists Association present were: Mrs. Sheila A. Wright, president; Mrs. Carolyn C. Williams, president-elect; Miss Alberta Beat and Mrs. Margaret Cain.

Staff members present were: Andrew M. Cunningham, executive secretary and Mira D. Riddle, central office secretary.

Others present were: Drs. Z. L. Edwards and Clyde E. Minges.

Purpose of Meeting: Dr. Guion stated that the meeting had been called to give the Board of Dental Examiners an opportunity to explain the content of amendments to the Dental Practice Act submitted by the Board to the 1967 General Assembly and why the Board considered such amendments were necessary.

Dr. Guion said that he had invited representatives of the North Caro-

lina Dental Hygienists Association to attend, since some of the amendments proposed by the Board pertained to the Dental Hygiene Act.

Amendments Proposed: Dr. Wade H. Breeland, president of the Board stated that the Board had encountered difficulty in successfully instituting disciplinary proceedings against a licensed dentist or dental hygienist. After careful study, the Board had determined that if the Board was to continue to effectively enforce the law governing the practice of dentistry, the General Statutes should be amended to provide that all proceedings relative to revocation or suspension of license, and refusal to issue or renew license be conducted in accordance with Chapter 150 (Uniform Revocation of Licenses).

Dr. Breeland explained that this would involve: (1) deletion of the last three paragraphs of G.S. 90-41; (2) addition of a new section (G.S. 90-41.1); (3) amendment of G.S. 150-9; and amendment of G.S. 90-231.

Dr. Breeland stated that the expense of licensing and renewal of licenses of dental hygienists had increased considerably during the past several years. He pointed out that three new dental hygiene programs had been established in the Community College system of the State which would cause a further increase in this expense in the immediate future.

In order to meet this additional expense the Board concluded G.S. 90-231 (2) should be amended to provide that the fee for renewal of license to practice dental hygiene "shall not exceed twenty-five dollars (\$25.00); which fee shall be annually fixed by the Board." Currently the law provides a fee of five dollars (\$5.00) for this procedure.

Dr. Breeland reported that the Board was also considering an amendment to the General Statutes which would authorize the Board to issue provisional licenses to faculty members of educational institutions under certain conditions. He emphasized that the expansion of educational programs for dentistry and dental auxiliary personnel in this State and shortage of qualified teachers had created a real problem. The Board was of the opinion that if a provisional license could be offered to prospective faculty members it would be an added inducement to them in accepting teaching positions in the State.

In concluding his remarks, Dr. Breeland said that the Board considered all of the amendments of an emergency nature and asked for endorsement of them by the Executive Committee.

Dr. Guion stated the Executive Committee would consider the proposed amendments at its meeting on Sunday, April 16, 1967.

Adjournment: Following full discussion of the amendments, the meeting was adjourned at 9:45 p.m.

W. L. HAND, JR., D.D.S.
Chairman

Read and approved: May 10, 1967.

RALEIGH, NORTH CAROLINA

April 16, 1967

Call to Order: The Executive Committee convened at the Central Office, Raleigh, North Carolina, Sunday, April 16, 1967. Chairman W. L. Hand, Jr. called the meeting to order at 10:10 a.m., and Dr. Isenhower led in prayer.

Roll Call: Members of the Executive Committee present were: Drs. W. L. Hand, Jr., J. Homer Guion, George F. Kirkland, Jr., Walter H. Finch, Jr., L. B. Peeler, S. H. Isenhower and Pearce Roberts, Jr.

Staff members present were: Andrew M. Cunningham, executive secretary, and Mira D. Riddle, central office secretary.

Others present were: Drs. A. Breece Breeland, editor-publisher; Roy L. Lindahl, chairman, Dental Service Corporation Committee; Mott P. Blair,

chairman, Legislative Committee; and J. S. D. Nelson, chairman, Insurance Committee.

Approval of Minutes: Dr. Roberts moved that the minutes of January 7, and 8, 1967 be approved. Seconded by Dr. Peeler. Motion carried.

Group Retirement Program: Dr. J. S. D. Nelson, chairman, Insurance Committee reported that the committee had labored for many months in an effort to provide a group retirement program for the membership as directed by the 1966 House of Delegates. After careful and detailed review of several proposals, the Insurance Committee decided to recommend to the Executive Committee that a group retirement proposal from Financial Service Corporation of America of Atlanta be adopted and offered to the members of the Society.

Dr. Nelson introduced Mr. James E. Willingham, a representative of Financial Corporation of America, who explained the features of the proposal and answered questions by committee members.

Dr. Nelson moved that the group retirement program proposed by Financial Corporation of America and recommended by the Insurance Committee be approved and offered to the members of the Society. Seconded by Dr. Roberts. Motion carried.

Dr. Hand thanked Dr. Nelson for an excellent report and Mr. Willingham for his presentation. It was suggested that letters of appreciation be sent to each of them.

Dental Service Corporation: Dr. Roy L. Lindahl, chairman, Dental Service Corporation Committee submitted a draft of a proposed Constitution and Bylaws for the North Carolina Dental Service Corporation. He explained its provisions in detail and answered questions by committee members concerning it.

Dr. Isenhower moved that the Constitution and Bylaws of the North Carolina Dental Service Corporation as submitted by the Dental Service Corporation Committee be approved. Seconded by Dr. Peeler. Motion carried.

Dr. Lindahl reported that legal counsel had advised that further enabling legislation would be necessary before a dental service corporation could be established and that it would be introduced into the General Assembly within the next two weeks.

Dr. Lindahl recommended that the Society continue its membership in the National Association of Dental Service Plans and explained the advantages of so doing.

Dr. Hand thanked Dr. Lindahl for his fine report. It was suggested that a letter of appreciation be sent to him.

Legislation: Proposed amendments to the Dental Practice Act presented to the Executive Committee the previous evening by the State Board of Dental Examiners were considered.

It was noted that the Board had introduced H.B. 418 and H.B. 419 in the General Assembly which provide that all proceedings relative to revocation or suspension of license and refusal to issue or renew license be conducted in accordance with Chapter 150 (Uniform Revocation of Licenses).

It was also noted that the Board had introduced H.B. 420 in the General Assembly which would provide that Chapter 150 (Uniform Revocation of Licenses) would also apply to licensing of dental hygienists, and the fee for renewal of license to practice dental hygiene shall not exceed \$25.00.

It was further noted that the Board was contemplating legislation to provide for provisional licensing of faculty members of educational institutions under certain conditions.

Dr. Kirkland moved that the Executive Committee approve H.B. 418, H.B. 419, and H.B. 420 and instruct the Legislative Committee to lend its support whenever necessary to secure their ratification by the General Assembly. Seconded by Dr. Finch. Motion carried.

Dr. Isenhower moved that the State Board of Dental Examiners be

asked to defer any changes in the Dental Practice Act which would provide for provisional licenses for faculty members of educational institutions and that the issue be referred to the special committee to study the dental practice act. Seconded by Dr. Guion. Motion carried.

Dr. Blair reported that H.B. 348 had been introduced in the General Assembly which would eliminate all exemptions for jury duty, including exemptions for physicians and dentists. He said that it had been recommended by the Court Reform Commission and that the Medical Society had advised that it would not oppose the legislation.

It was suggested that a letter of appreciation be sent to Dr. Blair for the fine service he was rendering as chairman of the Legislative Committee.

New Central Office: Dr. Walter H. Finch, Jr., chairman, Site of Central Office Committee reported that good progress is being made on the construction of the building which will house the new Central Office. He stated that it is now "closed in" and the paneling and walls are nearing completion. He submitted a cost estimate of the expenses of moving and occupying the new quarters which totalled \$3,942. This, he noted, will leave a balance in the Development Fund of approximately \$800 to take care of equipment and furnishings which are not now anticipated but which may be found to be needed after the move is made. Dr. Guion moved that the report be received for information with the thanks of the Executive Committee. Seconded by Dr. Roberts. Motion carried.

Dr. Finch invited the Executive Committee to inspect the new Central Office following adjournment of the meeting.

It was suggested a letter of appreciation be sent to Dr. Finch.

Honorary Membership: Dr. Isenhower moved that the Executive Committee recommend to the House of Delegates that Honorary Membership be awarded to Dr. Arthur W. Kellner of Hollywood, Florida, Trustee, Fifth District, American Dental Association. Seconded by Dr. Kirkland. Motion carried.

Secretary-Treasurer: A report was received from the Secretary-Treasurer showing the financial condition of the Society as of March 31, 1967, and including a statement on reserve funds, indicating that the Society's unappropriated reserve funds now total \$40,965 which is only 74 per cent of one year's operating expense. The statement recommended that no further appropriations from reserve funds be made until the unappropriated reserve funds equal at least one year's operating expense.

Dr. Roberts moved that the report be received for information and that the Secretary-Treasurer submit specific recommendations for use of reserve funds to the Executive Committee at its next meeting. With the approval of the Executive Committee the recommendations will be submitted to the House of Delegates for approval. Seconded by Dr. Kirkland. Motion carried.

Fee Schedules: Mr. Cunningham reported that the Military and Veterans Affairs Committee met with officials of the Regional Office of the Veterans Administration in Winston-Salem on April 5 and proposed a revised fee schedule for dental services provided under the VA program. Negotiations will continue at another meeting in Pinehurst on May 10.

Mr. Cunningham also reported that the Industrial Commission Committee had recently submitted a revised fee schedule for dental services provided under the Workmen's Compensation Act to the Industrial Commission. To date no action has been taken by the Commission.

He further reported that no action had been taken by the Department of Public Instruction on a revised schedule of fees for dental services rendered in the School Health Program, which was proposed by the School Health Committee last October. He stated that on March 15, he and Dr. Glenn L. Hooper, chairman, School Health Committee met with Dr. Charles F. Carroll, Superintendent of Public Instruction to discuss

the matter. Dr. Carroll stated that the Governor had instructed Mr. Ed Rankin, Director, Department of Administration, to establish a commission to review all fee schedules for health services rendered State agencies and recommend one fee schedule for health services rendered all State agencies. Dr. Carroll indicated that pending action by the proposed commission, he would take no further action on the revised fee schedule proposed by the Society for the School Health Program.

Communications: The following communications were received:

A copy of a letter dated April 7, 1967 from the ADA Bureau of Membership Records to Dr. Arthur W. Kellner, Trustee, Fifth District, informing him that an application for Associate Membership had been received from Dr. James J. Crawford of the UNC School of Dentistry faculty. The application indicated Dr. Crawford was a bacteriologist and not a dentist.

Mr. Cunningham was instructed to inform Dr. Kellner that the Society had no objection to the ADA accepting Dr. Crawford as an Associate Member.

A letter from Dr. Harold Hillenbrand, Secretary, American Dental Association, to Dr. Guion dated February 22, 1967 informing him that the Society and its components have eliminated every possible cause for a charge of discrimination in membership requirements.

A copy of a letter from Northwestern National Life Insurance Company to J. Slade Crumpton, dated April 10, 1967, permitting the enrollment of members without medical examination, in the Society's group life insurance program during the 111th Annual Session May 10-14.

President's Comments: Dr. Guion made the following announcements:

The Governor has been requested to appoint a dentist to the planning council to be established in North Carolina under the Comprehensive Health Planning and Public Health Services Amendments of 1966.

The following have been appointed to a Task Force on Dentistry by the Regional Medical Program: Drs. James W. Bawden, chairman; Bennie D. Barker, Donald W. Warren, W. Philip Webster, Edward U. Austin, Walter H. Finch, Jr., E. A. Pearson, Jr., and Mr. Andrew M. Cunningham.

The following have been appointed to a State Health Planning Committee: Drs. E. A. Pearson, Jr., chairman; Edward U. Austin, Joseph M. Johnson, Bennie D. Barker, Karl F. Ehrlich, John T. Hughes, J. A. Menius and Wade H. Breeland.

In response to a request from the American Fund for Dental Education, its annual campaign in May has been given publicity in the *Newsletter* and the *JOURNAL*.

A paper explaining in detail the limitation on coverage of dental services under medicare has been received from the Department of Health, Education and Welfare, and the information will be distributed to the membership in the *Newsletter*.

A permanent golf trophy for the annual Golf Tournament has been provided by Pelton & Crane Company. Replicas of the trophy will be awarded to winners each year.

Dr. Guion invited the members of the Executive Committee to a social hour in the President's Suite at 5:30 p.m. on Wednesday, May 10, during the 111th Annual Session, followed by dinner in the Crystal Room.

Next Meeting: The next meeting of the Executive Committee will be held Wednesday, May 10 in the Crystal Room of The Carolina in Pinehurst at 9:00 a.m.

Accommodations at The Carolina for Tuesday night, May 9, will be available to members of the Executive Committee.

Adjournment: On motion by Dr. Kirkland, seconded by Dr. Isenhower and duly carried the meeting was adjourned at 1:00 p.m.

W. L. HAND, JR., D.D.S.
Chairman

Read and approved: May 10, 1967.

PINEHURST, NORTH CAROLINA

May 10, 1967

Call to Order: The Executive Committee convened in the Crystal Room of The Carolina, Pinehurst, North Carolina, Wednesday, May 10, 1967. Dr. W. L. Hand, Jr., Chairman, called the meeting to order at 9:00 a.m. Dr. Walter H. Finch, Jr. led in prayer.

Roll Call: Committee members present were: Drs. J. Homer Guion, W. L. Hand, Jr., George F. Kirkland, Jr., Walter H. Finch, Jr., C. W. Poindexter, S. H. Isenhower, L. B. Peeler and Pearce Roberts, Jr.

Other present were: Drs. Ralph D. Coffey and Frank G. Atwater.

Introduction of New Chairman: Dr. Kirkland introduced Dr. Frank G. Atwater who will succeed Dr. Hand as Chairman of the Executive Committee during the next administration.

Approval of Minutes: Dr. Finch moved that the minutes of April 1 and 16, 1967 be approved as corrected. Seconded by Dr. Guion. Motion carried.

Secretary-Treasurer: The financial report of April 30, 1967, was presented by Dr. Poindexter. Dr. Guion moved that it be received for information. Seconded by Dr. Kirkland. Motion carried.

Reserve Funds: Dr. Guion moved that the following resolution be submitted to the House of Delegates:

"Resolved, that until the unappropriated reserve in the General Fund equals the operating expenses for one year, no further appropriation be made from Reserve Funds, except in case of an emergency."
Seconded by Dr. Kirkland. Motion carried.

New Central Office: Dr. Finch reported that construction of the new Central Office was proceeding satisfactorily and that it would be ready for occupancy May 26.

Dr. Guion thanked Dr. Finch and the members of his committee and commended them for their leadership in providing new quarters for the Central Office.

Transfer of Funds: Dr. Guion moved that a sum not to exceed \$4,000 be appropriated from the General Fund to the Development Fund to underwrite the cost incidental to the move to the new Central Office to include moving expense, necessary millwork, office furniture and equipment, and installation of telephone equipment and carpet. Seconded by Dr. Kirkland. Motion carried.

Legislation: It was noted that H.B. 418, H.B. 419 and H.B. 420 which were introduced by the State Board of Dental Examiners and endorsed by the Executive Committee on April 16, had been reported favorably out of the House committee.

Dr. Kirkland suggested that in order to keep the membership better informed on the work of the State Board of Dental Examiners that the Board be requested to furnish a copy of its annual report to the Governor for publication in the JOURNAL.

Committee Structure: Dr. Coffey presented a report from the special committee to study the committee structure of the Society. Dr. Roberts moved that the report be received for information and the following resolution be submitted to the House of Delegates:

"Resolved, that the House of Delegates direct the President to appoint a special committee to work with the Constitution and Bylaws Committee to formulate desired changes in the committee structure of the Society and present these proposed changes along with appropriate suggestions for necessary revisions of the Constitution and Bylaws to the delegates at the earliest possible time, not later than 90 days before the 1968 meeting of the House of Delegates."

Seconded by Dr. Isenhower. Motion carried.

Contribution to AFDE: Dr. Roberts moved that the Society contribute \$100 to the American Fund for Dental Education and that individual members be encouraged to contribute to the Fund. Seconded by Dr. Guion. Motion carried.

Commendations: Dr. Guion thanked the members of the Executive Committee for their faithful service during the past year. He noted that Dr. Hand, Dr. Finch, and Dr. Roberts were completing their terms as members of the committee.

Adjournment: On motion by Dr. Poindexter, seconded by Dr. Peeler and duly carried the meeting was adjourned at 10:30 a.m.

C. W. POINDEXTER, D.D.S.
Secretary-Treasurer

Read and approved: August 5, 1967.

ANNUAL SESSION COMMITTEE

General Chairman—EDWARD U. AUSTIN

Arrangements—C. A. JARRETT

Clinic—P. A. STROUP, JR.

Entertainment—R. B. WARLICK

Banquet—C. R. VANDERVOORT

Reception—W. HARRELL JOHNSON

Dance—J. P. HALE

Exhibits—T. G. COLLINS

Scientific Exhibits—R. L. EARP

Hospitality—F. H. STONE

Monitor—W. A. CURRENT

Necrology—L. H. BUTLER

Program—E. U. AUSTIN

Publicity—J. D. KISER

Sports—R. H. WATSON

Visual Education—F. G. HASTY

Meetings: The Annual Session Committee met January 7, 1967, at The Carolina, in Pinehurst. All members of the Annual Session Committee were present or submitted reports by mail. On January 8, 1967, the reports were presented to the Executive Committee.

Responsibility: The General Chairman has endeavored to develop a program format and to co-ordinate the activities of the Annual Session Committee for fulfillment of the program format. He has acted as a liaison between the President and the Annual Session Committee.

Arrangements: Primarily through the fine efforts of the Executive Secretary's office, the responsibilities of the Arrangements Committee have been completed at this date. Arrangements for assigning space for the various meetings and allied organizations have been made. Properties required by the essayists will be secured, employment of a projectionist and stenotypist has been completed, and the needed signs will be provided. The hotel has been informed of our needs for sound systems and coffee breaks. Registration supplies, registrars, and the printing of hand program have been obtained.

An appropriation of \$3,475 has been approved.

Clinics: The Clinic Committee has arranged thirty-one (31) table clinics to be presented in Pinehurst. All clinicians will be notified prior to the Annual Session of the date, place, and time the table clinics will be presented.

An appropriation of \$25 has been approved.

Sports: No written report received.

An appropriation of \$50 has been approved.

Necrology: A Necrology Service will be held at the Annual Meeting in Pinehurst. The only expense will be for flowers for this service.

An appropriation of \$35 has been approved.

Visual Education: This committee will be responsible for all visual education films to be shown at the Annual Session. The facilities of the new Cardinal Ballroom include a well-equipped projection booth which requires the services of a professional projectionist. The Carolina will provide this service.

An appropriation of \$10 has been approved.

Monitor: No written report received.

No appropriation requested.

Publicity: Your Publicity Chairman met with the Annual Session Committee in Pinehurst, January 7 and 8 and presented the following appropriation request to the Executive Committee and it was approved:

Press:

Honorarium	\$125.00
Travel and Lodging.....	95.00
Photography:	25.00
	<u>\$245.00</u>

In order to fulfill its responsibility in publicizing the Annual Session, Mr. Demont Roseman, Jr., Public Information Officer, Division of Health Affairs at UNC has been employed for the third successive year to prepare pre-convention releases and release information to the wire services during the meeting in Pinehurst. Mr. Roseman is an experienced reporter and has rendered excellent service to the Society in this capacity.

Approximately 5 or 6 releases will be distributed to news, radio, and television media between the middle of April and convention time. In addition, a series of "home town" releases will be sent out during this period highlighting the part individual dentists will play in the Annual Session program.

Commercial Exhibits: Construction of a brand new ballroom at The Carolina with an exhibition hall on the lower level will permit the scientific sessions and the commercial exhibits to be located in the same building with easy access between them. A new floor plan for the exhibition hall provides 84 booths, and will produce a total revenue of \$10,050, an increase of \$1,840 over last year.

The policy of restricting soft drink companies who exhibit to advertising and dispensing only beverages of the sugar-free, low calorie type was rescinded by the Executive Committee January 8, 1967.

Shepard Decorating Company of Atlanta has been retained to set up and decorate the booths at \$9.25 each. The Carolina will charge \$600 for the use of the exhibition hall.

A social hour for exhibitors will be held on Thursday, May 11, at 5:00 p.m. in the Pine Room.

Exhibitors will be permitted to apply for accommodations in The Carolina.

The exhibits will be open on Wednesday, May 10, from 2:00 to 6:00 p.m., and on Thursday and Friday, May 11 and 12, from 9:00 a.m. to 5:00 p.m. They will not be open on Saturday, May 13.

Door prizes will be awarded at the Annual Banquet, Saturday, May 13, at 7:00 p.m.

An appropriation of \$2,050 has been approved.

Scientific Exhibits: Sixteen organizations were invited to present scientific exhibits. Eleven accepted. They are:

1. American Cancer Society
 2. Dairy Council Units of N. C.
 3. Dental Health Division, N. C. State Board of Health
 4. Junior ADHA of University of North Carolina
 5. Junior ADHA of Central Piedmont Community College
 6. North Carolina Dental Assistants Association
 7. North Carolina Heart Association
 8. U.N.C. School of Dentistry
 9. Wayne Technical Institute
 10. Durham Technical Institute
 11. Drs. Warren, Wood, Smiley, and Webster, U.N.C. School of Dentistry
- The exhibits will be displayed in the South Room and the lobby of the Cardinal Ballroom.

An appropriation of \$25 has been approved.

Program: The Program Committee has been quite active. An excellent and informative program has been arranged. The clinicians are as follows: Dr. Robert V. Walker, University of Texas, Southwest Medical School, on "Research on Oral Surgery"; Dr. Merle L. Hale, University of Iowa, on "Dental Therapeutics—An Integral Part of Total Patient Care"; Dr. Faustin N. Weber, University of Tennessee, "Orthodontics for the Non-Orthodontist"; Dr. Frank D. Grossman, of the U. S. Navy, on "Topical Fluorides—Burst of Hope"; Dr. Jacob Koomen, Director, North Carolina State Board of Health; Dr. James Bawden, Dean, U.N.C. School of Dentistry, on the "Status and Progress of Dental Education in North Carolina"; Dr. William D. Strickland and Dr. Benjamin R. Baker, of the U.N.C. School of Dentistry, on "Effective Utilization of Dental Assistants in the Operatory."

Each of these men has been offered a set amount to appear on our program. The amounts cover their transportation, hotel expenses, and an honorarium. The amounts are as follows: Dr. Walker, \$475; Dr. Weber, \$425; Dr. Baker, \$100; Dr. Strickland, \$100; Dr. Hale, \$475; Dr. Grossman, \$350, making a total of \$1,925. In addition, Dr. Koomen and Dr. Bawden will be given a gift of silver, appropriately engraved.

The Chairman acknowledges his sincere thanks for the work and help of the members of the Committee: Drs. Ralph D. Coffey, Bennie D. Barker, M. W. Aldridge, and E. D. Baker. He also acknowledges the help from our president, Dr. Homer Guion, and our executive secretary, Mr. A. M. Cunningham. Without the help of these men such an outstanding program would not be possible.

An appropriation of \$2,025 has been approved.

Hospitality: The Chairman of the Hospitality Committee met with the Annual Session Committee at Pinehurst, January 8, 1967. At that time a budget of \$100 was requested for the Hospitality Committee expenses, and it was approved.

Provisions were made for a Hospitality Room during the Annual Convention. Reservation of this room will be made by the Executive Secretary.

There will be no further activity of this committee before the Annual Convention in May.

An appropriation of \$100 was approved.

Entertainment: No written report received.

The Chairman of the Dance Committee reports that Roy Roach's nine-piece orchestra has been engaged to play for our dance on May 13, 1967. The cost is \$225 and the hours are from 9:00 to 1:00. A meeting with the full Entertainment Committee is planned to work out final details.

An appropriation of \$1,190 has been approved.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

CANCER COMMITTEEBENNY W. MARTIN, *Chairman*C. DEAN COUCH, JR.
JOHN F. LEMLERGROVER C. HUNTER, JR.
GROVER W. SMITH

Meetings: No meetings were held.

Commission on Cancer: At the meeting of the Third Commission on The Cause and Control of Cancer in North Carolina, the following specific recommendations were made:

1. A more realistic state appropriation be made for the care of indigent cancer patients.

2. Further study be made of the utilization of local facilities, other than acute hospital beds, for the improvement of patient care.

3. State Vocational Rehabilitation policies be revised to allow help for cancer patients with reasonable prognosis.

4. A revision of Medical Care Commission policies be made to approve extending facilities and equipment requests for the local treatment of cancer patients, where justified.

5. (a) Legislative steps be presented to facilitate the formation of a central cancer registry.

(b) All presently available means be used to improve the reporting of cancer patients to the Bureau of Vital Statistics of the State Board of Health.

6. Further study aimed toward co-ordination of all agencies concerned with cancer.

7. Present programs of public and professional education and information be continued and expanded.

8. Further study be made of existing agencies and facilities in the State for the treatment and control of cancer.

9. This Commission be made a permanent Commission with adequate funds appropriated for its function.

Regional Medical Program: The Association for the North Carolina Regional Medical Program has requested that one representative from the North Carolina Dental Society be on the Advisory Council. The purpose of this Association is to develop regional medical programs and promote research and training in the fields of heart disease, cancer, stroke, and related diseases.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

CHILDREN'S DENTAL HEALTH COMMITTEERICHARD S. HUNTER, *Chairman*DUNCAN M. GETSINGER
RICHARD F. HUNT, JR.CECIL A. PLESS, JR.
CARLTON V. WINTER

Meetings: No formal meetings were held.

Principal Function: Efforts of the committee centered around conducting National Children's Dental Health Week in North Carolina, February 5-11, 1967.

Results of the Efforts: Governor Dan K. Moore signed a statement designating February 5-11, 1967, as Children's Dental Health Week in North Carolina. Photographs were taken of the event and were utilized by ten (10) newspapers in the State.

Thirty-five (35) National Children's Dental Health Week kits which were furnished by the American Dental Association were distributed to local groups. Three thousand five hundred and seven (3,507) posters proclaiming National Children's Dental Health Week were displayed in

school rooms and dental offices throughout the State. Fifty-three (53) outdoor billboard posters were utilized.

Twenty-eight (28) General Electric automatic toothbrushes were made available to local groups to use as they saw fit for various dental contests. Fourteen (14) Water Piks were made available similarly.

Action by House of Delegates: Received for information May 12, 1967.

CONTINUING EDUCATION COMMITTEE

GUY R. WILLIS, *Chairman*

BENNIE D. BARKER

DAVID H. FRESHWATER

KEITH L. BENTLEY

FREDERICK G. HASTY

GLENN F. BITLER

ROBERT W. HOLMES

WADE H. BREELAND

WALTER T. McFALL, JR.

FRANK H. DANIEL

LACKEY B. PEELER

JAMES A. PRIVETTE

Purpose: This special committee was appointed by President J. Homer Guion to study, evaluate and, if possible, to implement a post-graduate level of continuing education for the practicing dentists of North Carolina.

Meeting: An initial meeting was held at the UNC School of Dentistry on January 21, 1967. Present at the meeting were Drs. Barker, Bentley, Bitler, Breeland, Holmes, McFall, Peeler, Privette and Willis.

Many facets of continuing education were discussed, including: post-graduate courses at the dental school, lectures of dental groups throughout the State, dental publications, and other traditional means, as well as newer innovations, such as state-owned television.

Dr. Barker discussed a grant proposal to the U. S. Public Health Service requesting funds for an in-depth survey of the continuing education needs in North Carolina. We hope that eventually this proposal will bear fruit.

A motion was made, seconded, and passed that the suggestion be made to the incoming administration of the North Carolina Dental Society that the present committee be continued intact for another year. An appropriate resolution is presented with this report.

Resolution

1. **Resolved**, that the incoming administration consider retaining the Continuing Education Committee as now constituted for completion of its assigned objective.

Action by House of Delegates: Adopted May 12, 1967.

DENTAL ASSISTANTS COMMITTEEWILLIAM H. OLIVER, *Chairman*T. S. FLEMING
O. J. FREUNDG. F. MCBRAYER
CHARLES H. SUGG

Meetings: This Committee has not been called upon to function this year. No meetings were held.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

DENTAL CARE FOR THE AGED COMMITTEEHENRY O. LINEBERGER, JR., *Chairman*BENNIE D. BARKER
L. A. CAMERON
A. P. CLINE, JR.CHARLES S. COOKE
MILO J. HOFFMAN
JOHN T. HUGHES

CLYDE L. TAYLOR

Meetings: The Committee held no formal meetings this year.

Activities: As the function of this Committee is to work with the North Carolina Welfare Department, we felt that the change in the department head made it advisable to wait for the changes in the Dental Care for the Aged program.

However, there were letters of congratulation and personal telephone calls to the new Commissioner.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

DENTAL EDUCATION COMMITTEECLEON W. SANDERS, *Chairman* (1969)

GEORGE S. ALEXANDER (1968) (Deceased)	RALPH D. COFFEY (1969)
E. D. BAKER (1970)	Z. L. EDWARDS, JR. (1967)
R. B. BARDEN (1971)	S. P. GAY (1968)
F. A. BUCHANAN (1971)	ROY L. LINDAHL (1967)
RILEY E. SPOON, JR. (1970)	

Meetings: The Committee has not held a formal meeting during the past year.

Activities: As individuals, each member has been in contact with members of the General Assembly from his area, asking for support in securing an additional appropriation of \$1,100,000 to restore the fourth floor to the new dental educational wing. Two years ago the General Assembly approved an appropriation of nearly \$4 million for the dental education building. Since that date construction costs have risen about one percent per month for twelve months. Therefore, bids could not be let due to the shortage of this amount. It is expected by the time of our May meeting the necessary funds will have been approved by the General Assembly and construction will get underway soon thereafter.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

COUNCIL ON DENTAL HEALTH

FRANCIS A. BUCHANAN, *Chairman* (1970)

FRANK G. ATWATER (1967)

W. H. PRICE (1969)

E. A. PEARSON, JR. (1968)

H. K. THOMPSON (1971)

Correspondence: All members of the Council on Dental Health have been kept informed by telephone and mail of all assignments of the Council.

Assignments: As in years past, the Council has been concerned with the following projects: Dental Recruiting and Careers, U.N.C. Dental Student Loan Funds, Head Start Programs, and a new assignment by President Guion, the ADA Children's Health Program.

Dental Recruiting and Careers: Since 1964, four "Career Days" have been held at the U.N.C. School of Dentistry for prospective dental students, dental hygiene students, and dental assistants. Based on a report by Dr. R. J. Shankle, Chairman of Admissions at the U.N.C. School of Dentistry, an average of 100 students have attended Dental Career Day each year. In answer to a questionnaire submitted to each attending student, over 50 percent said that they were influenced by attending Career Day. Over 90 percent said that they would like to attend a Career Day in the future. In the coming years the Committee on Admissions will be able to question students entering dental school on how much they were influenced by this Career Day.

U.N.C. Dental Student Loan Funds: In 1965 the House of Delegates adopted a resolution which authorized the contribution of one-half ($\frac{1}{2}$) of the surplus funds of the North Carolina Dental Society at the end of each fiscal year, for three years, to the U.N.C. Dental Student Loan Fund. This is to be matched by the Federal Government on a 9 to 1 basis. A very comprehensive report is attached showing how these funds are used, how they will continue to be used, and how the Society can continue to be helpful in this area. This report was made by the Dental Student Aid Committee to the Dental Foundation of North Carolina. With a 50 percent increase in undergraduate dental enrollment to begin in 1970, it is quite evident that this contribution by the Society will increase in importance.

Publicly Funded Programs: At the suggestion of President Guion, and with the help of Dr. E. A. Pearson, Jr., a member of this Council, the Council prepared a statement of "Suggested Procedures for Publicly Funded Dental Care Programs." This is a brief outline of suggested procedures to be followed by both the governmental agencies and the dentists of North Carolina in setting up dental care programs under Head Start or ESEA Funds. This was submitted to the District Officers Conference in December, 1966, at which time some important suggestions were made. On January 7, 1967, the Executive Committee approved these procedures and they were mailed to each dentist in the Society, and to each governmental agency in North Carolina which might establish a publicly funded dental care program.

ADA Dental Health Program: On February 14, 1967, President Guion asked the Council to submit a resolution to the House of Delegates on the ADA Children's Dental Health Program and the establishment of pilot programs in North Carolina. An appropriate resolution is submitted at the end of this report.

Science Fairs: On the recommendation of the Council, a contribution of \$100 was made by the Society to the North Carolina Academy of Science to support the Science Fair Movement conducted in secondary schools throughout the State. High school students are encouraged to prepare scientific exhibits, to include exhibits on dentistry. The Council feels this is a worthwhile project, and one means of interesting qualified young people in a career in dentistry. Dentists are urged to encourage young people to prepare exhibits on dental subjects, and to assist them in the necessary research.

Division of Dental Health: For your information there is attached to this report a Summary Report of the Division of Dental Health of the North Carolina State Board of Health, prepared by Dr. E. A. Pearson, Jr., Director. The Council commends Dr. Pearson and the members of his staff for their efforts in behalf of dentistry in this State, and its accomplishments in the fields of fluoridation, research, education, diagnosis, and treatment.

Resolutions

1. **Resolved**, that the NCDS continue to support Career Day at the University, and urge students in high school and college to attend.

2. **Resolved**, that the NCD Society contribute one-half ($\frac{1}{2}$) of all surplus operating funds at the end of each fiscal year to the Dental Student Loan Fund of the University of North Carolina at Chapel Hill.

3. **Resolved**, that the North Carolina Dental Society support the efforts of the American Dental Association to develop a National Dental Health Program for Children in the interest of advancing the dental health of the children and youth of this State and the nation, and be it further

Resolved, that the North Carolina Dental Society, in co-operation with the Dental Health Division of the North Carolina State Board of Health and the School of Dentistry of the University of North Carolina, invite the American Dental Association and the Division of Dental Health of the United States Public Health Service (which will likely administer the National Dental Health Program for Children) to select the State of North Carolina as a site for a pilot program.

Action by House of Delegates: Resolution 1 adopted May 12, 1967. Resolution 2. The following resolution was substituted for Resolution 2 and adopted May 12, 1967.

Resolved, that the State Planning Committee for Dentistry make an in depth study of the needs and means of supporting student aid for students of dentistry at the undergraduate and graduate levels.

Resolution 3 adopted May 12, 1967.

SUMMARY REPORT DIVISION OF DENTAL HEALTH NORTH CAROLINA STATE BOARD OF HEALTH

E. A. PEARSON, JR., *Director*

Fluoridation: The Division of Dental Health has implemented in large measure, the two resolutions on "Fluoridation of Communal Water Supplies," adopted by the House of Delegates on May 6, 1966.

In June, 1966, a state-wide conference on fluoridation was held in Greensboro to bring together representatives of many groups (public health, dentists, physicians, water works personnel, and community leaders) interested in the technical, professional, community, educational, and organizational aspects of fluoridation. The recommendations

from this conference urged the early development and implementation of a state-wide fluoridation program, to aid more towns in providing the benefits of fluoridation to their citizens.

Miss Becky Bowden, Health Educator, was employed by the division in September and is devoting full-time to assisting communities in obtaining fluoridation of their water supplies. It was not possible to employ an engineer as endorsed by the House of Delegates.

During 1966, two towns began fluoridating; six town boards approved fluoridation and will begin fluoridating later this year. During January, 1967, the Greensboro City Council approved fluoridation of its water supply and it is estimated that fluoridation will begin in April or May of this year. Many other towns in the State are beginning studies on the feasibility of adjusting the fluoride content of their water supplies. Technical and engineering problems may prevent some water supplies from being fluoridated without extensive renovation of their water plants.

As of February 15, 1967, 70 water systems in North Carolina provided fluoridated water to 88 communities with a combined population of 1,508,100. This represents 65.4 percent of the urban population served by public water supplies.

Research: A study to determine the effectiveness of fluoride tablets in preventing dental decay when administered daily to rural school children is in its fourth year. Approximately 7,000 children are participating; 3,000 reside in North Carolina. An interim report on data from this study may be available during 1967.

A study was started in the spring of 1966 in three counties to test the effectiveness of two topical fluoride solutions in a non-fluoridated area. Approximately 2,000 third-grade children are participating in this project.

A study in progress in Mecklenburg County is designed to test the effectiveness of topical fluorides on the teeth of children living in a fluoride area. This study is being conducted by Doctors Barry Miller and Luby T. Sherrill.

The Eastman Dental Dispensary is conducting an investigation of "Geographic Differences In Dental Caries Prevalence in the United States and Their Relationship To Differences in Trace Element Levels in Soils, Foods, and Water" in Asheboro City schools.

Education, Diagnosis, and Treatment: For the fiscal year ending June, 1967, the division has maintained an average of 21 staff dentists. This staff provided 13,000 topical fluoride applications, 17,000 prophylaxes, 19,000 fillings, and 24,000 extractions during 26,000 patient visits. Three thousand classroom lectures on dental health were given by staff dentists. The division's puppet show (Little Jack) played to 107,000 elementary school children in 403 schools.

Dental health seminars were conducted for classroom teachers in fourteen county school systems. Short courses in preventive dentistry, public health dentistry, and public health administration were provided to staff dentists of the division through the continuing education programs of the School of Public Health, University of North Carolina at Chapel Hill. The Division of Dental Health was awarded a five-year grant for the support of a dental public health residency program. By June, 1967, two residents will have completed their training.

Requests for dental public health programs from counties far exceeded the supply of available public health dentists who could provide these programs. The division was able to provide some services to 44 counties during the year. The dental needs of the under-privileged children in these 44 counties were only partially met. In an attempt to meet more of the demands for dental services, the division, co-operating with the North Carolina Board of Dental Examiners, inaugurated a program using senior dental students to provide dental care for under-privileged children (Headstart, ESEA, etc.). This program was under the direct supervision of a staff dentist from the division. It is believed this program is worthwhile because it benefits both the children and the dental students. The children receive services not normally available, and the students

have an opportunity to see first-hand some of the health problems and needs of a community.

Future Planning: In recent years, a phenomenal growth in demands for dental care programs for under-privileged persons has occurred. Designing and implementing programs to meet these needs has challenged dentistry as never before. Demands for dental services are now coming from agencies such as education, welfare, and community action programs in addition to public health agencies.

Future demands will increase even more rapidly as programs are developed to implement the National Children's Dental Health Program of the American Dental Association and Title XIX of the Medicare Act. In view of the many state, federal, voluntary, and private organizations seeking to provide dental health services in their programs, it is necessary that an inventory be taken of our professional resources, opportunities, and potentials, to determine if these are being used in the most effective manner. Our President, recognizing these needs, has recently designated a committee to begin drafting a plan for dentistry in North Carolina which will take into consideration every facet relating to dentistry.

REPORT TO THE BOARD OF DIRECTORS OF THE DENTAL FOUNDATION OF NORTH CAROLINA FROM THE DENTAL STUDENT AID COMMITTEE DECEMBER, 1966

Dean Bawden, realizing the concern which you and other dentists in the State have had regarding financial aid for dental students, and because of the introduction this year of the federal Health Professions Scholarship Program, did in August establish a Student Aid Committee in the School of Dentistry.

It immediately became the function of this Committee to review all applications for financial aid from students in the School of Dentistry, undergraduate, graduate, and hygiene. General processing of student applications remains the responsibility of the Student Aid Office (campus), and disbursement and collection of funds is still the responsibility of the Student Loan Office (campus). Thus, the Dental Student Aid Committee functions to review applications, confer with applicants and attempt to establish their true need, award scholarships and recommend loans, and co-ordinate these activities with those of outside agencies which provide financial aid to dental students, such as the North Carolina Medical Care Commission, Methodist and Presbyterian Student Loan Programs, and others. It might be appropriate to add that the scholarship awards and/or loan recommendations must be made in keeping with the University and/or federal policies and regulations which apply. A logistical monster, this program should realize marked improvements during this coming year due to better organization at all levels, and participation in the College Scholarship Service. This service will provide a "Parent's Confidential Statement" which, when computerized, determines the amount of financial resources which should be available to the student from his family.

What makes all this machinery necessary? During the academic year 1965-66, some 300 students (about one-fourth of the student body) received financial assistance in the amount of approximately one and three-quarter million dollars. Thus the Student Aid Program is 'big business.'

With this mechanism for the awarding, disbursement and collection of funds, the remaining problem is the source of sufficient funds to meet increasing needs. Within the framework of the University Student Aid Program, funds are available to students in the School of Dentistry from three primary sources.

First, though somewhat insignificant when compared to the total aid program, is the UNC Scholarship Fund. For dentistry this amounts to \$2,500.00 per year to be awarded on the basis of merit and need.

The second source of funds is the Health Professions Scholarship Pro-

gram. Under the provisions of this federal program, students in accredited schools of Dentistry, Medicine, Optometry, Pharmacy, and Podiatry may be eligible for scholarships in amounts up to \$2,500.00 per year. These awards are made to each class in participating schools, the amount based on the number of students in the class. With only the Freshman class participating, the award to our school for this year was \$10,000.00. At the end of four years with all classes participating, the total amount of the Health Professions Award will exceed \$40,000.00. It should be understood that scholarships under this program are awarded strictly on the basis of need, not merit, thus, they might more appropriately be termed grants-in-aid.

The third and most important source of aid is the student loan program. At present there are fifty-six (56) loan funds handled by the University amounting to \$890,656 (unmatched). Of these sixteen (16) are dental funds which amount to \$27,700, or 3 percent of the total. Does dentistry get its share? In 1965-66 the University loaned \$903,578 of which \$128,000, or 14 percent of the total, went to dental students, almost five times the total of dental loan funds. But, if this \$27,000 of dental funds were matched on a 9 to 1 basis, we would have had about \$250,000, almost twice our need. You must understand that each loan dollar the University has is not matched under the provisions of the National Defense Education Act. The Federal Government establishes a "level of lending" or ceiling, if you will, on the amount of funds which a given institution can receive through the National Defense Education Act during any given academic year. Does this mean that the several loan funds established through the Dental Foundation are unimportant? Absolutely not! These are, in fact, the funds which are usually used to provide the principal for 9 to 1 Federal matching to establish UNC's National Defense Loan Fund. By such use they free the larger loan funds for direct lending.

One might then question the continued need for loan funds. Certainly student needs will be partially met through the Health Professions Scholarship Program. However, with increased enrollment, total need will far exceed our past maximums. In addition to increased undergraduate enrollment, the number of graduate students will increase four-fold creating an additional need well in excess of that gained through the Health Professions Program. Said concisely, if student needs are to be met in the future, an increase in available loan funds proportionate to the increased enrollment must be realized. This year, in addition to the \$10,000 HPS awards to members of the Freshman Class, we have loaned \$98,625 to 76 dental students, and we are by no means through! Assuming a conservative figure of \$125,000 for this year's total dental aid program, if we project our needs for 1970 with a 50 percent increase in undergraduate enrollment, a marked potential increase in graduate and hygiene enrollment, all pervaded by a persistent rise in the cost of dental education, the needs and activities of the Student Aid Program become obvious.

DENTAL HYGIENISTS COMMITTEE

J. HARRY SPILLMAN, *Chairman*M. W. CARPENTER
JAMES H. LEEW. STEWART PEERY
C. W. POINDEXTER

J. HENRY LIGON, JR.

Meetings: The Committee held no meetings. Individual members, however, met with the State Advisory Committee for the Education of Dental Auxiliary Personnel frequently. Also, individual committee members met frequently with local advisory committees to the various dental hygienists educational programs in the State.

Assignments: The 1966 House of Delegates adopted the following resolutions and they were directed to this committee. (Trans. 1966:p. 65):

"Resolved, that with the activation of the School of Dental Hygiene at Wayne Technical Institute and the Guilford Technical Institute together with the present programs at Chapel Hill and Central Piedmont Community College further programs be discouraged for one year so that a re-evaluation may be made of the program.

"Resolved, that this committee continue to work closely with the State Advisory Committee for Education of Dental Auxiliary Personnel with the common aim of rendering assistance to programs being initiated and those already begun, and particularly to see that these programs work toward receiving full accreditation from the Council on Dental Education of the American Dental Association."

Actions: This committee is aware of the fact that many problems continue to exist in initiating programs of this type. Foremost among these problems is obtaining trained faculty members to staff them. These problems have been called to the attention of key administrative personnel of the Department of Community Colleges. The full resources of the department have been pledged to see that these programs receive provisional accreditation from the American Dental Association. The accrediting team visited Central Piedmont Community College in February and are scheduled to visit Guilford Technical Institute in May and Wayne Technical Institute in June.

In all three of these schools, the dentists in the surrounding areas are volunteering many hours of free time to assist in teaching and supervising clinics.

Three members of this committee have been appointed to the State Advisory Committee for Education of Dental Auxiliary Personnel. This will facilitate a closer working relationship between the two committees.

This committee has received information that probably in 1970, the University Dental School will start graduating degree hygienists with a background in education. This, if true, will be a solution to one of our pressing needs.

We feel that one of the key problems is that of salary available to staff and faculty of these schools. To help solve this problem, an appropriate resolution is submitted at the end of this report.

Resolution

1. **Resolved,** that the Executive Committee request the Department of Community Colleges to increase the salary schedule of directors of dental programs and their assistants, to a level that would insure that properly trained faculty members may be attracted and retained by these schools.

Action by House of Delegates: Resolution 1 adopted May 12, 1967.

The following resolution was submitted by Reference Committee B and adopted May 12, 1967.

**111th
Annual
Session**

**The Carolina
Pinehurst
May 10-14, 1967**

Resolved, that the North Carolina Dental Society wholeheartedly reaffirms its support and intent to continue the School of Dental Hygiene at the Guilford Technical Institute.

The following resolution was submitted by Reference Committee B:

Resolved, that the North Carolina Dental Society seek dental representation on the Boards of Trustees of all institutions under the Community College System engaged in educational programs for dental auxiliary personnel and that a copy of the resolution be directed to the County Commissioners responsible for such appointments.

The above resolution was amended and adopted May 12, 1967:

Resolved, that the North Carolina Dental Society seek dental representation on the Boards of Trustees of all institutions under the Community College System engaged in educational programs for dental auxiliary personnel and that a copy of the resolution be directed to the parties responsible for such appointments.

DENTAL PRACTICE ACT COMMITTEE

W. L. HAND, JR., *Chairman*

THOMAS M. HUNTER
FRANK O. ALFORD

ROGER E. BARTON
ROBERT B. LITTON

Purpose of Committee: In a report to the Executive Committee on January 7, 1967 the Legislative Committee recommended that a study in depth of the present dental practice laws be initiated and any needed changes in the General Statutes revealed by the study be referred to the Legislative Committee after approval by the House of Delegates, for presentation to the 1969 General Assembly. It was stated by the Legislative Committee Chairman that the State Board of Dental Examiners agreed with this plan.

The Executive Committee on January 7, 1967 directed the president to appoint a special committee to study the present dental practice act in co-operation with the State Board of Dental Examiners and report to the House of Delegates.

Provisional Licensure: The Executive Committee has referred the problem of provisional licensure to this committee in order to bring the issue to the floor of the House of Delegates for discussion. This committee urges the House of Delegates to consider the problem of provisional licensure and respectfully requests any thoughts or suggestions regarding the General Statutes under which we practice.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

JAMES B. HOWELL
R. S. HUNTER
PEARCE ROBERTS, JR.
FREEMAN C. SLAUGHTER

JAMES M. ZEALY

Meetings: The committee held meetings on September 7 and October 15, 1966, and February 25, 1967.

Assignments: The 1966 House of Delegates adopted the following resolutions (Trans. 1966:68-69; 72):

"Resolved, that the Dental Service Corporation Committee be directed to draw up articles of incorporation and bylaws, and prepare prototype prepaid dental care contracts for presentation to the Executive Committee for review and approval, and be it further

"Resolved, that upon approval by the Executive Committee, application be made for approval by the Insurance Commissioner and Secretary of State leading to the incorporation of a Dental Service Corporation, and be it further

"Resolved, that an appropriation of funds not to exceed \$5,000, to be appropriated from the reserve fund, be authorized for implementation of this resolution.

"Resolved, that representatives of the Dental Service Corporation Committee and other officially appointed representatives of the North Carolina Dental Society meet with representatives of Hospital Saving Association and Hospital Care Association to discuss areas of mutual interest in the establishment of dental prepayment in North Carolina."

Liaison with Hospital Saving and Hospital Care Associations: The initial meeting of the committee was held in the Board Room of the Hospital Saving Association of Chapel Hill, at which time representatives were present from that organization as well as from Hospital Care Association of Durham. The "Blue" representatives expressed a real interest in providing administrative and marketing services for the proposed dental service corporation, and offered their assistance and full co-operation to the committee in planning and developing a program of prepaid dental care. The Chairman of the Dental Service Corporation Committee told the "Blue" representatives that co-operation was welcomed. It was made clear to the "Blues" that the profession of dentistry in the State of North Carolina would want to have a firm voice in the standards of dental care in a prepaid program such as a dental service corporation, and, therefore, would work toward creating an agency separate from Blue Cross-Blue Shield. It was mutually agreed to keep in contact and continue communications.

As a manifestation of the continuing co-operation, the agencies were contacted when legal counsel for the North Carolina Dental Society noted that additional legislation may be required prior to the creation of a dental service corporation in the State. Both Hospital Saving and Hospital Care were contacted and have indicated their willingness to co-operate to work toward passage of enabling legislation.

Articles of Incorporation and Bylaws: The major effort of the committee during the year was developing the bylaws of the dental service corporation. The bylaws have been assembled and will be presented to the Executive Committee for action.

Further action in the development of the North Carolina Dental Service Corporation cannot be pursued because of the discovery that further enabling legislation is considered to be necessary by our legal counsel.

The language of G. S. 55 A-3 (a) (3) states:

"Nothing herein shall apply to hospital and medical service corporations regulated by Chapter 57 of the General Statutes . . ."

This wording is included in the Statute that sets up nonprofit corporations. The net effect of the wording presented here is to prevent creating a nonprofit dental service corporation for the reason that by definition of the law it is defined as a hospital service corporation. Legal counsel for the Society has obtained clearance from and co-operation of the legal representative of the "Blues," and has drawn a bill to be presented to the Legislature. Until this legislation is passed, there will be no opportunity to proceed further with the charge to the committee.

Following a meeting with the Executive Committee on April 16, a supplemental report will be submitted.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

DENTAL SERVICE CORPORATION COMMITTEE

Supplemental Report Number 1

The committee submitted its recommended Bylaws for the North Carolina Dental Service Corporation to the Executive Committee of the North Carolina Dental Society for its action during a called meeting April 16, 1967. The Executive Committee approved the Bylaws by unanimous vote. Approval of the Insurance Commissioner is being held up until the Legislature changes the Statutes as indicated in the original report of the committee. At the time of the writing of this supplemental report the necessary legislation has been introduced by Representative Bunn of Wake County and it is identified as H.B. 916. The same bill, identified as S.B. 389, was introduced in the Senate by Senator Bailey of Wake County. It is hoped these bills will receive favorable action by the General Assembly to permit the further action requested by the 1966 House of Delegates of the North Carolina Dental Society.

In order to permit the continued development of the Dental Service Corporation an appropriate resolution is submitted at the end of this report.

The North Carolina Dental Society is a Charter Constituent Society Member of the National Association of Dental Service Plans. This membership permits access to all of the information which is necessary for proper development and guidance of a new Dental Service Corporation. It is recommended that the House of Delegates approve Constituent Society membership in the National Association of Dental Service Plans on a continuing basis. An appropriate resolution is submitted at the end of this report.

Resolutions

1. Resolved, that upon favorable action by the General Assembly of the State of North Carolina to amend G.S. 55 A-3, application be made for approval by the Insurance Commissioner and Secretary of State leading to the incorporation of a Dental Service Corporation.

2. Resolved, that the North Carolina Dental Society maintain its Constituent Society membership in the National Association of Dental Service Plans on a continuing basis.

Action by House of Delegates: Resolutions 1 and 2 adopted May 12, 1967.

ETHICS COMMITTEE

ELLIOT R. MOTLEY, *Chairman* (1970)

C. Z. CANDLER, JR. (1969)
FRANK G. ATWATER (1968)

THOMAS M. HUNTER (1967)
DARDEN J. EURE (1971)

Meetings: The committee held no formal meetings. Business of the committee was conducted by mail and by phone.

Assignments: The committee received no assignments from the 1966 House of Delegates. Several requests for information and rulings were received and resolved on the district level. The chairman lectured one class period to the Senior class at U. N. C. School of Dentistry on the *Code of Ethics*.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

INDUSTRIAL COMMISSION COMMITTEE

E. D. BAKER

S. B. TOWLER, *Chairman*

NORMAN F. ROSS

C. ROBERT HELSABECK, JR.

New Fee Schedule Proposed: The committee felt that a review of the services and the fee schedule for treatment of cases subject to the provisions of the North Carolina Workmen's Compensation Act was needed. Each member of the committee was asked to study the services and fees which have been in effect since 1964 and submit revisions and suggestions to the chairman.

As a result, a revised schedule of services and fees has been proposed to the North Carolina Industrial Commission. The new schedule includes added services and substantial increases in most segments. If the commission approves the revision, before the Annual Session, a supplemental report will be filed.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

INSURANCE COMMITTEE

J. S. D. NELSON, *Chairman* (1968)

CHARLES T. BARKER (1967)

JOHN S. DILDAY (1971)

THOMAS L. BLAIR (1969)

WILLIAM A. MYNATT (1970)

Meetings: The Insurance Committee met in the Central Office in Raleigh on September 11, 1966 and February 19, 1967.

Assignments: The 1966 House of Delegates adopted the following resolutions (*Trans.* 1966:79):

1. "Resolved, that a group life insurance program and a mutual fund investment program be developed and made available to Society members.
2. "Resolved, that J. L. Crumpton Agency and Moore & Johnson Company be authorized to make available, as a supplement to their present group insurance programs, a hospital income plan which pays flat daily rates for hospitalization."

The committee is pleased to report that all the directives of the House of Delegates have been carried out and successfully concluded.

Hospital Income Plan: The House of Delegates authorized both J. L. Crumpton and Moore & Johnson Company to offer a hospital income plan to the membership. Moore & Johnson complained that this would place the programs in competition to the detriment of both. J. L. Crumpton offered no objection.

A comparison of both policies revealed that the benefits of both

plans were identical, but the premium schedule of the proposal by J. L. Crumpton was considerably more attractive.

On September 11, 1967 both companies were given an opportunity to be heard on the matter and the Insurance Committee determined that it had no alternative but to re-affirm the resolution of the House of Delegates and permit both companies to offer a hospital income plan to the membership. This action was approved by the Executive Committee on September 18, 1967.

Subsequently, Moore & Johnson withdrew its proposal and eliminated itself from the field. Thus, only one hospital income plan underwritten by Commercial Insurance Company of New Jersey and administered by J. L. Crumpton is available to Society members.

Group Life Program: After considering and studying several group life insurance programs, the Insurance Committee on September 11, 1966 unanimously agreed to accept and endorse a proposal underwritten by Northwestern National Life Insurance Company and administered by J. L. Crumpton. The Executive Committee approved this action on September 18, 1967 and enrollment began immediately.

The Northwestern plan offers \$10,000 or \$20,000 basic life insurance which may be increased to \$50,000 after specified anniversaries. It also provides for double indemnity in the event of accidental death and it may be converted to any standard form of ordinary life insurance or annuity at any time. The premium schedule appears reasonable for the benefits offered. The plan is currently offered to members of the Kentucky Dental Association, the Tennessee State Dental Association, and the Virginia State Dental Association.

The initial enrollment period during which time members and their dependents can enroll in the program without evidence of insurability was extended to March 31, 1967. The committee has since been advised that the enrollment period will be re-opened during the 111th Annual Session of the Society, May 10-14, 1967, and members will be given a further opportunity to enroll without medical examination.

Group Retirement Program: By resolution the 1966 House of Delegates directed the Insurance Committee to establish a mutual fund retirement program.

The committee carefully investigated and studied several proposals and concluded that Financial Corporation of America offered the best and most flexible plan for the members of the Society. The plan was recommended to and approved by the Executive Committee on April 16, 1967.

This plan offers optional life insurance and allows the participant to participate or not under the provisions of the Keogh Act as amended in 1966 (H.R. 10). Further, it provides an opportunity to invest in the Fidelity group of mutual funds designed for growth, income, or any combination the participant may desire. During the past eight years one of these funds, Fidelity Trends has had an outstanding record.

The committee members claim no occult powers that enable them to see into the future. Therefore, they could only measure a financial institution by the constancy of past performance and Fidelity met this test.

Under the terms of the proposal by FSCA an individual may elect to invest in a regulated investment company other than Fidelity.

The plan proposes to utilize a North Carolina bank as trustee and the fees for this service will have to be determined by negotiation.

It is the opinion of the committee that a reliable retirement investment vehicle which is responsive and adaptable to the varying needs and desires of Society members should be made available to them. With this thought in mind the committee recommended the plan proposed by Financial Service Corporation of America to the Executive Committee.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967

The following resolutions were submitted by Reference Committee B and adopted May 12, 1967:

Resolved, that the Insurance Committee be commended for its work during the past year and for its efforts toward continued improvement of the insurance programs endorsed by our Society.

Resolved that the Insurance Committee be asked to draw up a brief compilation of group insurance programs available to the members of the North Carolina Dental Society and that this information be distributed by the Central Office to each member of the Society.

INSURANCE INDUSTRY LIAISON COMMITTEE

JAMES B. HOWELL, *Chairman*

J. B. FREEDLAND
DONALD L. HENSON

THOMAS M. HUNTER
PEARCE ROBERTS, JR.

Meetings: No meeting has been held by this committee this year, but a progress report and survey letter has been distributed to the members for their information and requesting their recommendations for committee action.

Change of Committee Name: It was suggested that the name "Dental Health Insurance Industry Liaison Committee" is lengthy and could better be changed to "Insurance Industry Liaison Committee."

The chairman of this committee agreed that the substitute name would be more satisfactory and communicated with the members of the committee regarding this change. Since no objection to the name change has been received, the use of the new name has been initiated.

School Accident Insurance: The Executive Committee requested that a letter be written to Dr. Charles F. Carroll, Superintendent of Public Instruction, protesting the \$50 per tooth allowance on the School Accident Insurance Program.

A letter was written to Dr. Carroll protesting the \$50 per tooth allowance on the Scholastic Accident Insurance Program. This letter carefully explained the dentist's viewpoint stating, that adequate dentistry was impossible under these conditions in virtually all dental accident cases. A copy of this letter was sent to Mr. James S. Kilpatrick, the dental health representative for the Health Insurance Council of North Carolina.

Health Insurance Council: The 1966 House of Delegates adopted the following resolutions:

"Resolved, that the North Carolina Dental Society Committee on Dental Health Insurance Industry Liaison take action with the North Carolina Committee for Health Insurance Council forming a committee to evaluate policies and claims arising from either source and to recommend solution for same.

"Resolved, that the committee function as an advisory group and have no policing powers."

The Chairman of the Health Insurance Council was notified of this action. To date we have received no reply from the Health Insurance Council requesting a desire to form such a committee. The report of this action was conveyed to the Chairman of the Health Insurance Council at the time a new man was taking office. This might explain the inactivity of this group. Further, it has since been learned that Mr. James S. Kilpatrick has been appointed by the Health Insurance Council to deal with the dental aspect of this organization. It might be advisable for the chairman of the Insurance Industry Liaison Committee to communicate our willingness to form a joint group directly with Mr. Kilpatrick.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

LEGISLATIVE COMMITTEE

MOTT P. BLAIR, *Chairman* (1969)

H. ROYSTER CHAMBLEE (1970)

L. C. HOLSHOUSER (1968)

DENNIS S. COOK (1967)

PAUL E. JONES (1971)

Meetings: The committee met with the State Board of Dental Examiners and Executive Committee on September 18, 1966 in Charlotte and at the District Officers Conference on December 4, 1966 in Raleigh. On January 7, 1967 the chairman gave a report to the Executive Committee in Pinehurst.

Assignments: The 1966 House of Delegates adopted the following resolution:

"Resolved, that the North Carolina Dental Society seek legislation where possible to gain Society endorsed representatives on the boards and councils and other health agencies of the State of North Carolina where dentistry is a part of their administered programs."

The Executive Committee on September 18, 1966 adopted the following resolution:

"Realizing that there is a need for a complete review of the scope of the Dental Practice Act, and pursuant to a request of the Board of Dental Examiners that modifications of the Act be proposed by the North Carolina Dental Society, therefore, be it

"Resolved, that the Legislative Committee be directed to study the problem in consultation with the Board of Dental Examiners in order to make specific recommendations to the Executive Committee, and be it further

"Resolved, that because no funds are budgeted this year for such purpose, the Executive Committee suggests that the Board of Dental Examiners furnish legal counsel for those specific changes which they have requested having to do with the difficulties in administering the work of the Board under the present Dental Practice Act, and be it further

"Resolved, that the Legislative Committee request funds for such other changes that the committee deems necessary."

The Executive Committee on January 7 and 8, 1967 took the following actions:

1. Authorized the Legislative Committee to support "B" Budget request in the interest of dentistry for the UNC School of Dentistry, the Department of Community Colleges, and the Division of Dental Health.

2. Instructed the Legislative Committee with the aid of legal counsel to investigate any restrictions in the General Statutes that prevent free negotiation of methods for dental compensation to recipients of State agency endorsed programs.

3. Authorize the Legislative Committee to seek amendment of G.S. 55-A, if necessary, to permit the establishment of a dental service corporation in North Carolina.

Liaison Dentists: For more effective communication with legislators the liaison program has been reorganized with District Chairmen, Districts divided into Areas with Area Chairmen, and County Chairmen where necessary. The committee wishes to express its thanks to more than

150 dentists who have accepted this responsibility for 1967. We cannot accomplish our legislative objectives without their help.

Congressional liaison dentists have also been appointed.

Dental Practice Act: As requested by a resolution of the Executive Committee on September 18, 1966 the committee reported to the Executive Committee on January 7, 1967 and recommended the following: that the Dental Practice Act be rewritten and recodified; that the President appoint a special committee to proceed immediately with this project so that a preliminary report can be submitted to the House of Delegates in May, 1967; that the magnitude and scope of this project will require waiting until 1969 to secure passage; that the special committee work with the State Board of Dental Examiners. The essence of this report has been transmitted to the Chairman of the Board of Dental Examiners and he has indicated that the Board would be satisfied to wait for revision of the Dental Practice Act until 1969. This report was adopted by the Executive Committee.

Appropriation to UNC School of Dentistry: The committee is pleased to report that the Governor and the Advisory Budget Commission have approved the request of the UNC School of Dentistry for funds to complete the fourth floor of the new educational wing.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

LEGISLATIVE COMMITTEE

Supplemental Report Number 1

Amendment of Dental Practice Act: At its April 16 meeting the Executive Committee considered and endorsed three bills proposed by the State Board of Dental Examiners.

H.B. 418 and H.B. 419 provide that all proceedings relative to revocation or suspension of license and refusal to issue or renew license be considered in accordance with Chapter 150 of the General Statutes (Uniform Revocation of Licenses).

H.B. 420 proposes that Chapter 150 will also apply to licensing of dental hygienists and provides a maximum fee of \$25 for renewal of license to practice dental hygiene.

All three bills have been reported favorably by the House Committee on Health.

Dental Service Corporation: Legal counsel advised that further enabling legislation would be necessary in order to establish a dental service corporation in North Carolina. With the approval of the Executive Committee, S.B. 389 was introduced by Senator J. Ruffin Bailey of Wake County, and H.B. 916 was introduced by Representative Thomas D. Bunn, also of Wake County. Both bills are identical and were introduced simultaneously on May 3, 1967. They amend G.S. 55 A-3 (a) to provide for the incorporation of a non-profit dental service corporation in this State. When the Corporation Law (Chapter 55) was rewritten in 1957 provision for incorporation of a non-profit medical, hospital or dental corporation was inadvertently omitted. These bills correct this omission.

Elimination of Jury Exemptions: Legislation to abolish automatic exemptions from jury duty and establish local jury selection commissions was approved by the General Assembly late in April. Existing exemptions or more than 30 professions, including physicians, dentists, national guardsmen and various other "emergency service" groups were eliminated. The legislation was recommended by the Court Reform Commission to provide a uniform jury selection system for the entire State effective January 1, 1968.

The legislation set up a unique "excuse procedure" in which a selected juror must appear before a judge and plead his reason for exclusion. Guidelines for a judge to follow in excusing jurors are based on personal hardship, public health, or safety.

In the public interest, physicians and dentists offered no opposition to the legislation.

Appropriation to UNC: S.B. 214 to appropriate \$1,100,000 to construct and equip a fourth floor in the dental education wing at the UNC School of Dentistry is still under study by the Appropriations Committee. The Governor and the Advisory Budget Commission have approved the appropriation.

	<hr/> 1,147	<hr/> 159	<hr/> 1,306	<hr/> 163	<hr/> 7	<hr/> 3

* Included in Total Column

** NOT included in Total Column

Of the 1,147 Active members, 1,111 paid state dues. Dues were waived for 32 members; including: 22 student members; 8 in the military service and 2 totally disabled.

Of the 159 State Life members, all but 6 were also ADA Life members.

Of the 163 ADA Life members all but 4 were also State Life members. In 1965 there were 8 Retired members. One died to make the total 7 in 1966.

Three members were dropped from the roll for non-payment of dues. An appropriate resolution appears at the end of this report.

New Members: The Districts accepted 85 members last Fall. Of this number 9 were transfers from other Districts. Thus, the Society netted 76 new members.

Membership in 1967: On April 13, 1967 the membership totalled 1,341. Of this number 1,316 were in good standing and 25 were delinquent. The breakdown by the Central Office follows:

District	Active	State Life	Total	*ADA Life	**Re-tired	Delinquent
1	232	25	257	26	3	6
2	295	50	345	50	0	8

Resolution

1. **Resolved**, that it be made a matter of record that the following did not pay their 1966 dues by December 31, 1966 and have been dropped from the roll according to Article VI, Section 6 of the Bylaws:

Second District—John W. Gibbs, Charlotte

James C. Hill, Hickory

Third District —Robert L. Turner, Greensboro

Action by House of Delegates: Resolution 1 adopted May 12, 1967.

MILITARY AND VETERANS AFFAIRS COMMITTEE

T. EDWIN PERRY, *Chairman* (1968)

J. HARRY SPILLMAN (1967)

BAXTER B. SAPP, JR. (1970)

COYTE R. MINGES (1969)

CAREY T. WELLS, JR. (1971)

Meetings: The committee is scheduled to meet on April 5, 1967.

Assignments: The Bylaws, Article II, Section 17, provide that "the Military and Veterans Affairs Committee shall review and study the professional problems of the armed forces of the United States, including the Veterans Administration, and formulate programs for the participation of dentists in civil defense."

The Executive Committee on September 18, 1966 considered a request that the Veterans Administration fee schedule, in force since 1959, be revised. The request was referred to this committee for appropriate action.

Action by Committee: A study was made of available fee schedules in force in North Carolina and a comparison made between the present VA fee schedule for this State and those of the other states. After careful consideration of all information and fee schedules available, a meeting was arranged with the Chief of Dental Service, Regional Office, Veterans Administration, Winston-Salem, for the purpose of proposing a new upgraded fee schedule for North Carolina. This meeting will be held April 5, 1967. A supplemental report on this meeting will be filed later.

Civil Defense: It was reported by the Military and Veterans Affairs Committee last year that certain named dentists (listed by name and location in 1966 report) were recommended to the North Carolina Civil Defense Director, Major General Edward F. Griffin, for the posts of Chief Dentist for Civil Defense, and Dental Area Chiefs for each of six civil defense areas of the State.

Subsequently, communications from General Griffin's office and from Dr. George W. Paschal, Jr., Chief, Civil Defense Emergency Medical Care Service, have been received by this committee confirming the appointments as recommended.

Action by House of Delegates: Received for information May 12, 1967.

COMMITTEE ON PRESIDENT'S ADDRESS

WILLIAM A. MYNATT, *Chairman*

BARRY G. MILLER

GLENN F. BITLER

The Committee on the President's Address wishes to thank Dr. Guion for his excellent report on the progress and accomplishments of dentistry in North Carolina.

In reviewing the highlights of the year, we have been well informed as to the developments and needs on the State and national level.

As Dr. Guion stated in his address: "They tell us we are in the throes of a harsh transition. We have been in a transition ever since I was born. As long as we live we will be in a transitional state.

"The shape of the new order is not yet clear, they tell us. If we are to help shape the future of our country it will require a strong, well supported organization such as this through which the voice of the members can provide high quality, professional advice and assistance to the public agencies."

Dr. Guion has acted wisely, with discretion and dedication, and has been keenly aware of the needs of our profession. He has given most generously of his time and the wisdom of his experience.

Resolutions

1. **Resolved**, that the President be commended for his splendid report to the Society, and that the report be received for information.

Action by House of Delegates: Resolution 1 adopted May 12, 1967.

PROSTHETIC DENTAL SERVICE COMMITTEE

C. P. OSBORNE, JR., *Chairman* (1968)

C. Z. CANDLER, JR. (1969)

C. D. EATMAN (1970)

THOMAS L. DIXON (1971)

JAMES A. HARRELL (1967)

Relations with NCDLA: The Prosthetic Dental Service Committee has enjoyed a year of service to the North Carolina Dental Society which has kept it in touch with the North Carolina Dental Laboratory Association. This group of men has found a satisfaction in working with your committee that has placed greater confidence in future relations, with the best interest of dentistry and the patient foremost in our minds. For the last several years we have watched the restraint which existed gradually ebb away, and our meetings are harmonious with a general sharing of experiences and opinions.

Fortunately, the immediate past president of the North Carolina Dental Laboratory Association is now serving as secretary-treasurer to the

Southeastern Academy of Dental Laboratories. This signal honor places the group in a good position to help direct the affairs of a larger segment of ancillary personnel.

A Fall meeting with the North Carolina Dental Laboratory Association was fruitful in our continuing work to keep North Carolina foremost in dentist-laboratory relations. Your committee members were invited to participate at the regularly scheduled meeting of this group in Winston-Salem as they presented a scientific session that was educational and up-to-date.

A Winter meeting with the Dental Service Committee of the North Carolina Dental Laboratory Association and all members of the Prosthetic Dental Service Committee was held in Greensboro one weekend in February, 1967. We were fortunate to have members of the Executive Committee present for our deliberations as we attempted to enhance our understanding of both groups' ultimate need; that is, what is common to both and beneficial to the patient.

Training of Technicians: Your chairman was invited to participate in a conference at the national level in Chicago in November, 1966. This meeting was held with the specific idea of setting a stage for proper study in the training of dental laboratory employees. Most of two days was taken up with a re-evaluation of educational needs in a modern laboratory. Primarily our concern was what level was desirable before the student should graduate, ready for serviceable employment that would help the dental laboratory or individual dentist. It was felt that two years training should still be the basic period with an opportunity for graduate study or refresher courses available when needed. These recommendations are to go before the Council on Dental Education at the appropriate time.

Accreditation Seminar: The chairman of the Prosthetic Dental Service Committee went to a seminar in February at the ADA headquarters where the problems of accreditation of dental laboratories was the topic of discussion. Many hours were spent comparing past experiences with present trends in this age old problem. There were many present who felt the ADA would need to take a direct approach that was unacceptable to the National Association of Certified Dental Laboratories. The growing unrest between these two organizations has developed a rift that sent both on separate paths that widen with the passage of time. As this report is being formulated there has never been a calmer, more desirable relation between the North Carolina Dental Society and the North Carolina Dental Laboratory Association.

Resolutions

1. **Resolved**, that the Prosthetic Dental Service Committee be encouraged in its desire to foster calm, harmonious relations with the North Carolina Dental Laboratory Association.

2. **Resolved**, that the North Carolina Dental Society consider the desirability of continuing its present approach to the inclusion of dental laboratory personnel at the Annual Session.

3. **Resolved**, that, wherever possible, dental laboratory personnel be encouraged to accept invitations to other meetings sponsored by dental organizations.

4. **Resolved**, that the omission of dental laboratories from the yellow pages in our telephone directories be continued as in the past.

5. **Resolved**, that the Prosthetic Dental Service Committee be hereafter named the Dental Laboratory and Trade Relations Committee.

Action by House of Delegates: Resolutions 1, 2, 3, and 4 adopted May 12, 1967.

Resolution 5 referred to the special committee on committee structure for study and recommendation, May 12, 1967.

RELIEF COMMITTEE

J. W. HEINZ, *Chairman* (1969)

S. L. BOBBITT (1970)

J. M. KILPATRICK (1967)

W. H. BREELAND (1971)

J. T. LASLEY (1968)

Grants: At the beginning of this fiscal year there was a widow receiving a grant from the Relief Fund. We regret to report that she died September 8, 1966.

The committee has not received any application for relief this year. Thus, no one is receiving aid at this time. The committee has been advised, however, that an application is being processed. A total of \$225 has been paid out in grants this year.

Receipts: The North Carolina Dental Auxiliary contributed \$4,249.38 to the Relief Fund, the proceeds of its 1966-1967 Scrap Amalgam Drive. Since 1953 the Auxiliary has raised \$28,475.17 for the Relief Fund through its annual Scrap Amalgam Drives.

The North Carolina Dental Society members contributed \$2,229.00 to the 1965-1966 campaign of the American Dental Association Relief Fund. One-half of this amount (\$1,114.50) was returned to the North Carolina Dental Society. In addition we received a bonus of \$557.25 from the ADA Relief Fund for exceeding our quota and paying out more in grants than we received from the ADA Relief Fund.

Total assets of the Relief Fund will exceed \$35,000 at the end of this fiscal year. For details, see the report of the Secretary-Treasurer.

Indenture of Trust: In order to comply with provisions of the Indenture of Trust of the ADA Relief Fund and thus be eligible to continue to receive funds and bonuses, application for tax exempt status for the North Carolina Dental Society Relief Fund as a charitable trust under Section 501(c) was filed with the Internal Revenue Service September 1, 1966. A ruling by IRS on the matter is still pending.

Future Policy: At its meeting January 7, 1967 the Executive Committee noted with concern that the assets of the Relief Fund exceeded \$35,000 and currently no grants are outstanding. The Executive Committee suggested that requirements and grants be liberalized in the future so that more use could be made of these funds. Dr. Guion conferred with the chairman of this committee in this regard and the committee will bear this in mind in considering applications for grants in the future.

Thanks: The committee extends its sincere thanks to the North Carolina Dental Auxiliary for its continued interest and effort in behalf of the Dental Relief Fund since 1953.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

RELIEF COMMITTEE

Supplemental Report Number 1

Indenture of Trust: On September 1, 1966 application for tax exempt status for the North Carolina Dental Society Relief Fund as a charitable trust under Section 501(c) was filed with the Internal Revenue Service.

On May 2, 1967 the Internal Revenue Service advised that the Indenture of Trust was acceptable as a charitable trust except for the provision that in the event of termination of the Trust the assets would revert to the Society. It was pointed out to IRS that this provision was identical to a provision in the American Dental Association Trust Indenture. IRS stated that the ruling on the ADA Trust Indenture was several years ago before the IRS had adopted more stringent interpretations which it seeks to apply in our case.

Legal counsel advises that the problem is primarily one of nuisance and aggravation. The Society has no desire that the funds revert to it and recognizes that they are dedicated to charitable uses. Consequently, legal counsel suggests that rather than pursue the matter with IRS to seek reversal at a higher level or perhaps in court that it would be much simpler and cheaper to amend the Indenture as suggested by IRS.

Article IX of the Indenture provides that it can be amended only by a two-thirds majority vote of the House of Delegates in the same way as a proposal to amend the *Bylaws* of the Society as provided in Article XIII.

Article XIII of the *Bylaws* requires that advance notice of amendments be given at a previous session of the House of Delegates, or at a previous meeting of the same session, before being voted on. This advance notice may be waived by a vote of 90 percent of the members of the House of Delegates present at a legally constituted meeting, and an immediate vote on the proposed amendments may be taken. Two-thirds of those present and voting must vote in favor of the proposed amendments in order to secure their adoption.

An appropriate resolution is proposed.

Resolution

1. **Resolved**, that Article IX of the Indenture of Trust, dated May 6, 1966, by and between the North Carolina Dental Society, party of the first part, and the members of the North Carolina Dental Society Relief Committee, parties of the second part, be amended by deleting therefrom the following sentence:

"Upon termination of this Trust the Trust Property shall revert back to the Society to be used by it exclusively for charitable purposes." and substitute in lieu thereof the following sentence:

"Upon the termination of this Trust the Trust Property as then constituted shall be distributed to such charitable organization or organizations within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1954 as now in force or afterwards amended, in such amounts, and for such charitable purposes as the Trustees shall elect and determine."

Action by House of Delegates: Resolution 1 adopted May 12, 1967.

COMMITTEE ON RULES AND ORDER

PENN MARSHALL, JR., *Chairman*

RICHARD S. HUNTER

NEWTON SMITH

Speaker of the House: Article III, Section 6 of the *Bylaws* provides that: "The Speaker of the House shall preside at all meetings of the House of Delegates and shall determine the order of business for all meetings subject to the approval of the House of Delegates and shall perform such other duties as custom and parliamentary usage require. The decision of the Speaker shall be final unless an appeal from decision shall be made by a member of the House in which case final decision shall be by majority vote."

The above provision is interpreted by this committee to include authority of the Speaker to appoint a parliamentarian and such committees of the House as he deems necessary to expedite business. Further, the committee recommends that the Speaker be granted a vote only in case of a tie.

Adoption of Agenda: The committee submits the agenda on pages iii and iv (blue sheets) for the 1967 session of the House of Delegates and recommends its approval as the official order of business.

Voting Procedures: The method of voting in the House will usually be indicated by the Speaker in the call for the vote: voice vote, hand vote, or rising vote. When a rising vote is called for, delegates are asked to remain standing until the count has been completed and the Speaker indicates that the voters may be seated.

A 90 percent vote shall be interpreted as requiring 90 percent of all legal votes cast.

A two-thirds vote shall be interpreted as requiring two-thirds of all legal votes cast.

Recognition of Those Wanting to Speak: When a member wishes to address the House, he should secure the attention of the Speaker and not begin to speak until he has been recognized by the Chair. He should then state his name and his district for the benefit of the recorder.

Access to the Floor: Access to the floor of the House will be permitted only to Delegates, Officers, and Staff. Alternate Delegates and members of the Society will be seated in a special section of the House.

Attendance of Representatives of the Press: Members of the House will wish to be guided in their deliberations and debate by the knowledge that representatives of the press may be in the visitors gallery.

Introduction of New Business at Last Meeting: No new business, except the Report of the Clinic Board of Censors, shall be introduced into the House of Delegates at the final meeting on Saturday, unless by unanimous consent. Approval of such business shall require unanimous vote.

Privilege of the Floor: Article III, Section 6 of the Bylaws provides that: "Chairmen and members of committees who are not members of the House of Delegates shall have the right to participate in the debate on their respective reports, but shall not have the right to vote."

At the discretion of the Speaker, with the approval of the House, privilege of the floor may be granted to any member of the Society and Staff.

Minority Report: Attention is called to Article III, Section 2 of the Bylaws which states: "Ten members of the House of Delegates may file a minority report dissenting from the action of the House of Delegates and appeal to the General Session of the Society."

Reference Committees: All reports and resolutions of committees, except amendments or alterations to the Constitution and Bylaws, matters of ethics, and recommendations of the President, may be referred to reference committees appointed by the Speaker.

The standing Committee on Constitution and Bylaws will constitute the reference committee on amendments and alterations to the Constitution and Bylaws.

The standing Committee on Ethics shall constitute the reference committee on all matters pertaining to ethics.

The special Committee on the President's Address will constitute the reference committee on recommendations of the President.

Roll Call: The roll will be called by the Secretary-Treasurer at the beginning of each meeting. For the record, those answering the roll at that time will constitute the Delegates in attendance for that meeting. No substitutions for Delegates will be made after the roll call, except by request of the floor chairman of the delegation concerned.

Floor Chairmen: District delegations shall elect a floor chairman (unless he is designated by the District Bylaws) and report their names to the Secretary prior to the second meeting of the House. The Floor Chairman will designate the delegates to comprise the delegation from his district for each meeting of the House of Delegates.

Seating of Delegates: Delegates are requested to seat themselves according to the floor plan of the House. This will enable the Speaker to recognize and identify any delegate who wants to speak.

Disposition of Reports: All reports will be referred to a reference committee by the Speaker of the House. The reference committee, after evaluating a report, must advise the House to adopt, amend, postpone, or reject all resolutions presented in the report. If no resolutions are presented in the report, the reference committee will present the report to the House of Delegates with appropriate comments and a motion that the report be filed for information and printed in the Transactions. A reference committee may not "pigeon hole" any item, but must refer it to the House of Delegates for final action.

Resolutions

1. **Resolved**, that the agenda on pages iii and iv (blue sheets) be adopted as the official order of business for this session of the House of Delegates.

2. **Resolved**, that the list of referrals submitted by the Speaker of the House of Delegates be approved.

3. **Resolved**, that the report of the Committee on Rules and Order be adopted, and be it further

Resolved, that the report of the Committee on Rules and Order constitute the rules for the proper conduct of business at this session of the House of Delegates.

Action by House of Delegates: Resolutions 1, 2 and 3 adopted May 10, 1967.

SCHOOL HEALTH COMMITTEE

GLENN L. HOOPER, *Chairman*

G. SHUFORD ABERNETHY

GEORGE S. ALEXANDER (Deceased)

R. B. BARDEN

GUY R. WILLIS

Assignment: The School Health Committee was directed by the president to continue discussions with the Superintendent of Public Instruction concerning revision of the fee schedule for dental services rendered under the School Health Program.

Background: The current fee schedule has been in effect since November 9, 1959, and a revision is long over-due. The fees are inadequate and unrealistic. Each year dentists in increasing numbers are refusing to participate in the program.

Last year the president appointed a Dental Prepayment Committee to review all programs of dental prepayment and report to the House of Delegates. In its study, the committee noted the out-dated fee schedule of the School Health Program and initiated discussions with the Superintendent of Public Instruction concerning its revision. While the committee hoped to establish contracts with all State agencies administering dental care programs on a usual or customary fee basis, it recognized, however, that an amendment in the General Statutes would be necessary, if this concept were applied to services rendered under the School Health Program.

By law, School Health funds can be expended only in accordance with a uniform State-wide schedule of fees. This is the only State agency so restricted.

The committee was of the opinion that legislation amending the General Statutes to eliminate this restriction would be strongly opposed by the Department of Public Instruction and felt it was inadvisable to resort to legislative action at this time.

School Health funds may be expended for the diagnosis and correction of chronic, remedial physical defects of public school children who have been investigated and certified as indigent by the county director of public welfare. Only State money is involved. Since the program was established in 1955, the General Assembly has appropriated almost \$500,000 annually to it. According to Mr. Charles E. Spencer, who recently retired as Director of the School Health Co-ordinating Service, approximately 65 percent of this money has been spent for dental services.

The advent of Project Head Start, other OEO projects, and programs funded by the Elementary and Secondary Education Act further compounded the problem. Project directors and school authorities throughout the State attempted to negotiate with the dental profession for services on the basis of the out-dated fee schedule of the School Health Program.

The Dental Prepayment Committee tried in vain to get a definite commitment from the Department of Public Instruction concerning the revision of the School Health fee schedule.

Committee Action: In October, 1966, Dr. Roy L. Lindahl, chairman of the Dental Service Corporation Committee; Dr. Glenn F. Bitler, chairman of the Dental Prepayment Committee and the chairman of the School Health Committee, met with Dr. Charles F. Carroll, Superintendent, Department of Public Instruction.

A proposed revised fee schedule was presented to Dr. Carroll. He agreed to take it under advisement. Dr. Carroll asked what other State agencies were involved in providing dental care. A complete list was sent to him October 20, 1966.

On March 15, 1967, the chairman of the School Health Committee, and Mr. Andrew M. Cunningham, executive secretary, met with Dr. Carroll and Mr. Norman E. Leafe, who recently succeeded Mr. Spencer as director, School Health Co-ordinating Services.

During the conference the following points were stressed:

(1) The current fee schedule of the School Health Program has been in effect for almost 8 years and a revision is long over-due.

(2) Because of the unrealistic fees, dentists in increasing numbers are refusing to participate in the program.

(3) It would be highly desirable, if agreement on a revised fee schedule could be reached before the House of Delegates met in May.

Dr. Carroll agreed that the current fee schedule left much to be desired and understood why dentists were dissatisfied.

He stated that the Governor had been made aware not only of this situation, but of multiple fee schedules used by various State agencies in providing health services.

Subsequently, the Governor instructed Mr. Ed Rankin, director, Department of Administration, to appoint a commission which would establish a fee schedule to apply to all State agencies involved in health care programs. The commission will include representatives of these State agencies.

Dr. Carroll indicated a reluctance to revise the present School Health fee schedule, because of the possibility of the proposed commission developing a State-wide fee schedule in the near future.

It was learned that physicians would propose that the concept of "scale of relative values" be used in payment for their services.

Dr. Carroll also indicated that he looked with disfavor on the "usual and customary fee" concept as a basis for payment because of the difficulty of administering it. He cited the recent experience in Charlotte as a case in point.

Advisory Council: In May, 1964 the House of Delegates adopted a resolution agreeing in principle with the establishment of an Advisory Council to the School Health Program.

In co-operation with representatives of the Medical Society, the School Health Committee made repeated attempts to have an Advisory Council established, without success.

The committee will continue to work toward this end in co-operation with the Medical Society. The committee feels that the establishment of an Advisory Council is even more desirable, if not imperative, today because of the development of OEO and ESEA programs which create confusion, duplication, and inefficient use of dental manpower.

Dr. George S. Alexander: It is noted with regret that Dr. George S. Alexander of Kannapolis, a valuable member of this committee for several years, died March 1, 1967. The sympathy of the committee is extended to his wife and family.

Resolutions

1. **Resolved**, that the president designate the appropriate standing committee or appoint a special committee to negotiate with all State agencies for payment of all required dental services on the basis of usual and customary fee, and be it further

Resolved, that if the concept of usual and customary fee is unacceptable in these negotiations, that the said committee develop a State-wide, comprehensive fee schedule.

2. **Resolved**, that the School Health Committee continue to co-operate with the Medical Society of the State of North Carolina in an effort to create and establish an Advisory Council to the School Health Program.

Action by the House of Delegates: Resolution 1 amended and adopted May 12, 1967, to read:

Resolved, that the president designate the appropriate standing committee or appoint a special committee to negotiate with all State agencies for payment of all required dental services on the basis of usual and customary fee, and be it further

Resolved, that special emphasis be placed on preventive dentistry with full knowledge that our obligation is to save teeth, and be it further

Resolved, that if the concept of usual and customary fee is unacceptable in these negotiations, that the said committee develop a State-wide, comprehensive fee schedule.

Resolution 2 adopted May 12, 1967.

STATE EMPLOYEES COMMITTEE

W. H. OLIVER, *Chairman*

CHARLES W. HORTON

J. M. KILPATRICK

RILEY E. SPOON, JR.

C. B. TAYLOR

Meetings: This committee has not been called upon to function this year. No meetings were held.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

STATE INSTITUTIONS COMMITTEE

WILLIAM D. YELTON, *Chairman* (1971)

ROBERT J. HARNED (1970)

K. L. JOHNSON (1968)

THOMAS A. SMITH (1969)

DONALD L. HENSON (1967)

Meetings: This committee has held no formal meetings. Each member of the committee has been contacted for any information in regard to the institutions in their area.

Activities: A comprehensive questionnaire was prepared and presented to the superintendents of the twenty-five State institutions. The questionnaire was returned by twenty-three of the superintendents, most of them having been filled in completely and several of them sent in supplemental reports elaborating on some parts of the questionnaire.

Results of Study: There are approximately 18,000 people in the twenty-five institutions contacted. Only nine of the institutions have full time dental staffs with twelve full-time dentists and six dental hygienists. There are too many needs in personnel and equipment to enumerate in this report therefore we are including a supplemental report of the needs and some of the suggestions received on these questionnaires.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 12, 1967.

STATE INSTITUTIONS COMMITTEE

Supplemental Report Number 1

From the 23 questionnaires that were returned to us, all of them indicated needs in personnel and equipment as follows:

Western Carolina Center: Needed: One full-time hygienist and at least one more full-time assistant.

Suggestions: If the private practitioner could be stimulated to promote complete dental service rather than emergency work for this segment of the population, the institutional dentist would be able to maintain these children in good health. A list of local dentists who would provide this service would be helpful.

North Carolina State Prison: Needed: One full-time dentist, 2 complete new dental units and new X-ray unit.

Suggestions: Additional space, more modern dental equipment, and a more functional dental clinic.

Comment: The chairman of the committee had the privilege of visiting the dental clinic at Central Prison, and there is a great need for modernization of dental equipment and for space. I had called Dr. John Hall, chief of dental staff, and made an appointment for one of the staff to meet me at the clinic. He did not show up, however, so I had to gather what information I could by observation.

Dorothea Dix Hospital: Needed: Another full-time dentist, a hygienist and operatories and equipment for them.

Suggestions: The importance of adequate dental care for the mental patient should be emphasized to the Dental Society, the leaders in the mental health program and the community-at-large.

Murdoch Center: Needed: Dental hygienist, assistants, and clerical help.

Suggestions: Physical plant is very good, pending completion of the new dental clinic.

Broughton Hospital: Needed: One full-time dentist, one hygienist, and two dental assistants.

Suggestions: Secure permission for dental assistant to clean patients' teeth.

Eastern Carolina Training School: Suggestion: A full-time dentist from the Division of Dental Health to provide dental service for the 1800-1900 students in all of the schools under the Department of Juvenile Correction in Raleigh.

Cherry Hospital: Needed: One full-time dentist and two trained dental assistants.

Caswell Center: Needed: One full-time dentist, one hygienist, and one assistant, and equipment necessary for the utilization of their services. Also, facilities and personnel for general anesthesia.

O'Berry Center: Suggestions: The greatest need of the centers for the retarded is a centrally located facility where children who need general anesthesia can be referred for services. This center is too small to develop this resource on an individual basis, and the cost of treatment in a local hospital is too great for our budget, except on an emergency basis. Also, hospitals dislike admitting the mentally retarded patient.

John Umstead Hospital: Needed: Two dental hygienists and needed equipment have been requested in the 1967-68 budget.

Suggestions: Salaries of dental personnel must be rewarding enough to attract capable and ethical personnel who are interested in a career in this important field.

Action by House of Delegates: Received for information May 12, 1967.

STATE PLANNING FOR DENTISTRY COMMITTEE

E. A. PEARSON, JR., *Chairman*
State Board of Health

WADE H. BREELAND
State Board of

Dental Examiners

JOSEPH M. JOHNSON
General Practice

Public Law 89-749: In view of the many state, federal, voluntary, and private agencies providing health services, it seems appropriate that some type of central planning should be undertaken by the dental profession in North Carolina. Responsibilities of the profession are being expanded by new legislation which establishes additional publicly funded dental programs. The profession needs to look at the programs presently being conducted and those programs anticipated under legislation now before Congress, e.g.: H.R. 5710. Public Law 89-749, "Comprehensive Health Planning and Public Health Services Act," specifically sets forth what the states must do in order to provide comprehensive health services to all persons.

As stated in the law, "... to assure comprehensive health services of high quality for every person, but without interference with existing patterns of private professional practice of medicine, dentistry, and related healing arts ... comprehensive planning for health services, health manpower, and health facilities is essential at every level."

Committee Appointed: Dr. Guion, being concerned with the rapid growth of health programs and anticipated ones, appointed this committee to study and develop a plan for dentistry in North Carolina.

The committee held its first meeting Sunday, April 2, 1967. At this time the objectives of the committee were developed. The objectives for the Planning Committee are:

1. To identify dental needs of the people in North Carolina;
2. To identify needs of the profession of dentistry in North Carolina;
3. To identify dental resources in North Carolina;
4. To develop methods which would provide more dental care for more people in North Carolina.

Resolutions

1. **Resolved**, that Dr. J. Homer Guion, President of the North Carolina Dental Society, be commended for his vision and foresight in establishing a State Planning Committee for Dentistry, and be it further

Resolved, that Dr. Guion be made a permanent member of this committee.

2. **Resolved**, that the objectives of the State Planning Committee for Dentistry as listed in its report to the 1967 House of Delegates be approved.

3. **Resolved**, that the State Planning Committee for Dentistry be continued until its job is completed.

Action by House of Delegates: Resolutions 1, 2 and 3 adopted May 12, 1967.

Resolutions

SUBMITTED TO THE
1967 HOUSE OF DELEGATES

Resolution by Executive Committee

USE OF RESERVE FUNDS

Resolved, that until the unappropriated reserve in the General Fund equals the operating expense for one year, no further appropriations be made from the Reserve Funds, except in case of emergency.

Action by House of Delegates: Adopted May 12, 1967.

Resolution by Executive Committee

COMMITTEE STRUCTURE

Resolved, that the House of Delegates direct the President to appoint a special committee to work with the Constitution and Bylaws Committee to formulate desired changes in the committee structure of the North Carolina Dental Society and present these proposed changes along with appropriate suggestions for necessary revision of the Constitution and Bylaws to the delegates at the earliest possible time, not later than 90 days before the 1968 meeting of the House of Delegates.

Action by House of Delegates: Adopted May 12, 1967.

Resolution by the Fifth District Dental Society

EMPLOYMENT OF DENTAL HYGIENISTS

The following resolution was adopted by the Fifth District Dental Society in General Session on September 26, 1966 and transmitted under date of March 22, 1967 by Dr. James L. Cox, secretary-treasurer:

Resolved, that G.S. 90-232 be amended by deleting the next to the last sentence which reads, "No dentist in private practice shall employ more than one dental hygienist at one and the same time," so that a single practicing dentist may employ the necessary number of hygienists that befits his practice.

Action by House of Delegates: Resolution referred to the Dental Practice Act Committee for further study, May 12, 1967.

Resolutions by Delegate M. Lamar Dorton, Second District**LABELLING SHELF LIFE OF DENTAL MATERIALS**

Background Statement: To protect the dentist and the patient, as well as the manufacturer, it is desirable that all dental materials which have a shelf life be properly labelled and dated. Therefore, the House is urged to adopt a resolution for transmittal to the ADA House of Delegates for consideration. A second resolution is presented which will authorize the Executive Committee to edit the above resolution in the event that it is declared inappropriate or defective.

1. **Resolved**, that the Council on Dental Therapeutics request manufacturers to properly date and label all dental materials which have a shelf life.

2. **Resolved**, that the Executive Committee be authorized to edit the resolution submitted to the ADA House of Delegates on labelling and dating dental materials which have a shelf life in the event that this resolution be declared inappropriate or defective.

Action by House of Delegates: Resolutions 1 and 2 adopted May 12, 1967.

Resolution by Executive Committee**HONORARY MEMBERSHIPS**

The Executive Committee is pleased to present to the House of Delegates a resolution nominating three distinguished leaders in the health field for Honorary Membership in the North Carolina Dental Society.

Resolved, that in accordance with the *Bylaws*, Chapter IV, Section 2, the following be elected to Honorary Membership:

Arthur W. Kellner, D.D.S., Hollywood, Florida, Trustee, Fifth District, American Dental Association

Jacob Koomen, M.D., M.P.H., Raleigh, North Carolina, Director, North Carolina State Board of Health

F. Darl Ostrander, D.D.S., Ann Arbor, Michigan, President-Elect, American Dental Association

Action by House of Delegates: Adopted May 10, 1967.

Report of Delegation To A.D.A.

PAUL E. JONES (1969), *Chairman*

FRANK O. ALFORD (1967)

RALPH D. COFFEY (1968)

ROY L. LINDAHL (1969)

ERBIE M. MEDLIN (1967)

C. C. POINDEXTER (1968)

North Carolina was fully represented at the 107th Session of the American Dental Association in Dallas, Texas, November 14-17, 1967.

In addition to the delegates, the following alternates were in attendance: Drs. A. Breece Breland, J. Homer Guion, George F. Kirkland, Jr., and Pearce Roberts, Jr. Dr. Roberts was appointed by the chairman to replace Dr. C. W. Poindexter.

North Carolina Caucus: The North Carolina delegation met in caucus on Sunday, November 13 to organize.

Delegates present were: Drs. Jones, Lindahl, Medlin and Poindexter.

Alternates present were: Drs. Breland and Guion.

Executive Secretary Andrew M. Cunningham was also present.

Fifth District Caucuses: Two caucuses of the Fifth Trustee District were held.

At the caucus on November 14 all delegates and the following alternates were present: Drs. Guion, Kirkland and Roberts.

At the caucus on November 16, all delegates were present and the following alternates: Drs. Guion, Kirkland and Roberts.

Executive Secretary Andrew M. Cunningham attended both caucuses.

Dr. James W. Bawden, dean, UNC School of Dentistry, also attended both caucuses as a special guest of Dr. Ralph D. Coffey, Vice Chairman, Fifth District Organization.

Reference Committee Hearings: Delegates and alternates attended Reference Committee Hearings all day Tuesday, November 15, and reported on them at the Fifth District Caucus on Wednesday. Dr. Roy L. Lindahl, a delegate from North Carolina, served on the Reference Committee on Public Health.

House of Delegates: All six delegates and the Executive Secretary were present at the three sessions of the House of Delegates, on November 14, 16 and 17.

Actions by the House: The House of Delegates considered more than 50 resolutions and reports. In its most significant action, the House overwhelmingly adopted an "American Dental Association Dental Health Program for Children." The program calls for establishment of pilot projects, possibly in 1967, to obtain the necessary information on such areas as manpower, administration, and the role of prepayment programs.

"The objective of an American Dental Health Program for Children should be to make the benefits of an organized program of dental health education, preventive dentistry and dental health care available to all children, particularly the needy and underprivileged."

The program recommends the use of both governmental and private funds and would eventually cover "all pre-school and school children, through the age of 18 years, with priority being given to younger age groups at the start."

The report emphasized that governmental funds would be used for support of dental service only for the indigent and "dentally indigent."

The report called on all dental societies and appropriate governmental health agencies to co-operate in developing the program.

For the first time in history a major health profession has proposed a national program of this nature rather than waiting for the government to do it.

Full text of the program is available from the Central Office and it is commended to all members for reading and study.

Dr. William A. Garrett of Atlanta, a former trustee of the Fifth District was installed as president of the ADA. Other officers elected and installed included: Dr. F. Darl Ostrander of Ann Arbor, Michigan, president-elect; Dr. Harry M. Klenda of Wichita, Kansas, first vice president; Dr. John G. Carr of Camden, New Jersey, second vice president; Dr. Phelps J. Murphey of Dallas, Texas, third vice president; and Dr. Carlton H. Williams of San Diego, California, Speaker of the House.

Two North Carolinians were elected to Association Council posts. Dr. Ralph D. Coffey was elected a member of the Council on Insurance and Dr. Roy L. Lindahl was elected a member of the newly created Council on Dental Care Programs.

A summary of all actions of the House of Delegates has been prepared by the Executive Secretary and copies are available from the Central Office.

Resolutions

This report is informational in nature and no resolutions are presented.

Action by House of Delegates: Received for information May 10, 1967.

General Sessions

WEDNESDAY, MAY 10, 1967

THURSDAY, MAY 11, 1967

SATURDAY, MAY 13, 1967

FIRST GENERAL SESSION

Wednesday, May 10, 1967

Call to Order: The first general session of the 111th Annual Session of the North Carolina Dental Society was called to order by President J. Homer Guion at 8:30 p.m., Wednesday, May 10, 1967, in the Cardinal Ballroom of The Carolina, Pinehurst. J. Donald Kiser led in prayer.

Necrology Service: Luther H. Butler, chairman, Necrology Committee, conducted a memorial service in memory of the following members who had died since the 1966 Annual Session:

First District: Paul E. Hedrick, Lenoir, February 27, 1967; I. R. Self, Jr., Lincolnton, January 27, 1967.

Second District: George S. Alexander, Kannapolis, March 1, 1967; William K. Chapman, Charlotte, September 28, 1966; Z. Vance Kendrick, Jr., Charlotte, June 4, 1966.

Third District: Thomas F. Kilkelly, Greensboro, January 1, 1967; Joseph B. Newman, Burlington, March 15, 1967.

Fourth District: C. D. Bain, Dunn, December 10, 1966; Joseph K. Bryan, Oxford, January 30, 1967.

Fifth District: Alvin R. Mallard, Goldsboro, March 24, 1967.

Introduction of Officers and Guests: President Guion introduced the following:

Officers: George F. Kirkland, Jr., Durham, president-elect; Walter H. Finch, Jr., Henderson, vice president; Claibourne W. Poindexter, Greensboro, secretary-treasurer; A. Breece Breland, Charlotte, editor-publisher.

Executive Committee: W. L. Hand, Jr., New Bern, chairman; Pearce Roberts, Jr., Asheville; Lackey B. Peeler, Charlotte; Samuel H. Isenhower, Newton.

ADA Officials: F. Darl Ostrander, Ann Arbor, Michigan, president-elect; Arthur W. Kellner, Hollywood, Florida, trustee, fifth district.

Presidents of Allied Groups: Miss Carey E. Sherrill, North Carolina Dental Assistants Association; Mrs. Sheila A. Wright, North Carolina Dental Hygienists Association; Mr. C. G. Renfro, North Carolina Dental Laboratory Association; Mrs. William A. Mynatt, North Carolina Dental Auxiliary.

Scrap Amalgam Drive Report: Mrs. William A. Mynatt, president, North Carolina Dental Auxiliary, presented a check for \$3,917.25 to the North Carolina Dental Society Relief Fund which represented the proceeds of the Auxiliary's 1966-67 Scrap Amalgam Drive. J. William Heinz, chairman, Relief Fund Committee, accepted the check with thanks, and noted that the Auxiliary had contributed a total of \$32,357.95 since 1953 when it inaugurated its annual Scrap Amalgam Drives.

President's Report: Vice President Walter H. Finch, Jr. assumed the chair and presented J. Homer Guion, president.

President Guion presented his annual report to the Society.

Vice President Finch announced the appointment of the following to the President's Address Committee: William A. Mynatt, chairman, Barry G. Miller, and Glenn F. Bitler.

President Guion resumed the chair.

Address by ADA President: Clyde E. Minges introduced F. Darl Ostrander, president-elect, American Dental Association.

Dr. Ostrander extended greetings to the Society from the American Dental Association and complimented the Society for its achievements in fluoridation and education for auxiliary personnel.

He reviewed the actions of the 1966 House of Delegates, including approval of the American Dental Association Dental Health Program for Children and the establishment of the Registry of Dental Laboratory Technicians.

In closing, he urged Society members to support the American Fund for Dental Education.

Honorary Memberships: President Guion presented Dr. Ostrander and Dr. Kellner with certificates of honorary membership in the Society.

Dr. Hand bestowed the title of "Tar Heel" on Dr. Ostrander and Dr. Kellner and presented them with tar heel pins.

Announcements: Edward U. Austin, convention-coordinator, expressed his appreciation to the members of the program committee and recognized the following principal clinicians for the meeting: Robert V. Walker, Dallas, Texas; Merle L. Hale, Iowa City, Iowa; Faustin N. Weber, Memphis, Tennessee; Captain Frank D. Grossman, Washington, D. C.; William D. Strickland and Benjamin R. Baker, Chapel Hill.

Executive Secretary Andrew M. Cunningham announced that registration totalled 455 at 5:00 p.m., including 223 members.

President Guion announced that because of illness the following members could not attend this meeting and that telegrams would be sent to them expressing the best wishes of the Society for a speedy recovery: Charles H. Teague, Greensboro; James H. Lee, Goldsboro; and James L. Keerans, Charlotte.

Adjournment: The meeting was adjourned at 10:30 p.m.

SECOND GENERAL SESSION

Thursday, May 11, 1967

Call to Order: The second general session of the 111th Annual Session of the North Carolina Dental Society was called to order by President J. Homer Guion at 8:30 p.m., Thursday, May 11, 1967, in the Cardinal Ballroom of The Carolina, Pinehurst. Amos S. Bumgardner led in prayer.

Election of Officers: President Guion appointed the following to serve as tellers: James A. Harrell, Chief, Penn Marshall, Jr., and David H. Freshwater.

Colin P. Osborne, Jr. of Lumberton and Thomas G. Collins of Raleigh were nominated for president-elect. By secret ballot Dr. Osborne was elected.

On motion by T. G. Collins, seconded by E. D. Baker and duly carried, the election of Dr. Osborne as president-elect was declared unanimous.

By acclamation the following officers were elected: James H. Lee of Goldsboro, vice president and Claibourne W. Poindexter of Greensboro, secretary-treasurer.

Erbie M. Medlin was elected by acclamation as a delegate to the American Dental Association for a term of three years.

Selection of Site for 1969: President Guion read a letter from The Carolina inviting the Society to meet in Pinehurst in 1969.

C. W. Poindexter, secretary-treasurer, announced that he had received a letter from the Jack Tar Hotel, inviting the Society to meet in Durham in 1969.

Paul A. Stroup, Jr. moved that the Society meet in Pinehurst in 1969. Seconded by Frank O. Alford. Motion carried.

Announcements: R. Bruce Warlick, chairman, Entertainment Committee, announced that Professor Backwards of television fame would be the featured entertainer on Saturday night.

Executive Secretary Andrew M. Cunningham announced that registration totalled 1,214 as of 5:00 p.m., including 595 members.

Adjournment: The meeting was adjourned at 10:00 p.m.

THIRD GENERAL SESSION

Saturday, May 13, 1967

Call to Order: The third general session of the 111th Annual Session of the North Carolina Dental Society was called to order by President J. Homer Guion at 4:00 p.m. in the Cardinal Ballroom of The Carolina, Pinehurst. Samuel H. Isenhower led in prayer.

Thanks: President Guion thanked the North Carolina Dental Auxiliary for providing a lawn party for Society members and guests on Friday afternoon.

Report of Clinic Committee: Paul A. Stroup, Jr., chairman, Clinic Committee, reported that the following table clinics had been selected for presentation at the American Dental Association meeting in Washington, D. C., October 29-November 2, 1967:

1. Pinlays the Easy Way, Richard F. Hunt, Jr., Rocky Mount and Alan L. Stoddard, Havelock.
2. Some Uses of Stainless Steel Crowns, Franklin D. Pattishall, Morganton.
3. Safety in Dental Roentgenography, P. C. Purvis, Fairmont.
4. Aids to Positive Full Lower Denture Retention, W. T. Schadel, J. R. Mertz, and W. F. Grimes, Fayetteville.
5. Cleft Lip Palate Treatment, Galen W. Quinn, Durham.
6. Multiple Parallel Pin Technique Using Friction Lock Pin, Jon W. Couch, Asheboro.
7. Surgical Corrections of Maxillary Deformities, R. Donald Coffey, Jr., Dallas, Texas.

Announcement: Executive Secretary Andrew M. Cunningham announced that registration for the 111th Annual Session exceeded all previous records as follows:

Members

First District	109
Second District	206
Third District	198
Fourth District	152
Fifth District	111
<hr/>	
Total members	776
Visting Dentists	142
Auxiliary	366
Exhibitors	139
Guests	409
Dental Hygienists	45
Dental Assistants	153
Dental Students	126
Laboratory Technicians	30
<hr/>	
Grand Total	2,186

Installation of Officers: President Guion installed George F. Kirkland, Jr. of Durham as president and a delegate to the American Dental Association.

Dr. Kirkland installed the following officers and delegates:

President-Elect: Colin P. Osborne, Jr., Lumberton

Vice President: James H. Lee, Goldsboro

Secretary-Treasurer: Claibourne W. Poindexter, Greensboro

ADA Delegate: Erbie M. Medlin, Aberdeen

Presidential Appointments: President Kirkland announced the following appointments:

Chairman, Executive Committee: Frank G. Atwater, Greensboro

Speaker of the House: Ralph D. Coffey, Morganton

Program Chairman: Baxter B. Sapp, Jr., Durham

General Chairman 1968 Annual Session: L. D. Herring, Raleigh

Adjournment: The 111th Annual Session was adjourned sine die at 4:45 p.m.

Now...one posterior tooth design

takes the place of all these!

There are no contra-indications for the use of
Swissdent's new Centrimatic posterior teeth.

Try Centrimatic teeth and compare them with any other tooth you've ever used. You'll find Centrimatic teeth produce better results, without changing your present office procedure.

The Swissdent laboratories listed below are expert in the use of Centrimatic teeth. They will be happy to assist you with your denture problems. Give one of them a call on your next case. And send in the coupon for stone models of completed Centrimatic dentures, along with full information on Swissdent's new Centrimatic tooth design.

Swissdent Corporation
P.O. Box 60054, Terminal Annex
Los Angeles, California 90054

Please send me, at no charge, stone models and complete information about Centrimatic.

GOOD NUTRITION PROMOTES DENTAL HEALTH

Good nutrition is necessary for normal growth, development, maintenance, and repair of *all* cells of the body. Dental health, then, like general health, depends in part on good nutrition.

To achieve a state of good nutrition, all essential food nutrients must be provided in ample amounts and in favorable ratio to each other. In addition, the body must be able to properly digest the food, and absorb and utilize the nutrients it provides.

Dental health, therefore, also favors good nutrition. This interrelationship is logical inasmuch as the first step in the digestion of food is its thorough chewing in the mouth.

Better dental health is possible for most persons, if present knowledge of factors which influence the health of the entire body and which affect teeth and gums locally is applied to daily living habits. This means meals should contain a well-chosen variety of foods. These foods should provide all known essential nutrients in recommended amounts. Excesses of any single type of food should be avoided, especially those which are concentrated sources of food energy without being accompanied by essential food nutrients.

NOW...FOR THE FIRST TIME...TWO CHAIRS IN ONE
THE CONVERTIBLE
REVELATION® CHAIR

SEATS SMALL OR TALL PATIENTS...

ADAPTS TO ANY TECHNIC

As easy as ABC to convert this unique chair

A: Push release button

B: Release backrest extension

C: Insert adjustable headrest

These three pictures give you an idea of how simple it is to adapt the convertible Revelation Chair to accommodate any patient, or any technic. Backrest extension lifts easily out of backrest, and adjustable headrest fits securely into the vacated slot. Headrest pads cradle the head firmly, giving you full control of your operating area in surgical, orthodontic, pedodontic and general technics. You can get this unique two-in-one chair in any of three backrest-headrest combinations. Call your dealer or write to S. S. White Company, Phila., Pa., 19105.

You should carry two, too...

You need *both* formulas of Carbocaine, to give you a choice of longer or shorter duration of local anesthesia. Take this young patient, for example. To prepare a cavity, extract a tooth, or whatever is indicated, in most cases the procedure will not take more than half an hour. Particularly with modern high-speed methods in operative procedures.

Carbocaine HCl 3% without vasoconstrictor

offers unsurpassed depth of anesthesia, of shorter duration to minimize the chance of biting a numb lip or cheek after the patient leaves the chair. *Operating anesthesia* averages 20 minutes upper, 40 minutes lower.

And in longer procedures...

Carbocaine HCl 2% with Neo-Cobefrin® (brand of levo-nordefrin) 1:20,000

gives the same superb depth of anesthesia, but extends its duration. Even the most complicated procedures rarely require reinjection.

FOR YOUR INFORMATION: These local anesthetic solutions are for dental block and infiltration injections only. There are no known contraindications in dentistry except for patients known to be sensitized. Inject slowly and avoid intravascular injection by aspirating. As with all local anesthetic solutions, adverse reactions due to intolerance, overdosage, or intravascular injection may occur and include nausea and vomiting, hypotension, convulsions and respiratory depression. Such reactions occur infrequently and usually are readily controlled by supporting circulation with a vasopressor and respiration with oxygen.

Carbocaine and Neo-Cobefrin are trademarks (Reg. U.S. Pat. Off.) of Sterling Drug Inc.

Carbocaine® HCl
brand of **mepivacaine HCl**

Dentures from Noble are different:

In selecting a laboratory to construct your dentures, you have many choices. You choose a laboratory that you hope will provide superior craftsmanship at equitable prices, and in the end, you and your patient have to live with the result. Denture construction is never easy, no matter how many successes or disappointments you have, and therefore the laboratory you choose is of particular importance.

To put it simply, what we offer is the finest laboratory service available to the profession today. All our customers receive the services of true craftsmen—a diminishing breed—at prices that are indeed reasonable for the quality of service we provide.

Our denture technicians have been trained by the Swissedent Foundation in the original world-famous Swiss techniques. We have the knowledge and the experience to construct dentures that are esthetically perfect for your individual patient's sex, personality and age.

Denture delivery becomes a pleasure when you know your instructions have been followed to the letter. Our business has been built and continues to grow on the basis that there can be no compromise in quality for a progressive dental practice. Send us your next denture case, so that we can demonstrate just how good a dental laboratory can be.

Our technicians can use Swissedent teeth, specially positioned and sculptured, to achieve esthetic results especially suitable for the vigorous, active male patient.

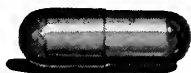

Swissedent teeth and procedures are used to achieve a vital, natural appearance in this full denture.
